**Between Voice and Silence** Jill McLean Taylor, Carol Gilligan, Amy M. Sullivan, 1995 The result is a deeper and richer appreciation of girls development and women s psychological health **Between Voice and Silence** Jill McLean Taylor, Carol Gilligan, Amy M. Sullivan, 1995 More than any other psychologist Carol Gilligan has helped us to hear girls voices just when they seem to be blurring and fading or becoming disruptive during the passage into womanhood When adolescent girls once assured and resilient silence or censor themselves to maintain relationships they often become depressed and develop eating disorders or other psychological problems But when adolescent girls remain outspoken it is often difficult for others to stay in relationship with them leading girls to be excluded or labeled as troublemakers If this is true in an affluent suburban setting where much of the groundbreaking research took place what of girls from poor and working class families what of fading womanhood amid issues of class and race And how might these issues affect the researchers themselves In **Between Voice and Silence** Taylor Gilligan and Sullivan grapple with these questions The result is a deeper and richer appreciation of girls development and women s psychological health In an urban public school among girls from diverse cultural backgrounds African American Hispanic Portuguese and white and poor and working class families the authors sought a key to the relationship between risk resistance and girls psychological development and health Specifically they found cultural differences that affect girls coming of age in this country In **Between Voice and Silence** the story of the study parallels another that of African American Hispanic and white women who gathered to examine their own differences and to learn how to avoid perpetuating past divisions among women Together these two stories reveal an intergenerational struggle to develop relationships between and among women and to hold and respect difference

**Between Speaking and Silence** Mary M. Reda, 2009-01-28 Why are students silent Using written reflections and interviews Mary M Reda examines students perceptions of speaking and being silent in a first year composition classroom and explores how their teachers classroom relationships and their own sense of identity shape their decisions to speak or be silent By challenging many firmly held beliefs about those quiet students in the back of the classroom **Between Speaking and Silence** offers the new vision that silence is not necessarily problematic

**Making Meaning of Narratives** Ruthellen Josselson, Amia Lieblich, 1999-04-05 The sixth volume in this series provides guides for doing qualitative research analysis of several autobiographies hints on how to interpret what is not said in narrative interviews discussion on how cultural meanings and values are transmitted across generations and illustrations of the transformational power of stories

*Feminist Ethics and the Politics of Love* Feminist Review Collective, 1998 Ethics and love are examined in different situations the contradictions of feminism in Imperial Japan the role of women in miners struggles in the

UK and the contemporary politics of abortion in Ireland      *Why Love Leads to Justice* David A. J. Richards, 2016 This book tells the stories of notable historical figures whose resistance of patriarchal laws transformed ethical political and legal standards      **Mother-Texts** Julie Kelso, Marie Porter, 2010-07-12 Every day human beings tell and are told stories sometimes in obvious ways sometimes not Most of our communication with each other direct or indirect involves narrative production and reception Narrative is constitutive of human being However whose narratives are heard Feminists argue that the relations between language knowledge gender and power particularly the question as to whether man made and controlled language is a material fit to receive and convey woman s stories are critical issues because historically patriarchy has worked to silence women s dialogue Male knowledge unsurprisingly created and continues to create unrepresentative maternal narratives which lead to unreal expectations of mothers and motherwork It is therefore disconcertingly significant for mothers that neither mothers nor their motherwork have been considered worthy of historical record nor are historical records usually written from a mother s perspective Hence the narrative research in this book which gives recognition to motherhood mothers and or the work they do is valuable It adds to the rapidly accumulating maternal research research that is now available for the historical record Mothers are speaking up developing a canon of literature research narrated in maternal language and claiming maternal knowledge and power      *Reading from the Underside of Selfhood* Lisa E. Dahill, 2009-01-01 Dietrich Bonhoeffer s example of self sacrificing discipleship has for over fifty years inspired Christians around the world in both their resistance to evil and their devotion to Jesus Christ Yet for some readers particularly those who suffer trauma abuse and other forms of violence Bonhoeffer s insistence on self sacrifice on becoming a person for others may prove more harmful than liberating For those already socialized into self abnegation uncritical applications of Bonhoeffer s teachings may reinforce submission rather than resistance to evil This study explores Bonhoeffer s understandings of selfhood and spiritual formation both in his own experience and writings and in light of the role of gender in psycho spiritual development The central constructive chapter creates a mediated conversation between Bonhoeffer and these feminist psychologists on the spiritual formation of survivors of trauma and abuse including not only dimensions of his thinking to be critiqued from this perspective but also important resources he contributes toward a truly liberating Christian spirituality for those on the underside of selfhood The book concludes with suggestions regarding the broader relevance of this study and implications for ministry The insights for spiritual formation developed here provide powerful proof of Bonhoeffer s continuing and concretely contextualized relevance for readers across the full spectrum of human selfhood

**The Deepening Darkness** Carol Gilligan, David A. J. Richards, 2008-11-10 Why is America again unjustly at war Why is its politics distorted by wedge issues like abortion and gay marriage Why is anti-Semitism still so powerfully resurgent Such contradictions within democracies arise from a patriarchal psychology still alive in our personal and political lives in tension with the equal voice that is the basis of democracy This book joins a psychological approach with a political theoretical one that traces both this psychology based on loss in intimate life and resistance to it based on the love of equals to the Roman Republic and Empire and to three Latin masterpieces Virgil's Aeneid Apuleius's The Golden Ass and Augustine's Confessions In addition this book explains many other aspects of our present situation including why movements of ethical resistance are often accompanied by a freeing of sexuality and why we are witnessing an aggressive fundamentalism at home and abroad
