Advances in Terrestrial Isopod Biology Jasna ?trus, Stefano Taiti, Spyros Sfenthourakis, 2012-03-20 Terrestrial isopods woodlice are the only group of crustaceans fully adapted to life on land and with about 3 700 species known at present represent the largest suborder of Isopoda They occur in almost any kind of terrestrial habitat from littoral to high mountains from forests to deserts with some species adapted to live in subterranean environments and others secondarily having returned to water Woodlice are particularly important from a biogeographical and an ecological point of view since they have limited dispersal ability are often endemic to small geographic areas and are extremely diverse ecologically They also represent an excellent model group of animals to study the physiological adaptations related to the transition from an aquatic to a terrestrial way of life This special issue of ZooKeys includes a collection of 20 papers presented during the 8th International Symposium on Terrestrial Isopod Biology which was held at Bled Slovenia from 19th to 23rd June 2011 Contributions address a wide range of topics related to terrestrial isopods such as systematics biogeography morphology physiology molecular biology microbiology and ecology Two contributions are related to the state of the art and future perspectives on biomineralizations in crustaceans and ecotoxicology in soil fauna This special issue will be of great value for anyone interested in the biology of crustaceans in general and of terrestrial isopods in particular stimulating future research on this unique group of animals

Runways & Racers Terry O'Neil, 2011 Runways and Racers focuses on sports car races held at military installations throughout America in the early 1950s It was a marriage of convenience for the Sports Car Club of America and the Strategic Air Command with both parties gaining advantages from the arrangement The thorn in the side turned out to be a Congressman whose own aspirations exceeded his standing but who found himself in a position to be able to influence the outcome of events

Sports Car Market magazine - April 2008 , Imaging light transport at the femtosecond scale Lorenzo Pattelli, 2018 Paper milk clouds and white paint share a common property they are opaque disordered media through which light scatters randomly rather than propagating in a straight path For very thick and turbid media indeed light eventually propagates in a diffusive way i e similarly to how tea infuses through hot water Frequently though a material is neither perfectly opaque nor transparent and the simple diffusion model does not hold In this work we developed a novel optical gating setup that allowed us to observe light transport in scattering media with sub ps time resolution An array of unexplored aspects of light propagation emerged from this spatio temporal description unveiling transport regimes that were previously inaccessible due to the extreme time scales involved and the lack of analytical models

Spatial Analysis in Health Geography Pavlos Kanaroglou, Eric Delmelle, 2016-03-09 Presenting current research on spatial epidemiology this book covers topics such as exposure chronic disease infectious disease accessibility to health care settings and new methods in Geographical Information Science and Systems For epidemiologists and for the management and administration of health care settings it is critical to understand the spatial dynamics of disease For instance it is crucial that hospital administrators develop an understanding of the flow of

patients over time especially during an outbreak of a particular disease so they can plan for appropriate levels of staffing and to carry out adaptive prevention measures Furthermore understanding where and why a disease occurs at a certain geographic location is vital for decision makers to formulate policy to increase the accessibility to health services either by prevention or adding new facilities Spatial epidemiology relies increasingly on new methodologies such as clustering algorithms visualization and space time modelling the domain of Geographic Information Science Implementation of those techniques appears at an increasing pace in commercial Geographic Information Systems alongside more traditional techniques that are already part of such systems This book provides the latest methods in GI Science and their use in health related problems

Northeast American Sports Car Races 1950-1959 Terry O'Neil,2010 This book focuses on the different aspects that contributed to the development of Northeast American sports car racing during the 1950s The evolution from amateur drivers racing on public roads in 1950 to both professional and amateur drivers racing at private purpose built tracks in 1959 demanded huge leaps of faith trust and understanding The transition was neither easy nor uneventful for drivers clubs or track owners and the tragedy politics and in

Current Trends of Insect Physiology and Population Dynamics: Modeling Insect Phenology, Demography, and Circadian Rhythms in Variable Environments Petros T. Damos,Sibylle C. Stoeckli,Alexandros Rigas,2018-06-12 The current eBook collection includes substantial scientific work in describing how insect species are responding to abiotic factors and recent climatic trends on the basis of insect physiology and population dynamics The contributions can be broadly split into four chapters the first chapter focuses on the function of environmental and mostly temperature driven models to identify the seasonal emergence and population dynamics of insects including some important pests The second chapter provides additional examples on how such models can be used to simulate the effect of climate change on insect phenology and population dynamics The third chapter focuses on describing the effects of nutrition gene expression and phototaxis in relation to insect demography growth and development whilst the fourth chapter provides a short description on the functioning of circadian systems as well as on the evolutionary dynamics of circadian clocks
