**Racetrack Betting** Peter Asch, Richard E. Quandt, 1986 A day at the races with its colorful variety and fast paced action appeals to people from all walks of life Not surprisingly the idea of going home with a few more dollars than when one arrived is part of horseracing's charm In this entertaining but substantive volume two distinguished economists who happen to be horseracing buffs outline a tested strategy for placing bets that will increase the reader's chances of a happy outcome at the track The authors are the first to point out that getting rich at the racetrack is unlikely They do maintain however that with attention to their systematic approach the racing fan can achieve the best possible chance at winning In the process the reader learns some of the most important measurement techniques in the social sciences as well as the basic methods of market analysis

**Winning Without Thinking** Nick Mordin, 2006-10 Nick Mordin estimates he has spent over 30 000 hours researching racing results over the years His aim has been to uncover the principles that govern the betting market and racing results themselves In conducting his research Nick has tested thousands of systems both his own and those developed by academics professional gamblers and others around the globe In *Winning Without Thinking* he shares the fruits of this work the results of horse races basic principles that govern racing results and the betting market mistakes commonly made by the general betting public and how to exploit them full details of betting systems used by professional gamblers to make millions how to predict and profit from new trends and how to use computers to increase your returns

UK Horse Racing Betting Systems Mark Horrocks, I graduated from University with a computer science degree many years ago when a degree meant something I was always interested in horse racing and was fascinated in solving the UK horse racing form puzzle I started my own computer business in my early 20 s where I made good money and travelled across Europe It was at this point in my life I decided to start a horse tipping business where I had weekly full page colour adverts in the *Racing Post* at 2K per advert and offices I left the running of this horse tipping business to staff who were responsible for all parts of the business while I concentrated on my computer business In my late 30 s around 1990 I decided to use my computer skills to computerise and model UK horse racing form using a database built with 10 years of detailed horse racing form It was over a period of 2 years that I concentrated my efforts on UK handicap races in conjunction with the

betting exchange Betfair This is where I believed maximum profit could be gained The computer model allowed me to process 100 s of handicap races per day and then formulate my system tweeking a horse s weight and BHB or OR Official Rating I must confess this was a difficult puzzle to crack even with a computer program that I wrote to crunch the data I eventually found the correct weight and BHB rating for a horse based on it s last performances in handicap races This eBook outlines this system and can be manually applied easily using the Racing Post on the internet
