world's first atomic bomb had not been ready for use when it was. How would this have affected the end of the war in the Pacific and indeed the Second World War as a whole? Would Emperor Hirohito's armed forces have battled on? When might Colonel Paul W. Tibbets at the controls of his Boeing B-29 Superfortress Enola Gay have then made his historic flight over Hiroshima and would that city even have remained the target? How would Stalin and the Soviets have reacted to such developments and how would this have played out in the post-war world?
