Pérez Jr.,2008-08-15 For more than two hundred years Americans have imagined and described Cuba and its relationship to the United States by conjuring up a variety of striking images Cuba as a woman a neighbor a ripe fruit a child learning to ride a bicycle Louis A Perez Jr offers a revealing history of these metaphorical and depictive motifs and discovers the

powerful motives behind such characterizations of the island as they have persisted and changed since the early nineteenth century Drawing on texts and visual images produced by Americans ranging from government officials policy makers and journalists to travelers tourists poets and lyricists Perez argues that these charged and coded images of persuasion and mediation were in service to America s imperial impulses over Cuba      **Hearings** United States.
