Everything harder than everyone else Jenny Valentish,2021-07-06 There is a part of human nature compelled to test our own limits But what happens when this part comes to define us When journalist Jenny Valentish wrote *Woman of Substances* a book about addiction she noticed that people who treated drug taking like an Olympic sport would often hurl themselves into a pursuit like marathon running upon giving up What stayed constant was the need to push their boundaries Everything Harder Than Everyone Else follows people doing the things that most couldn't wouldn't or shouldn't By delving into their extreme behaviour there's a lot that us mere mortals can learn about the human condition There's the neuroscientist violating his brain to override his disgust response The athlete using childhood adversity as grist for the mill The wrestler turning restlessness into curated ultraviolence The architect hanging from hooks in her flesh to better get out of her head The performance artist seeking erasure by torturing his body The BDSM dom helping people flirt with death to feel more alive The bare knuckle boxer whose gnarliest opponent is her ego The dancer who could not separate her identity from her practice until at death's door The bodybuilder exacting order on a life that was once chaotic And the porn star turned fighter for whom sex and violence are two sides of the same coin Their insights lead Jenny on a compulsive sometimes reckless journey of immersion journalism

Bender, 1980-01-01 The book is the first comprehensive study of race relations in Angola It covers the entire five century long relationship between the peoples of Angola and Portugal Portuguese imperial thinkers asserted that they were unique among European colonizers in their ability to establish and maintain egalitarian and non discriminatory relationships with tropical peoples This concept was elevated to a philosophical plateau and given the name Lusotropicalism Propagated with fervor by Portuguese colonial thinkers Lusotropical doctrines were widely accepted as being valid by twentieth century diplomats and political thinkers in both Europe and the United States many of whom believed that Portuguese colonialism in Africa would continue indefinitely The evidence presented in this work indicates that Portuguese rule in Angola was deeply racist This conclusion is based on a considerable body of data gleaned from archival sources personal collections and systematic interviewing of racially diverse Angolans and Portuguese functionaries in the colonial administration and the private sector

Special emphasis is placed on devices that the Portuguese used to delude themselves and others about the realities of their attitudes and behavior as ruling elites The study concludes with an assessment of the impact of Lusotropical myths on independent Angola *Rowdy Rousey* Mike Straka,2015-12-01 Already a superstar in the MMA and entertainment worlds

The Other Half of Gender Ian Bannon, Maria Correia, 2006-01-01 This book is an attempt to bring the gender and development debate full circle from a much needed focus on empowering women to a more comprehensive gender framework that considers gender as a system that affects both women and men The chapters in this book explore definitions of masculinity and male identities

in a variety of social contexts drawing from experiences in Latin America the Caribbean and sub Saharan Africa It draws on a slowly emerging realization that attaining the vision of gender equality will be difficult if not impossible without changing the ways in which masculinities are defined and acted upon Although changing male gender norms will be a difficult and slow process we must begin by understanding how versions of masculinities are defined and acted upon

The Marrano Factory António José Saraiva, 2001-10-01 The Marrano Factory argues that the Portuguese Inquisition s stated intention of extirpating heresies and purifying Portuguese Catholicism was a monumental hoax the true purpose of the Holy Office was the fabrication rather than the destruction of Judaizers The caste or race of the New Christians was in reality synonymous with the Portuguese mercantile middle class which conservative Portuguese society would not tolerate Most or nearly all of the New Christian Inquisitorial victims some 40 000 between 1540 and 1765 were unremarkable Catholics who often had minimal Jewish ancestry The Portuguese Inquisitorial procedure was not designed to distinguish between guilt and innocence but considered any defendant once categorized a New Christian a Judaizer First published in Portuguese in 1969 this is the only work by Ant nio Jos Saraiva available in English and the only single volume history devoted primarily to the working of the Portuguese Inquisition a most lucid and compact survey It presents Saraiva s 1975 revised history and analysis of the Portuguese Inquisition a 1971 interview with Professor Israel Salvator R vah Saraiva s dialogues and R vah s reply of the same year both scholars letters to the Di rio de Lisboa Footnotes and introductions have been expanded A brief survey of the Portuguese Inquisition in Goa India as well as a list of Portuguese kings and Inquisitors general and an up to date bibliography have been added

Strangers Within Francisco Bethencourt, 2024-03-26 The New Christians largely former Jews and Muslims who were forced to convert to Christianity in the 16th and 17th centuries were both a persecuted group as well as an international elite and their story argues Francisco Bethencourt offers a fascinating and indispensable view into the period and the making of a global economy In what is intended to be an authoritative and innovative book the author will recount how the New Christians were a major force in structuring the Atlantic economy and reconstruct their involvement in trading system which ran from the Atlantic to the Indian Ocean Their hybrid religious allegiances situated as they were primarily between Judaism and Christianity provide a unique case of cosmopolitanism in various parts of the world New Christian business practices forms of organisation and codes of behaviour linked intercontinental networks to local agencies Their ability to resist religious persecution implied alliances at the highest levels of the Catholic Church and the Iberian monarchies This book will provide entirely new perspectives for our understanding of cosmopolitanism religious allegiances political alliances and business history The New Christian trading elite has been studied in a fragmentary way compartmentalised in time and space but it has never been the

subject of comprehensive research over the long term from the forced conversion of the Jews in Portugal in 1497 to the abolition of the distinction between New Christians and Old Christians in Portugal in 1773 spanning connections between Europe Africa Asia and the New World *Pedagogy of Hope* Paulo Freire, 2014-04-24 With the publication of *Pedagogy of the Oppressed* Paulo Freire established himself as one of the most important and radical educational thinkers of his time In *Pedagogy of Hope* Freire revisits the themes of his masterpiece the real world contexts that inspired them and their impact in that very world Freire's abiding concern for social justice and education in the developing world remains as timely and as inspiring as ever and is shaped by both his rigorous intellect and his boundless compassion *Pedagogy of Hope* is a testimonial to the inner vitality of generations denied prosperity and to the often silent generous strength of millions throughout the world who refuse to let hope be extinguished
