Beyond Screen Ministry Connected Generation:

Redefining Perfect Amy E. Jacober, 2017-12-05 Theology and disability have not always had an easy relationship. The interactions have ranged from downright hostile to indifferent or unintentionally excluding over the centuries. This theology book chooses instead to include those with disabilities after more than a decade of consideration and study. This results in a re-examination of major theological topics and the impact on the lives of those with disabilities, their family and friends, and the community at large. The focus of the book is to move the church beyond welcome to inclusion, where those with disabilities move from a guest of the community to equal and valued member of the community. While the book is about the theological inclusion of those with disabilities, its implications reach far beyond. It sets an approach for all people to find a place where they too may live in the fullness of Christian community. Stories of personal encounters are blended with explanations of doctrinal perspectives, giving the reader a chance to connect knowledge with wisdom born from real life experience.

Youth Ministry Malan Nel, 2018-12-01 This book aims at contributing to the scientific and academic discourse as regards to the what and why of youth ministry. Too often youth ministry has been approached from a mainly practical point of view, almost asking how we keep young people off the streets. Its methodology has often not included the theological and theoretical presuppositions that lie behind this ministry. Previous scientific reflection has been determined by a one-dimensional and almost exclusive point of view. In comparison with existing literature, this book does not focus so much on the how of youth ministry. It innovates a different approach. The book challenges the existing exclusive approach and develops an inclusive congregational and missional understanding of and approach to youth ministry. From a particular perspective on the understanding of the main objectives of Practical Theology, the author endorses the so-called movement of what is supposed to be going on. He adds the outcome of an empirical round table discussion with some 16 leaders in this field on the descriptive and interpretive movements within the subject field: what is going on and why is it going on. The book will form the standard for any new research with regard to youth ministry. The book's contribution lies on the level of sound theological reasoning and argumentation supported by many scholars for an inclusive congregational understanding of ministry as an integral part of every congregation being missional in being and doing. Youth children, adolescents, and emerging adults are just as integral a part of every congregation within which they live and serve.

Neurodiversity, Faith Formation, and Theological Education Michael Paul Cartledge, Erin Raffety, 2025-04-25 This book demonstrates the constructive insights the neurodiversity paradigm presents for a more thorough understanding of creation, human flourishing, Christian virtues, ecclesiology, belonging, youth ministry, prayer, worship, and justice. The neurodiversity movement is a social justice movement that celebrates the unique insights and strengths of Autistic people, people with ADHD, learning differences, and other experiences like Tourette's and tics. Rather than viewing such experiences as deficits, the movement emphasizes the natural variation in the ways people think, learn, and live in the world. Yet people with these diagnoses who often identify

as neurodivergent have experienced prejudice and stigma in educational and church spaces due to their neurological or behavioral differences Participation in church and learning environments is often a burden for neurodivergent people What can theological educators and ministry leaders learn from the neurodiversity paradigm and movement How might places of learning and worship be transformed by listening to the voices of neurodivergent people Drawing on empirical research and lived experience the contributions to this book pursue answers to these questions and present a vision of faith formation and theological education that centers the voices of neurodivergent people and cultivates environments where people of all neurotypes can flourish This book was originally published as a special issue of the Journal of Disability Religion

Growing Young Leaders Donald Smith, 2025-02-14 This book fills in gaps in research on leadership development programs for youth through taking the opportunity to research a long standing leadership development program for young men that has evidenced some success The research question was What factors contribute to the apparent success of the Boys Brigade leadership program Using a grounded theory methodology the program was examined through the lenses of communitas liminality servant leadership masculine spirituality rites of passage and wilderness Research findings are that program is characterized by its uniqueness and the final theory that emerged identified the importance for youth ministry of acceptance imperfection and freedom and empowerment within an overarching spiritual dimension evidenced throughout the study most remarkably through the positive response to worship Staff factors were also critical including the description of the staff team as being multi generational non hierarchical and servant led not placing a high value on differentiation of status and allowing a seamless transition of course graduates into staff roles

Creative in the Image of God Katherine M. Douglass, 2020-03-02 The declining religious participation among young adults or Rise of the Nones has signaled alarms across American Christianity A closer look into the faith lives of thirty young adults who are or were at one time connected with a church however shows an articulate and aesthetically embodied faith life that seeks out connection with others

expression of their identity and an openness to encountering God Young adults see themselves and all people in this pluralistic world as bearing the image of God They see creativity in their own lives and in the lives of others as evidence of this identity This book is not an appeal to put more art into congregations but rather an invitation to attend to aesthetic embodied ways of knowing that exist among all people *Cultivating Teen Faith* Richard R. Osmer, Katherine M. Douglass, 2018-10-25 What are churches doing to form the faith of their young people Many church denominations that practice infant baptism offer confirmation or an equivalent ministry when children reach adolescence and enter a new phase of spiritual growth but all churches regardless of tradition wrestle with how to get young adults to actively join the church What really works In this book twelve authors draw on a three year study of more than three thousand US congregations across five denominations United Methodist Church African Methodist Episcopal Church Episcopal Church Evangelical Lutheran Church in America and Presbyterian Church USA to answer this pressing question They tell stories of excellent and innovative confirmation programs that work and that show above all what good discipleship with young people looks like Youth pastors church leaders and parents alike will benefit from the practices and new ways of teaching presented here that have proven helpful in forming and enhancing the faith of youth Contributors Joy L Arroyo Reginald Blount Kenda Creasy Dean Katherine M Douglass Terri Martinson Elton Lisa Kimball Gordon S Mikoski Kermit Moss Richard R Osmer Kate Harmon Siberine Jacob Sorenson Kate O Unruh *Navigating Student Ministry* Tim McKnight, 2022-03-01 Navigating Student Ministry is a multi contributor introductory textbook designed to help those who are discerning a call to student ministry new to serving in this area of the church or training others as they minister to students *Always On (Theology for the Life of the World)* Angela Williams Gorrell, 2019-05-21 Many of us are always on scrolling through social media checking email or searching the web New media spaces can be sites and instruments of God s unconditional love but they can also nurture harmful conditions and become sources of anxiety jealousy and despondency Always On provides useful tools for helping students and congregants understand the world of social media and engage it faithfully enabling Christian communities to address its use in constructive pastoral ways The book includes discussion questions and sample exercises for each chapter *Delighted* Kenda Creasy Dean, Wesley W. Ellis, Justin Forbes, Abigail Visco Rusert, 2020-04-28 What would youth ministry look like if it were based on a pursuit of authentic Christian joy Joy is not often a word young people associate with church but it should be By reimagining three common practices in youth ministry through the theological lens of joy veteran youth workers Kenda Creasy Dean Wesley Ellis Justin Forbes and Abigail Visco Rusert demonstrate how to shift this association and become more honest about what youth ministry can and can t do to support young people and their faith Grounding youth ministry in joy rather than in fear also models a way forward for the church It reminds us that youth ministry is not a tool for anxious congregations to use to ensure their survival Rather youth ministry like all ministry is a way to help people name and experience God s delight free from fear and anxiety about their futures Delighted is the first book to

emerge from the Yale Center for Faith and Culture's Adolescent Faith and Flourishing project offering a sustained reflection on joy's practical importance for youth ministry. With reflection questions offered at the end of each chapter, *Delighted* is easy for youth ministers, volunteers, and pastors to pick up and use immediately, tapping into young people's instinctive desire for joy for the entire church as well as for ministry with teenagers.

Beyond the Screen Andrew Zirschky, 2015-12-15 It's no secret that teenagers are perpetually connected via social media and mobile devices, but while we've analyzed as a culture how youth are connecting, we've done less well at understanding why teenagers are drawn to the glow of the screen. *Beyond the Screen* explores the reality that teenagers use these technologies in a desperate bid for an intimacy and depth of relationship largely absent from face-to-face society and the church. Employing the latest ethnographic research on youth and digital media in tandem with theological reflection and interviews with teens themselves, author Andrew Zirschky provides a deeper glimpse into the world of teens and social media and gives new direction and directives for ministering to Millennials.

Screening Nostalgia Alexandra Ludewig, 2014-03-15 The Heimat film genre, assumed to be outdated by so many, is very much alive. Who would have thought that this genre, which has been almost unanimously denounced within academic circles but which seems to resonate so deeply with the general public, would experience a renaissance in the 21st century? The genre's recent resurgence is perhaps due less to an obsession with generic storylines and stereotyped figures than to a basic human need for grounding that has resulted in a passionate debate about issues of past and present. This book traces the history of the Heimat film genre from the early mountain films to Fatih Akin's contemporary interpretations of Heimat.

Consolidated guidance on tuberculosis data generation and use. Module 3. National tuberculosis prevalence surveys World Health Organization, 2025-07-10 National TB prevalence surveys are a key tool used by WHO to estimate the burden of TB disease in a country. Repeat surveys allow for the assessment of trends and of the impact of interventions to reduce the burden of disease, thus helping to track progress towards the milestones and targets for reductions in TB incidence set in the WHO End TB Strategy. Between 2007 and 2024, a total of 36 surveys in 32 countries were implemented using the screening and diagnostic methods recommended by WHO. These surveys were guided by two WHO publications: first in 2007 and then in 2011. Since then, major technological developments have occurred and important lessons have been learned from surveys implemented. This new edition is intended to support the design, implementation, analysis, and reporting of national TB prevalence surveys in the period up to about 2030. It includes major revisions to the diagnostic algorithms that are recommended for use in national TB prevalence surveys and, in turn, the case definitions used to count the number of survey participants who have TB disease; updated guidance on sampling design and the analysis and reporting of data based on the new diagnostic algorithms and case definitions; updated and considerably expanded guidance on data management; updated guidance on chest radiography, clinical management, survey management, and field operations; and new chapters on testing for HIV and comorbidities, survey monitoring, comparisons with previous surveys, reporting, and dissemination of survey
