Divorce Kathlyn Gay,2014-09-16 It has been estimated that at least half of the children in America come from families that have been affected by divorce Of those children more than half will see a parent s second marriage dissolve as well The impact of divorce on teens can be devastating adversely affecting their attitudes behaviors and schoolwork as well as their relationships with both friends and family Divorce The Ultimate Teen Guide focuses on the difficulties young people face in the wake of an epidemic that affects so many families This book offers encouragement insights and resources to help teens cope with the challenges that come from living with divorce Chapters address such issues as Managing parental conflicts Financial concerns Communication problems Placing blame and taking sides Depression Living in a stepfamily Featuring stories about and quotes from young people and adults who have experienced parental separation and divorce this book will be helpful for readers who are trying to deal with similar situations With an emphasis on strategies and resources Divorce The Ultimate Teen Guide will help young people cope with this often devastating experience The Affirmation Crisis Randy Hix,2018-08-28 There is an Affirmation Crisis It is the result of fatherlessness Generations have grown up without a father Whether physically or emotionally absent it leaves in the child a wound of absence Fatherlessness has become a major social problem in America even an epidemic with approximately 50% of children under the age of 18 not living in the same home as their biological father It has been documented in many ways and yet it is a secret hidden in plain view Over the last fifty years the family has been under attack Concepts and opinions concerning the family have changed and a new perception of family has emerged Much of the destruction of the family has been popularized and normalized through the media and arts and entertainment The large percentage of marriages that end in divorce and the increasing trend of out of wedlock births seems to have contributed to a widespread belief that being a single parent is somehow a noble venture and that the father is unimportant to raising children There are indeed many exceptional single parents But these are the exceptions to the rule as statistics prove It is as if there were a systematic scheme in the works to destroy our society by using progressive cultural engineering The influence of popular approaches to the family in the media that rejects traditional and biblical norms of family construction is creating a confused depressed and fractured population Men and

women with a confused self identity and self confidence are the product of this fatherlessness epidemic and this affirmation crisis Today after over a hundred years of cultural fatherlessness we have seen multiple generations who have grown up without the father s emotional and often physical influence and support Combine that with two world wars economic challenges media influence rising divorce rates sexual identity conflict and you are left with a generation of wandering fatherless children Many of these fatherless children are wounded adults who continue to live their lives not knowing that they are suffering from the wound of absence referred to as the father wound The father wound in short is the absence of the emotional blessing that only the father can provide to the child One of the major responsibilities of the father is the modeling and impartation of true fatherhood A father is the God given instrument that identifies the child as well as gives the child a sense of self and self confidence This is true for both men and women Every young man is waiting for his father to tell him he has what it takes Every young woman is waiting for a father to show her that she is beautiful and worthy to be pursued and protected Every young man looks to his father for affirmation and identity Every young girl is looking to the father for her identity and affirmation as a woman The father identifies the child The father calls forth the masculine in the son and the femininity of the daughter Without this essential input from Dad the boy struggles to see himself as a man and the girl struggles to identify as a woman Their spirit cries out for a father to save them Our fathers have a special role to play in our discovery of who we are in life This is why a father telling his child a statement like You ll never amount to anything has such a devastating effect On the other hand a father who lovingly affirms his child is giving him a solid foundation towards developing into a healthy well adjusted adult In The Affirmation Crisis Pastor Teacher and Missionary Randy Hix details the serious impact this fatherlessness epidemic is having on our society and individuals Randy explains our Heavenly Father s original plan for the family and how to receive the needed affirmation and healing needed to mend the wounded heart

From the protectiveness and strength a dad provides to the unfettered adoration that can be found only in a daughter, the unique qualities of this special bond are illustrated through real life stories of daughters and dads and accompanied by beautiful photographs. It's for every dad who longs to return to the days when his daughter anxiously awaited his coming home from work. And it's for every daughter who misses the days when her father carried her up to bed or taught her how to dance on the top of his shoes. This book reminds us all that no matter what there is and always will be a place for daddy's little girl. *Daughters Need Fathers, Too* Tina M. Kelly Ph. D., 2017-12-22. Fathers are important role models for their daughters. They are the first men that their daughters relate to and the relationships with their fathers set the tone for any relationships their daughters have in the future. There is no doubt that fathers-daughter relationships impact daughters both positively and negatively. There are similarities between the father-daughter relationships, the daughters' perception of themselves and how other men perceive them to be. Daughters drastically need their fathers' support, acceptance, and love. Daughters who have positive relationships with their fathers are left with strong values, confidence, and high self-esteem. The daughters who have experienced failed relationships with their fathers are in need of compassionate relationships with other men and other people who are vulnerable to their pain. Daughters who suffer from negative relationships should learn to place high values on themselves, acknowledge that they are somebody, and that they hold the key to their own happiness. Many people do not identify the impact fathers have on their daughters' lives. As a result, these daughters can go through endlessly with no expectations of healing from the damage caused by lack of positive relationships with their fathers. If one is to comprehend the impact of father-daughter relationships, one must be open to comprehend the effect of that relationship. Fathers impact their relationship with their daughters, especially the role fathers play after divorce. After parents divorce, daughters have various feelings of support, love, comfort, discomfort, honor, and disappointment. When fathers are part of their daughters' lives, they grow up feeling safe, secured, and protected because their fathers were always around. Daughters need their fathers to be the standard against which they will judge all men. **You Are Your Father's Daughter** Earl R. Henslin, 1994.
