Beyond The Last Village A Journey Of Discovery In Asias Forbidden Wilderness:

Beyond the Last Village Alan Rabinowitz, 2001-08 The author describes his journey through the uncharted lands of northern Myanmar describing new species and trying to persuade the government to preserve the land

Beyond the Last Village Alan Rabinowitz, 2003-04-17 In 1993 Alan Rabinowitz called the Indiana Jones of wildlife science by The New York Times arrived for the first time in the country of Myanmar known until 1989 as Burma uncertain of what to expect Working under the auspices of the Wildlife Conservation Society his goal was to establish a wildlife research and conservation program and to survey the country's wildlife He succeeded beyond all expectations not only discovering a species of primitive deer completely new to science but also playing a vital role in the creation of Hkakabo Razi National Park now one of Southeast Asia's largest protected areas Beyond the Last Village takes the reader on a journey of exploration danger and discovery in this remote corner of the planet at the southeast edge of the Himalayas where tropical rain forest and snow covered mountains meet As we travel through this lost world a mysterious and forbidding region isolated by ancient geologic forces we meet the Rawang a former slave group the Taron a solitary enclave of the world's only pygmies of Asian ancestry and Myanmar Tibetans living in the furthest reaches of the mountains We enter the territories of strange majestic looking beasts that few people have ever heard of and fewer have ever seen golden takin red goral blue sheep black barking deer The survival of these ancient species is now threatened not by natural forces but by hunters with snares and crossbows trading body parts for basic household necessities The powerful landscape and unique people the author befriends help him come to grips with the traumas and difficulties of his past and emerge a man ready to embrace the world anew Interwoven with his scientific expedition in Myanmar and helping to inform his understanding of the people he met and the situations he encountered is this more personal journey of discovery

Life in the Valley of Death Alan Rabinowitz, 2010-08-30 Dubbed the Indiana Jones of wildlife science by The New York Times Alan Rabinowitz has devoted and risked his life to protect nature's great endangered mammals He has journeyed to the remote corners of the earth in search of wild things weathering treacherous terrain plane crashes and hostile governments Life in the Valley of Death recounts his most ambitious and dangerous adventure yet the creation of the world's largest tiger preserve The tale is set in the lush Hukaung Valley of Myanmar formerly known as Burma An escape route for refugees fleeing the Japanese army during World War II this rugged stretch of land claimed the lives of thousands of children women and soldiers Today it is home to one of the largest tiger populations outside of India a population threatened by rampant poaching and the recent encroachment of gold prospectors To save the remaining tigers Rabinowitz must navigate not only an unforgiving landscape but the tangled web of politics in Myanmar Faced with a military dictatorship an insurgent army tribes once infamous for taking the heads of their enemies and villagers living on less than one U S dollar per day the scientist and adventurer most comfortable with animals is thrust into a diplomatic minefield As he works to balance the interests of disparate factions and endangered wildlife his own life is

threatened by an incurable disease The resulting story is one of destruction and loss but also renewal In forests reviled as the valley of death Rabinowitz finds new life for himself for communities haunted by poverty and violence and for the tigers he vowed to protect

Myanmar (Burma) since the 1988 Uprising Andrew Selth, 2022-01-24 Updated by popular demand this is the fourth edition of this important bibliography It lists a wide selection of works on or about Myanmar published in English and in hard copy since the 1988 pro democracy uprising which marked the beginning of a new era in Myanmar s modern history There are now 2 727 titles listed They have been written edited translated or compiled by over 2 000 people from many different backgrounds These works have been organized into thirty five subject chapters containing ninety five discrete sections There are also four appendices including a comprehensive reading guide for those unfamiliar with Myanmar or who may be seeking guidance on particular topics This book is an invaluable aid to officials scholars journalists armchair travellers and others with an interest in this fascinating but deeply troubled country

Routledge Handbook of the Environment in Southeast Asia Philip Hirsch, 2016-09-13 The environment is one of the defining issues of our times and it is closely linked to questions and dilemmas surrounding economic development Southeast Asia is one of the world s most economically and demographically dynamic regions and it is also one in which a host of environmental issues raise themselves The Routledge Handbook of the Environment in Southeast Asia is a collection of 30 chapters dealing with the most significant scholarly debates in this rapidly growing field of study Structured in four main parts it gives a comprehensive regional overview of and insight into the environment in Southeast Asia Wide ranging and balanced this handbook promotes scholarly understanding of how environmental issues are dealt with from diverse theoretical perspectives It offers a detailed empirical understanding of the myriad environmental problems and challenges faced in Southeast Asia This is the first publication of its kind in this field a helpful companion for a global audience and for scholars of Southeast Asian studies from a variety of disciplines

Tantra, Magic, and Vernacular Religions in Monsoon Asia Andrea Acri, Paolo E. Rosati, 2022-11-03 This book explores the cross and trans cultural dialectic between Tantra and intersecting magical and shamanic practices associated with vernacular religions across Monsoon Asia With a chronological frame going from the mediaeval Indic period up to the present a wide geographical framework and through the dialogue between various disciplines it presents a coherent enquiry shedding light on practices and practitioners that have been frequently alienated in the elitist discourse of mainstream Indic religions and equally overlooked by modern scholarship The book addresses three desiderata in the field of Tantric Studies it fills a gap in the historical modelling of Tantra it extends the geographical parameters of Tantra to the vast yet culturally interlinked socio geographical construct of Monsoon Asia it explores Tantra as an interface between the Sanskritic elite and the folk the vernacular the magical and the shamanic thereby revisiting the intellectual and historically fallacious divide between cosmopolitan Sanskritic and vernacular local The book offers a highly innovative contribution to the field of Tantric Studies and more generally South and Southeast Asian religions by breaking

traditional disciplinary boundaries Its variety of disciplinary approaches makes it attractive to both the textual diachronic and ethnographic synchronic dimensions It will be of interest to specialist and non specialist academic readers including scholars and students of South Asian religions mainly Hinduism and Buddhism Tantric traditions and Southeast Asian religions as well as Asian and global folk religion shamanism and magic *Biodiversity and Environmental Philosophy* Sahotra

Sarkar,2005-09-19 This book explores the epistemological and ethical issues at the foundations of environmental philosophy emphasising the conservation of biodiversity Sahotra Sarkar criticises attempts to attribute intrinsic value to nature and defends an anthropocentric position on biodiversity conservation based on an untraditional concept of transformative value Unlike other studies in the field of environmental philosophy this book is as much concerned with epistemological issues as with environmental ethics It covers a broad range of topics including problems of explanation and prediction in traditional ecology and how individual based models and Geographic Information Systems GIS technology is transforming ecology Introducing a brief history of conservation biology Sarkar analyses the consensus framework for conservation planning through adaptive management He concludes with a discussion of directions for theoretical research in conservation biology and environmental philosophy *Global Dawn* Frank A Ninkovich,2010-02-15 Why did the United States become a global

power Frank Ninkovich shows that a cultural predisposition for thinking in global terms blossomed in the late nineteenth century making possible the rise to world power as American liberals of the time took a wide ranging interest in the world Of little practical significance during a period when isolationism reigned supreme in U S foreign policy this rich body of thought would become the cultural foundation of twentieth century American internationalism **The Beasts That Hide from Man**

Karl Shuker,2003-01-01 Cryptozoology the study of hidden animals is gaining attention thanks to a startling number of zoological discoveries Karl P N Shuker has collected evidence of these mysterious somewhat mythical creatures in THE BEASTS THAT HIDE FROM MAN Shuker provides entertaining solidly researched tales about extraordinary animals Shuker also provides a supplement to Bernard Heuvelmans s checklist of cryptozoological animals which contains updated information on unknown creatures **The Better to Eat You With** Joel Berger,2009-11-15 At dawn on a brutally cold

January morning Joel Berger crouched in the icy grandeur of the Teton Range It had been three years since wolves were reintroduced to Yellowstone after a sixty year absence and members of a wolf pack were approaching a herd of elk To Berger s utter shock the elk ignored the wolves as they went in for the kill The brutal attack that followed swift and bloody led Berger to hypothesize that after only six decades the elk had forgotten to fear a species that had survived by eating them for hundreds of millennia Berger s fieldwork that frigid day raised important questions that would require years of travel and research to answer Can naive animals avoid extinction when they encounter reintroduced carnivores To what extent is fear culturally transmitted And how can a better understanding of current predator prey behavior help demystify past extinctions and inform future conservation The Better to Eat You With is the chronicle of Berger s search for answers From Yellowstone

s elk and wolves to rhinos living with African lions and moose coexisting with tigers and bears in Asia Berger tracks cultures of fear in animals across continents and climates engaging readers with a stimulating combination of natural history personal experience and conservation Whether battling bureaucracy in the statehouse or fighting subzero wind chills in the field Berger puts himself in the middle of the action *The Better to Eat You With* invites readers to join him there The thrilling tales he tells reveal a great deal not only about survival in the animal kingdom but also the process of doing science in foreboding conditions and hostile environments Explorers Journal Ernest Ingersoll,2004 **Biodiversity Conservation in**

Southeast Asia Serge Morand,Claire Lajaunie,Rojchai Satrawaha,2017-07-28 Southeast Asia is highly diversified in terms of socio ecosystems and biodiversity but is undergoing dramatic environmental and social changes These changes characterize the recent period and can be illustrated by the effects of the Green Revolution in the late 1960s and 1970s to the globalization of trade and increasing agronomic intensification over the past decade Biodiversity Conservation in Southeast Asia provides theoretical overviews and challenges for applied research in living resource management conservation ecology health ecology and conservation planning in Southeast Asia Five key themes are addressed origin and evolution of Southeast Asian biodiversity challenges in conservation biology ecosystem services and biodiversity managing biodiversity and living resources policy economics and governance of biodiversity Detailed case studies are included from Thailand and the Lower Mekong Basin while other chapters address cross cutting themes applicable to the whole Southeast Asia region This is a valuable resource for academics and students in the areas of ecology conservation environmental policy and management Southeast Asian studies and sustainable development Mysterious Creatures George M. comprehensive guide to cryptozoology the quest to identify animals that have not been officially catalogued by science and to place these unknown animals into their proper zoological categories In this fascinating two volume encyclopedia author George M Eberhart provides a comprehensive catalog of nearly 1 000 cryptids unknown animals usually reported through eyewitness accounts and not yet described by science Cryptids are the stuff of folklore hoaxes and genuine scientific breakthroughs There are 400 now classified cryptids once considered either extinct or pure fantasy The cryptozoologist s job is to strip away the myth misidentification and mystery and separate fact from fiction *Mysterious Creatures* covers everything from dinosaurs and the emala ntouka an elephant killing dinosaur like animal of central Africa to searches for the Loch Ness monster Bigfoot and other cryptozoological hoaxes Entries about specific animals include the derivation or meaning of each cryptid s name its scientific name variant names a physical description behavior description of tracks habitat significant sightings present status and possible explanations Illustrations and photographs accompany many entries The book also includes resources and references for further information *The Publishers Weekly* ,2003 The Lady and the Generals Peter Popham,2016 She was a heroine of our time a winner of the Nobel Peace Prize a symbol of supreme courage in the face of tyranny Then in 2010 Burma s generals opened the door a chink Aung San Suu Kyi was released from house arrest and her

country began to change Suu Kyi's acclaimed biographer Peter Popham describes what happened next Travelling across the country meeting aristocrats monks and politicians freedom fighters punks and rebels he shows how hope has slowly returned to the lives of ordinary Burmese He also examines the fate of the hill tribes and how the world's politicians and businessmen are striving for influence But with greater openness long suppressed prejudices have burst into the open intolerant Buddhist preachers have whipped up the latent hostility of the Burmese against people of other races and beliefs especially the Muslim Rohingya When Aung San Suu Kyi was elected to parliament she began to negotiate with the military Yet she has declined to take a firm stand on minority rights to the dismay of many in the West The Lady and the Generals offers a trenchant and compelling portrait of this fascinating country and asks where Burma and Suu Kyi herself with her bravery her brilliance and her limitations are heading next Praise for The Lady and the Peacock What a gift to our world and what a splendid telling of Aung San Suu Kyi's life We are deeply indebted to Peter Popham for such a superb account Archbishop Desmond Tutu Sensitive and moving Sunday Times Beautifully written and compelling in every aspect Joanna Lumley Warm and objective will not be bettered for a long time Independent on Sunday Library Journal ,2003 **Choice** ,2003 **CURRENT CONTENTS January 7, 2002 Volume 24 Number 1** ,2002 *No Time for Dreams* Carolyn Wakeman, San San Tin, 2009-01-16 Compelling images of cinnamon robed monks confronting the guns and clubs of Burma's military junta outraged the world in September 2007 Then communications links were cut and curfews interrogations midnight raids beatings and arrests crushed the remnants of defiance Tragically it had all happened before No Time for Dreams narrates a remarkable woman's search over four decades for independence and purpose as repression spreads throughout her country once known as the Golden Land Inspired by the legacy of her father Ba Tin's struggle against British colonialism beginning in the 1930s San San Tin infuses her journey from school girl to journalist and briefly to businesswoman with an unbroken spirit of resistance Offering a compassionate insider's view of politics culture religion and family during nearly half a century of unrelenting dictatorship this riveting personal story traces an arc of decline to reveal the bitter fate of a once prosperous and cosmopolitan society Planet Savers Kevin Desmond, 2017-09-08 Protecting the planet is everyone's work But we all have our own heroes in whatever area we are working Planet Savers brings together the varied stories of the hundreds of movers and shakers that have spoken up throughout history and taken action to defend the world from pollution deforestation species loss and climate change From Theodore Roosevelt to Al Gore from Francis of Assisi to David Attenborough and from hundreds more men and women that you will know little if anything about Scientists artists business people priests lawyers poets politicians activists and more from every continent of the world Their work has enthused us about the natural world and warned us that we must do much more to preserve it The Indian woman who became the world's first environmental martyr the Baptist Reverend who asked What Would Jesus Drive the Quaker big game hunter who set up the first conservation organisation the Shakespearian actor who revolutionised organic gardening and the housewife whose campaign

against toxic waste forced a President to act The book is a cornucopia of people who from time immemorial have put their careers reputations and lives on the line to protect our planet from its governing inhabitants the human race Today as thousands of species of animals and plants are faced with extinction thousands of years of indigenous knowledge is lost in the face of technological advance and we become more and more aware of the potential doomsday scenario of a warming world we need Planet Savers more than ever Our inspiration can be the 301 environmental lives portrayed in this book These people cared enough to do something about it Planet Savers is both a tribute and a catalyst a tribute to the people that loved the planet enough to want to act to save it and a catalyst for the people who will be inspired to act after reading it New Planet Savers are at work right now in rainforests and megacities in community centres and boardrooms at road protests and in courtrooms all over the world If this book has one great aim it is to inspire you the reader to join them It is a book that every home should own
