Betting Maidens And 2 Year Olds Analytical Approach To Future Winners Elements Of Handicapping:

Betting Maidens and 2-Year-Olds Dan Illman, 2005 This book is an informative account on profitable ways to handicap juvenile and maiden races through sire and trainer profiles breeding and workout information First of its kind to thoroughly cover baby races juvenile horses and older maidens

Betting Maidens & 2-year-olds : \$b Analytical Approach to Future Winners Dan Illman, 2005 *The Illustrated London News* ,1867 *UK Horse Racing Handicap System* M C Horrocks, 2020-05-08 My Background I graduated from University with a computer science degree many years ago when a degree meant something I was always interested in horse racing and was fascinated in solving the UK horse racing form puzzle I started my own computer business in my early 20 s where I made good money and travelled across Europe It was at this point in my life I decided to start a horse tipping business where I had weekly full page colour adverts in the *Racing Post* at 2K per advert and offices I left the running of this horse tipping business to staff who were responsible for all parts of the business while I concentrated on my computer business In my late 30 s around 1990 I decided to use my computer skills to computerise and model UK horse racing form using a database built with 10 years of detailed horse racing form It was over a period of 2 years that I concentrated my efforts on UK handicap races in conjunction with the betting exchange Betfair This is where I believed maximum profit could be gained The computer model allowed me to process 100 s of handicap races per day and then formulate my system tweeking a horse s weight and BHB or OR Official Rating I must confess this was a difficult puzzle to crack even with a computer program that I wrote to crunch the data I eventually found the correct weight and BHB rating for a horse based on it s last performances in handicap races This eBook outlines this system and can be manually applied easily using the *Racing Post* on the internet Punter s can be fickle people which 95% of them have no understanding of horse form and probability If you can back horses at higher prices then you will make money I regularly back horses that have a starting price of 2 1 and get 10 1 Most punters want winners everyday regardless of the price and the horse s real chance of winning that race this is where the bookmakers clean up

The Most Powerful System Ever Devised for Thoroughbred Race Betting Plus 18 Spot Play Angles Ken Osterman, 2021-09-06 In this book by sports and horse racing handicapper Ken Osterman he focuses exclusively on thoroughbred handicapping and has put down in writing the one system he uses at race books throughout Las Vegas Nevada He has given this method the audacious title of The Most Powerful System Ever Devised for Thoroughbred Race Betting In many ways it is the most powerful method because it is based upon solid mathematics and statistics It can also be applied at any track at any distance for winning horses three year old and upward carded at any track in the United States or Canada This method can be used as a handicapping system all by itself but what makes it even more attractive as a handicapping method is that it fits with other methods You can use this method first and then apply your favorite handicapping approach to the remainder of the field Alternatively you can do the opposite and start with your handicapping approach After finding what you believe to be the winner of the race you can then

apply this method to your choice This will give your selection greater validity and strength or it may give you a reality check by pointing out the weakness of your choice Along with the title method there are a wide range of spot plays angles in this book covering claiming races sprints speed turf maiden races two year old races long shot methods beaten favorites and other categories The following are the titles for each spot play in the book The New Low Claiming Price Angle The B6 Sprint System for Thoroughbreds Bet the Fastest Horse The Route Speed Method Class on the Turf Three Strikes and You re Out A Maiden Claiming Route Angle First Time Maiden Claiming The Speed and Earnings Method Best Jockey Two Race Declines A Beaten Favorite System Twice Beaten Favorites The Previous Odds Angle The Sleeper Horse The 4 1 2 Furlong Race System Tote Board Magic Tote Board Magic II Betting Favorites Using the Modified d Alembert Betting Method **Winning Without Thinking** Nick Mordin,2002 How to take advantage of recurring patterns in the results of horse race Basic principles that govern racing results and the betting market Mistakes commonly made by the general betting public and how to exploit them Full details of betting systems used by professional gamblers that have made them millions How to predict and profit from new trends How to use computers to increase your returns from betting Bet to Win! Bobby Zen,2007-09 This is an instruction manual to finding winners at the races including worksheets Back cover *Thoroughbred Horse Handicapping and Wagering* Andrew J. Page,2012-05-08 Thoroughbred Horse Handicapping and wagering using the Holy Bible of Horse Racing is a book that contains a primer for folks that do not know much about thoroughbred horse racing In addition it provides a methodology for picking horses that will most likely finish second or better in races that are qualified for wagering It then describes different approaches to wagering There are what I call another section which I call special conditions that prompt special attention and will provide an avenue for Win Place Show bets across the board as well as some short stories of the some of the real characters I have met while playing the ponies **Winners at Prices** Robert Saunders Dowst,1947 **Picking Winners No Problem** M C Horrocks, Introduction The title of this book is a bold statement and one cannot really state this unless you put your money where your mouth is I have written many books around UK horse racing systems and this one I really enjoyed due to the simplicity of this horse racing system and how easy it is to apply The system uses the excellent free racing post website where you can obtain all the form data you need to use this system Plus you do not have to be a form expert to understand it I personally think horse racing pundits make heavy weather of horse racing form i e looking at a horse s breeding and many other factors I think this information just confuses the average punter I have added a special bonus horse laying system in this book and I think you will enjoy it This laying system is so easy to follow you will look back at all the bets you have placed in the past and wonder how did I get it so wrong Yes it will hurt knowing how much money you lost when you should have not Moving back onto the horse backing system picking winners will be very easy for you and even more you will gain confidence and control in your betting This horse racing system normally picks 2 to 3 horses per day in UK handicap horse racing markets You should aim at using Betfair to place your bets

due to the better prices and in play tactic I will show you in this book Understand the system before placing bets I hope you enjoy it

Beyer on Speed Andrew Beyer,2007 Written in Beyer s clean rapid fire prose this book explains how to relate speed figures to such factors as pace track bias and track conditions It discusses exotic wagers such as the pick six and reveals optimal uses of the figures based on computer analysis of more than 10 000 races Blending colorful anecdotes it presents a revolutionary way to play the horses

Smart Handicapping Made Easy William Bauman,1974

Horse Racing Betting Secret System M. C. Horrocks,2020-12-13 IntroductionI must thank you for buying my book and appreciate any comments on the system I have inserted my email address at the end of the book Plus feel free to email me if you have any questions or need any help This horse racing system took me approximately 12 months to computer model and test primarily around UK handicap horse races This would have not been possible without my 10 years database of horse form and my I T computer skills UK Handicap

horse racing fascinates me I find it a great puzzle to solve and love form variables like weight official rating and many more This UK horse racing system has four simple steps that find winners daily and I have outlined tips to get more profit I like using this system for betting singles and doubles which are lethal and produce massive profits In the book I have covered a horse race in extensive detail so that you understand the system and how to apply the horse racing system to each race quickly and thus finding winners easily I suggest that you make yourself familiar with each step of the system before you start placing bets I have included 100 s of horse racing result examples that the system produced for the flat and jumps season 2019 2020 so you can back check these results to ensure you understand it In other words you can apply the system on these past results I have outlined using the racing post on the internet and my system With this suggested approach you will become more confident when placing bets or trades on your selections Note Try to keep away from stupid Lucky15 bets and large ACCAs etc These are silly bets for recreational punters who bet with bookmakers at cramped odds I wrote this book to help fellow punters and traders to get an edge I hope you enjoy this one High-tech Handicapping in the Information Age James Quinn,1986
