Between Pacifism And Jihad Just War And Christian Tradition:

Between Pacifism and Jihad J. Daryl Charles, 2009-09-20 Pacifism Jihad Militarism Are these our only alternatives for dealing with global injustice today J Daryl Charles leads us to reconsider a Christian view of the use of force to maintain or reestablish justice He shows how love for a neighbor can warrant the just use of force Reviewing and updating the widely recognized but not necessarily well understood just war teaching of the church through the ages Charles shows how it captures many of the concerns of the pacifist position while deliberately avoiding on the other side the excesses of jihad and militarism Aware of our contemporary global situation Charles addresses the unique challenges of dealing with international terrorism

Justice and the Just War Tradition Christopher J. Eberle, 2016-02-05 Justice and the Just War Tradition articulates a distinctive understanding of the reasons that can justify war of the reasons that cannot justify war and of the role that those reasons should play in the motivational and attitudinal lives of the citizens soldiers and statesmen who participate in war Eberle does so by relying on a robust conception of human worth rights and justice He locates this theoretical account squarely in the Just War Tradition But his account is not merely theoretical Justice and the Just War Tradition has a variety of practical aims one of the most important of which is to serve as an aid to moral formation The hope is that citizens soldiers and statesmen whose emotions and aspirations have been shaped by the Just War Tradition will be able to negotiate violent communal conflict in ways that respect the demands of justice So Justice and the Just War Tradition articulates a theoretically satisfying and practically engaging account of the reasons that count in favor of war Moreover Eberle develops that account by engaging contemporary theorists both philosophical and theological by according due deference to venerable contributors to the Just War Tradition and by integrating insights from military memoir the history of war and the author's experience of teaching ethics at the United States Naval Academy *War, Peace, and Christianity* J.

Daryl Charles, Timothy J. Demy, 2010 This informed Christian response to more than one hundred common questions regarding the ethics of war demonstrates the viability of just war reasoning in responding to contemporary geopolitical challenges *The Prism of Just War* Howard M. Hensel, 2016-03-03 Through a careful examination of religious and philosophical literature the contributors to the volume analyze compare and assess diverse Western Islamic Hindu and East Asian perspectives concerning the appropriate criteria that should govern the decision to resort to the use of armed force and once that decision is made what constraints should govern the actual conduct of military operations In doing so the volume promotes a better understanding of the various ways in which diverse peoples and societies within the global community approach the question of what constitutes the legitimate use of military force as an instrument of policy in the resolution of conflicts

The Sacredness of Human Life David P. Gushee, 2013-01-14 A comprehensive examination of the sacredness of human life encompassing biblical roots theological elaborations historical cases and contemporary ethical perspectives Gushee argues that viewing human life as sacred is one of the most precious legacies of biblical faith albeit one

that the church has too often failed to uphold

Military Necessity and Just War Statecraft Eric Patterson, Marc LiVecche, 2023-12-19 This book analyzes the concept of military necessity and just war thinking and argues that it should be seen as a vital moral principle for leaders The principle of military necessity is well understood in the manuals of modern militaries and is recognized in the war convention It is the idea that battlefield commanders should make every effort to win on a local battlefield within legal means and using proportionate and discriminating weapons and tactics Every legal textbook on war includes military necessity as a foundational principle within the jus in bello ethics of fighting war alongside principles of proportionality and distinction and it is taught in every Western military academy Even the International Committee of the Red Cross lauds the concept as a cardinal principle of warfare However unlike legal scholarship one can pick up a book by almost any just war thinker in philosophy theology or the social sciences and the concept is missing altogether in their literature This volume returns military necessity to just war thinking and lays out the argument for doing so Each contributor taps into one of the many dimensions of military necessity such as its relationship to jus ad bellum ethics of going to war categories e g right intention its relationship to jus in bello categories or its application in foreign policy and military doctrine Case studies in the book point out the practical moral dimensions of military necessity in cases from the targeted killing of terrorists to battlefield decisions that led to the use of the atomic bomb at Hiroshima This book will be of interest to students of just war theory military ethics statecraft and international relations

The Encyclopedia of Christianity, Vol. 5 Erwin Fahlbusch, Geoffrey William Bromiley, 1999 Written by leading scholars from around the world the articles in this volume

range from sin Sufism and terrorism to theology in the 19th and 20th centuries Vatican I and II and the virgin birth The Ashgate Research Companion to Military Ethics James Turner Johnson, Eric D. Patterson, 2016-03-23 This Companion provides scholars and graduates serving and retired military professionals members of the diplomatic and policy communities concerned with security affairs and legal professionals who deal with military law and with international law on armed conflicts with a comprehensive and authoritative state of the art review of current research in the area of military ethics Topics in this volume reflect both perennial and pressing contemporary issues in the ethics of the use of military force and are written by established professionals and respected commentators Subjects are organized by three major perspectives on the use of military force the decision whether to use military force in a given context the matter of right conduct in the use of such force and ethical responsibilities beyond the end of an armed conflict Treatment of issues in each of these sections takes account of both present day moral challenges and new approaches to these and the historical tradition of just war Military ethics as it has developed has been a particularly Western concern and this volume reflects that reality However in a globalized world awareness of similarities and differences between Western approaches and those of other major cultures is essential For this reason the volume concludes with chapters on ethics and war in the Islamic Chinese and Indian traditions with the aim of integrating reflection on these approaches into the broad consideration of military ethics provided by this volume **Serve and Protect** Tobias Winright, 2020-11-13 This collection of essays on policing and the use of force while written over the course of the last twenty five years remains relevant and timely Although issues in policing and questions about excessive force and brutality have been addressed by criminologists sociologists philosophers and criminal justice ethicists only a handful of theological ethicists treat this pressing matter While the Christian moral tradition has a voluminous record of theological attention to violence and nonviolence war and peace there is a dearth of references to policing And most considerations of criminal justice issues by Christians and their churches concentrate on prison reform or abolition and the death penalty but not policing These essays authored by a theological ethicist possessing professional experience in law enforcement seek to fill this curious gap They offer a framework for moral reasoning concerning the justification for police use of force and the just application of such force and they propose just policing as a model that is consonant with promoting a just peace in communities and society In addition they explore the implications of such an approach for wider international questions about just war terrorism the responsibility to protect and post war justice **Islam and War** John Kelsay, 1993-01-01 This book explores questions regarding the justice of war and addresses the lack of comparative perspectives on the ethics of war particularly with respect to Islam Focusing on the role of Islamic symbols in the rhetoric of Saddam Hussein Kelsay provides an overview of the Islamic tradition regarding war and peace and investigates the notion of religion as a just cause for war Be a Perfect Man Andrew J. Romig, 2017-08-28 The life of an aristocratic Carolingian man involved an array of behaviors and duties associated with his gender and rank an education in

arms and letters training in horsemanship soldiery and hunting betrothal marriage and the virile production of heirs and the masterful command of a prominent household In *Be a Perfect Man* Andrew J Romig argues that Carolingian masculinity was constituted just as centrally by the performance of *caritas* defined by the early medieval scholar Alcuin of York as a complete and all inclusive love for God and for fellow human beings flowing from the whole heart mind and soul The authority of the Carolingian man depended not only on his skills in warfare and landholding but also on his performances of empathy devotion and asceticism Romig maps *caritas* as a concept rooted in a vast body of inherited Judeo Christian and pagan philosophies shifting in meaning and association from the patristic era to the central Middle Ages Carolingian discussions and representations of *caritas* served as a discourse of power a means by which early medieval writers made claims both explicit and implicit about the hierarchies of power that they believed ought to exist within their world During the late eighth ninth and early tenth centuries they creatively invoked *caritas* to link aristocratic men with divine authority Romig gathers conduct handbooks theological tracts poetry classical philosophy church legislation and exegetical texts to outline an associative process of gender ideology in the Carolingian Middle Ages one that framed masculinity asceticism and authority as intimately interdependent The association of power and empathy remains with us to this day Romig argues as a justification for existing hierarchies of authority privilege and prestige

Modern Just War Theory Michael P. Farrell, 2013-06-20 Contributions to Illuminations A Scarecrow Press Series of Guides to Research in Religion provide students and scholars lay readers and clergy with a road map to research in key areas of religious study All commonly constructed with introductions to the topic and reviews of key thinkers concepts and events each volume includes surveys of the primary and secondary sources with critical evaluations of their places in the canon of thought and research on the topic Focusing primarily on the knowledge required by today's students and scholars each guide is a must have for any student of religion The twentieth century saw an explosion of wars and an accompanying explosion of literature on the morality of war Thinking among Christian clerics and scholars on the idea of just war shifted with developments on the battlefield Alternatives to just war theory such as pacifism and realism found new proponents in the published work of the neo Anabaptists and Niebhurians Meanwhile proponents of Christian just war theory had to address challenges from competing ideologies as well as those presented by the changing nature of warfare *Modern Just War Theory A Guide to Research* by scholar and librarian Michael Farrell serves as a manual for students and scholars studying Christian just war theory helping them navigate the wealth of just war literature produced in the twentieth and twenty first centuries Farrell's guide provides an introduction to the major developments of just war theory in the twentieth century including sections on how to research just war theory an overview of some of the most important theorists and developments of the twentieth century and discussions of key search terms and related topics Farrell then surveys and evaluates key primary and secondary sources for researchers on just war theory as well as related sources on Christian realism and the responses of just war theorists to

proponents of pacifism and secular just war theories Modern Just War Theory will appeal to students and scholars of theology military history international law and Christian ethics **Dissent from War** Robert L. Ivie, 2007 The rhetorical presumption of war's necessity makes violence regrettable but seemingly sane and functions to shame anyone who opposes military action Ivie proposes that the presence of dissent is actually a healthy sign of democratic citizenship and a responsible and productive act which has been dangerously miscast as a threat to national security Ivie a former US Navy petty officer puts a microscope to the language of war supporters throughout history and follows the lives and memories of soldiers and anti war activists who have dealt with degrees of confusion and guilt about their opposition to war Arguing that informed dissent plays out largely in the realm of rhetoric he equips readers with strategies for resisting the dehumanizing language used in war propaganda Through his careful study of language strategies he makes it possible to foster a community where dissenting voices are valued and vital *The Witness of Jesus, Paul and John* Larry R. Helyer, 2023-07-17 This book introduces the

reader to the discipline of biblical theology In part one Helyer discusses the central problem of the unity of the Bible and the various options that have been proposed He then argues for a vital connection between the testaments forming one grand story of redemptive history and one central theme the coming kingdom of God Part two takes up the theology of three major witnesses Jesus Paul and John In these three witnesses Helyer finds the center of New Testament thought He emphasizes the importance of Jesus teaching as foundational for all the other the New Testament witnesses Without overlooking the diversity and individuality of the major witnesses he clearly demonstrates the theological unity that binds them together and provides the key to the enduring message of Scripture Caesar and the Lamb, Second Edition George Kalantzis, 2025-05-30

Through the available patristic writings Caesar and the Lamb focuses on the attitudes of the earliest Christians on war and military service Kalantzis provides the reader with many new translations of pre Constantinian texts and tells the story of the struggle of the earliest church to bear witness to the nations that enveloped them as they transformed the dominant narratives of citizenship loyalty freedom power and control Kalantzis examines writings on war and military service in the first three centuries of the Christian church in an organized manner but the ways the communities of Christ at the margins of power and society thought of themselves and the state are not presented here through the lens of antiquarian curiosity At the heart of Caesar and the Lamb is a desire to understand the world in which Christianity arose and to ask questions of the past that may help us understand the early character of the Christian faith with the hope that such an enterprise will also help us evaluate its expression in our own time **Christian Responses to Terrorism** Gordon L. Heath, David Kirwa

Tarus, 2017-11-01 How should Christians respond to terrorism and terrorists in their midst Terrorism is a global problem and no society on earth faces it alone The mainly Christian society of Kenya has suffered more than most as it attempts to counter the threat of al Shabaab Some pastors have asked for permission to carry guns Many Christians support government military action while others recommend pacifist stances and strive for dialogue and reconciliation with the Muslim community In this

book ten Kenyan Christian thinkers and practitioners share their experiences and insights A response section from seven others including a Kenyan Muslim scholar enrich the discussion
