Virtual Realities Stuart Marshall Bender,Mick Broderick,2021-09-23 Virtual Realities presents a ground breaking application of phenomenology as a critical method to explore the impact of immersive media Specific case studies examine 360 degree documentary productions about trauma virtual military simulations VR exposure therapy for anxiety and posttraumatic stress disorder and the emerging debate about regulating violent content in immersive media gaming By addressing these texts primarily as experiences Virtual Realities deploys an analytic and critical methodology that is sensitive to the bodily and cognitive impact of immersive media especially via the body of an appropriately attentive researcher critic Virtual Realities provokes a rethinking of many of the taken for granted ideas and assumptions circulating in the field of immersive media These include concepts of empathy embodiment the affective impact of textual and immersive properties on the users experience as well as the gee whizz mentality often associated with approaches to the medium The case studies provide fresh engagement with immersive media such as cinematic VR at a time when dominant attitudes about the technology display an evangelical fascination with VR and other

mixed realities as inexorably beneficial Virtual Realities makes a compelling case for VR phenomenology to be employed as a methodology by humanities scholars and also in cross disciplinary applications of immersive media in fields such as psychology human computer interaction studies and the health sciences Sound in the American Horror Film Jeffrey Bullins,2024-07-22 The crack of thunder a blood curdling scream creaking doors or maybe complete silence Sounds such as these have helped frighten and startle horror movie audiences for close to a century Listen to a Universal classic like Dracula or Frankenstein and you will hear a very different soundtrack from contemporary horror films So how did we get from there to here What scared audiences then compared to now This examination of the horror film s soundtrack builds on film sound and genre scholarship to demonstrate how horror perhaps more than any other genre utilizes sound to manipulate audience response Beginning with the Universal pictures of the early 1930s and moving through the next nine decades it explores connections and contrasts throughout the genre s technical and creative evolution New enthusiasts or veteran fans of such varied films as The Mummy Cat People The Day the Earth Stood Still Psycho Halloween A Nightmare on Elm Street Scream The Conjuring Paranormal Activity and A Quiet Place will find plenty to explore and perhaps a new sonic appreciation within these pages Cinema Studies: The Key Concepts Susan Hayward,2013-01-03 Cinema Studies The Key Concepts is an essential guide for anyone interested in film Providing accessible coverage of a comprehensive range of genres movements theories and production terms this is a must have guide to a fascinating area of study and arguably the greatest art form of modern times Now fully revised and updated for its fourth edition the book includes new topical entries such as CGI Convergence Cult cinema Digital cinema Post digital cinema Dogme 95 Movement image Time image Quota quickies 3 D technology **The Cinema in Flux** Lenny Lipton,2021-04-07 The first of its kind this book traces the evolution of motion picture technology in its entirety Beginning with Huygens magic lantern and ending in the current electronic era it explains cinema s scientific foundations and the development of parallel enabling technologies alongside the lives of the innovators Product development issues business and marketplace factors the interaction of aesthetic and technological demands and the patent system all play key roles in the tale The topics are covered sequentially with detailed discussion of the transition from the magic lantern to Edison s invention of the 35mm camera the development of the celluloid cinema and the transition from celluloid to digital Unique and essential reading from a lifetime innovator in the field of cinema technology this engaging and well illustrated book will appeal to anyone interested in the history and science of cinema from movie buffs to academics and members of the motion picture industry Sense of Film Narration Ian Garwood,2015-03-05 This book investigates the sensuous qualities of narration in the feature length fiction film The Oxford Handbook of Film Theory Kyle Stevens,2022 Poses timely questions about the state of cinema today Looks beyond canonical film theory and practitioners Revitalizes an essential part of the discipline s identity Offers provocative new arguments from leading film scholars Book jacket

Animation and Advertising Malcolm Cook,Kirsten Moana Thompson,2019-12-17 Throughout its history animation has

been fundamentally shaped by its application to promotion and marketing with animation playing a vital role in advertising history In individual case study chapters this book addresses among others the role of promotion and advertising for anime Disney MTV Lotte Reiniger Pixar and George Pal and highlights American Indian Japanese and European examples This collection reviews the history of famous animation studios and artists and rediscovers overlooked ones It situates animated advertising within the context of a diverse intermedial and multi platform media environment influenced by print radio and digital practices and expanding beyond cinema and television screens into the workplace theme park trade expo and urban environment It reveals the part that animation has played in shaping our consumption of particular brands and commodities and assesses the ways in which animated advertising has both changed and been changed by the technologies and media that supported it including digital production and distribution in the present day Challenging the traditional privileging of art or entertainment over commercial animation Animation and Advertising establishes a new and rich field of research and raises many new questions concerning particular animation and media histories and our methods for researching them

Sound in Indian Film and Audiovisual Media Budhaditya Chattopadhyay, 2025-10-01 This book is the first ever systematic attempt to study film sound in the Indian subcontinent by artistic research The book aims to fill the scholarly void on the issues of sound and listening in the Global Souths cultures It develops a comprehensive understanding of the unique sound world of Indian film and audiovisual media through the examination of historical developments of sound from early optical recordings to contemporary digital audio technologies The book is enriched with a practice based methodology informed by the author s own practice and based on extensive conversations with leading sound practitioners in the Indian subcontinent The book locates an emerging social and spatial awareness in Indian film and media production aided by a creative practice of sound occurring alongside the traditionally transcendental oral and pluriversal approach to listening By tracing this confluence of tradition and modernity the book makes valuable contributions to the fields of film history sound and media studies
