Betting On Famine Why The World Still Goes Hungry:

Betting on Famine Jean Ziegler, 2010-04-20 The seminal book on global poverty and hunger How rapacious speculators and complicit bureaucrats are starving a billion people Wenonah Hauter executive director of Food Water Watch and author of Foodopoly Few people know that world hunger was very nearly eradicated in our lifetimes In the past five years however widespread starvation has suddenly reappeared and chronic hunger is a major issue on every continent In an extensive investigation of this disturbing shift Jean Ziegler one of the world's leading food experts lays out in clear and accessible terms the complex global causes of the new hunger crisis Ziegler's wide ranging and fascinating examination focuses on how the new sustainable revolution in energy production has diverted millions of acres of corn soy wheat and other grain crops from food to fuel The results he shows have been sudden and startling with declining food reserves sending prices to record highs and a new global commodities market in ethanol and other biofuels gobbling up arable lands in nearly every continent on earth Like Raj Patel's pioneering *Stuffed and Starved* *Betting on Famine* will enlighten the millions of Americans concerned about the politics of food at home and about the forces that prevent us from feeding the world's children In this devastating book Ziegler describes the horrors of food insecurity the callousness of crusaders of neoliberalism who control food and land access and the individuals and grassroots organizations fighting for subsistence farmers and the right to food Publishers Weekly starred review Passionate well researched objective and illuminating When we close this book indignant we know that those who die of hunger are victims of money and power *L Express* [A World Without Hunger](#) Archie Davies, 2022-11-17 An Open Access edition of this book is available on the Liverpool University Press website and the OAPEN library as part of the Opening the Future project with COPIM Drawing on the rich personal archive of the geographer Josu de Castro this book tells a new history of geography by following one of the twentieth century's most influential and creative Brazilian intellectuals from the estuarine city of Recife to the halls of the UN the chambers of Brasilia and exile amid the political fervour of the universities of Paris in 1968 This is the first English language book on the absorbing life of Josu de Castro It follows modern anticolonial geographical thought in formation re-reading Castro's metabolic humanist geography as the anchor of a utopian practice of freedom the demand for a world without hunger Starting from Castro's life and work the book offers new takes on the history of nutrition translation in geography Brazilian modernist art and practice in post war internationalism the radical geographical intellectual the problem of the region in the Brazilian Northeast and the birth of political ecology and critical environmental thought At once a biographical intellectual history and a work of geographical theory this innovative book tells the story of 20th century geography from a new angle and in new company **Hunger** Martin Caparros, 2020-02-25 Nothing less than astonishing Booklist starred review From a renowned international journalist comes a galvanizing international bestseller about mankind's oldest most persistent and most brutal problem world hunger There are now over 800 million starving people in the world An average of 25 000 men and women and in particular children

perish from hunger every day Yet we produce enough food to feed the entire human population one and a half times over So why is it that world hunger remains such a deadly problem In this crucial and inspiring work award winning author Mart n Caparr s travels the globe in search of an answer His investigation brings him to Africa and the Indian subcontinent where he witnesses starvation first hand to Chicago where he documents the greed of corporate food distributors and to Buenos Aires where he accompanies trash scavengers in search of something to eat An international bestseller when it first appeared this first ever English language edition has been updated by Caparr s to consider whether conditions that have improved or worsened since the book s European publication With its deep reflections and courageous journalism Caparr s has created a powerful and empathic work that remains committed to ending humankind s longest ongoing crisis **Imaginations of**

Death and the Beyond in India and Europe Günter Blamberger, Sudhir Kakar, 2018-03-27 This volume explores current images of afterlife afterdeath and the presence of the dead in the imaginations of the living in Indian and European traditions Specifically it focuses on the deepest and most fundamental uncertainty of human existence the awareness of human mortality on which depends any assignment of meaning to earthly existence as also to notions of worldly and otherworldly salvation This central idea is addressed in the literature arts audiovisual media and other cultural artefacts of the two traditions The chapters are based on two main assumptions First that one cannot report on the direct experience of death so it is only possible to speak allegorically of it Second in contemporary Western societies marked by structural atheism people look at literature the arts and mass media to study their depiction and reading of traditionally religious questions of disease death and the Beyond This is in contrast to Asian civilizations whose preoccupation with death and Beyond is persistent and perhaps central to the civilizations highest thought The chapters cover a wide spectrum of disciplinary approaches from psychoanalysis to religious anthropological literary and film studies from sociology and philosophy to art history and address issues of unsettling power comforting illusions of afterlife the relations between afterlife and fertility visions of technological immortalization of mankind the problem of thinking about death after the death of God socialist utopias of bodily immortality fear of Hell and punishment different concepts in relating the living and the dead near death experiences and cultural practices of spiritualism occultism and suicide **Transitioning to Zero Hunger** Delwendé Innocent Kiba, 2023-12-14 In

2015 the United Nations decided to establish the goal of achieving zero hunger in the world by 2030 through outcome targets such as eliminating hunger and improving access to food ending all forms of malnutrition promoting sustainable and resilient agriculture and maintaining genetic diversity in food production As a result of this decision strategies are under way in different countries around the world in the form of political academic development and non governmental organization projects and programs Five years later these strategies have certainly generated results that need to be documented and analyzed so as to answer the following questions what are the progress and success stories in terms of policies innovations technologies and approaches to reach the zero hunger goal What are the constraints and mitigation strategies Are we really

in a phase of transition towards the zero hunger goal What new directions do we need to consider to achieve this goal particularly in the context of COVID 19 pandemic which affects all sectors of development around the world Transitioning to Zero Hunger is part of MDPI s new Open Access book series Transitioning to Sustainability With this series MDPI pursues environmentally and socially relevant research which contributes to efforts toward a sustainable world Transitioning to Sustainability aims to add to the conversation about regional and global sustainable development according to the 17 SDGs The book series is intended to reach beyond disciplinary even academic boundaries *Globalization and Papua New Guinea: Ancient Wilderness, Paradise, Introduced Terror and Hell* Falk Huettmann, 2023-04-26 This book aims to present a reality view for Papua New Guinea based on many years of first hand field work and research accounts It further assesses sustainability in the light of 47 000 years of a self sustained type of civilization without bad global impacts This book contrasts the modern sustainable development failures from the colonial times onwards as promoted by the western world namely Australia the UK EU and the U S as well as Japan and now China in times of globalization Trump ism and royal governance Papua New Guinea is still part of the British Dominion and of the Antarctic Treaty etc This assessment and book is the first of its kind also employing modern data analysis Landscape Ecology principles patterns and processes telecoupling and Geographic Information Systems GIS with Open Access data focusing on ecological economics marxism socialism and contrasting it with current capitalism and neoliberalism that Papua New Guinea is fully exposed to Throughout the 31 book chapters various aspects are covered how a further insistence on the new Sustainable Development Goals SDGs and so called Development Aid will result in unwanted side effects and perverse outcomes for Papua New Guinea and for the world in times of wider global change and unprecedented man made crisis *An Ethnography of Hunger* Kristin Phillips, 2018-08-29 In *An Ethnography of Hunger* Kristin D Phillips examines how rural farmers in central Tanzania negotiate the interconnected projects of subsistence politics and rural development Writing against stereotypical Western media images of spectacular famine in Africa she examines how people live with rather than die from hunger Through tracing the seasonal cycles of drought plenty and suffering and the political cycles of elections development and state extraction Phillips studies hunger as a pattern of relationships and practices that organizes access to food and profoundly shapes agrarian lives and livelihoods Amid extreme inequality and unpredictability rural people pursue subsistence by alternating between and sometimes combining rights and reciprocity a political form that she calls subsistence citizenship Phillips argues that studying subsistence is essential to understanding the persistence of global poverty how people vote and why development projects succeed or fail **Justice in Global Health** Himani Bhakuni, Lucas Miotto, 2023-10-24 Rather than making another attempt at proposing a single and unifying theory of global health justice this timely collection brings together instead scholars from a range of traditions to frame the issue more broadly highlighting not only different perspectives but also key topics and debates The volume features chapters that offer both new theoretical approaches to global health justice as well as fresh

takes on existing frameworks Others adopt a bottom up approach to tackle specific problems including the sexual rights of children and adolescents artificial intelligence AI in medicine framing of neglected tropical diseases securitization of health and trademarks in global health Brought together within one volume the breadth of these chapters provides a unique and enlightening contribution to the wider Global Health field This important volume will be a fascinating read for students and researchers across Global Health Bioethics Political Philosophy and Global Development *How to Think Ethically about Global Issues* Stephen Minister, 2024-06-21 This textbook is an introduction to thinking ethically about global issues Unlike existing books in this area this book is truly interdisciplinary and includes a range of voices from both the Global South and the Global North Rather than simply applying Western theories to case studies Prof Stephen Minister shows readers how to consider context and complexity while respecting the agency of people elsewhere It weaves together the work of thinkers and writers from the Global South with philosophical work on global ethics relevant scholarship from other academic fields and stories from fieldwork studying global issues on four continents The textbook explores a variety of topics including cultural difference gender population poverty natural disasters and development It then encourages students to build on these ideas and think more deeply about topics such as foreign aid inequality immigration international trade climate change human rights and war and terrorism Because the book's style is accessible and engaging it will be an excellent text for ethics and global studies courses as well as being of interest to general readers who want to think better about global issues

Just Food Jill M. Dieterle, 2015-11-09 Who has access and who is denied access to food and why What are the consequences of food insecurity What would it take for the food system to be just Just Food Philosophy Justice and Food presents thirteen new philosophical essays that explore the causes and consequences of the inequities of our contemporary food system It examines why 842 million people globally are unable to meet their dietary needs and why food insecurity is not simply a matter of insufficient supply The book looks at how food insecurity tracks other social injustices covering topics such as race gender and property as well as food sovereignty food deserts and locavorism The essays in this volume make an important and timely contribution to the wider philosophical debate around food distribution and justice *The Right to Food Guidelines, Democracy and Citizen Participation* Katharine S. E. Cresswell Riol, 2016-11-10 It is now more than a decade since the Right to Food Guidelines were negotiated agreed and adopted internationally by states This book provides a review of its objectives and the extent of success of its implementation The focus is on the first key guideline Democracy good governance human rights and the rule of law with an emphasis on civil society participation in global food governance The five BRICS countries Brazil Russia India China and South Africa are presented as case studies representing major emerging economies they blur the line between the Global North and South and exhibit different levels of human rights realisation The book first provides an overview of the right to adequate food accountability and democracy and an introduction to the history of the development of the right to adequate food and the Right to Food Guidelines It presents a

historical synopsis of each of the BRICS states experiences with the right to adequate food and an analysis of their related periodic reporting to the Committee on Economic Social and Cultural Rights as well as a specific assessment of their progress in regard to the first guideline The discussion then focuses on the effectiveness of the Right to Food Guidelines as both a policy making and monitoring tool based on the analysis of the guidelines and the BRICS states

Capitalism and the Death Drive Byung-Chul Han, 2021-05-18 What we call growth today is in fact a tumorous growth a cancerous proliferation which is disrupting the social organism These tumours endlessly metastasize and grow with an inexplicable deadly vitality At a certain point this growth is no longer productive but rather destructive Capitalism passed this point long ago Its destructive forces cause not only ecological and social catastrophes but also mental collapse The destructive compulsion to perform combines self affirmation and self destruction in one We optimize ourselves to death Brutal competition ends in destruction It produces an emotional coldness and indifference towards others as well as towards one's own self The devastating consequences of capitalism suggest that a death drive is at work Freud initially introduced the death drive hesitantly but later admitted that he couldn't think beyond it as the idea of the death drive became increasingly central to his thought Today it is impossible to think about capitalism without considering the death drive

The Accumulation of Waste Ali Kadri, 2023-08-21 Phenomenal waste has surfaced as the social form and substance of value In capital's totalizing process which commodifies all that comes in its way wasting classes consume the wasted classes This book addresses the metamorphosis of value into waste and it focuses on wars as industries of perfect waste Whereas wasted man is visibly the prevalent commodity on sale this central element in the commodity relation is rarely mentioned In line with this the book examines how waste as a surrogate value eludes the crises of capital and maintains its resilience

Smaller Faster Lighter Denser Cheaper Robert Bryce, 2014-05-13 In the face of today's environmental and economic challenges doomsayers preach that the only way to stave off disaster is for humans to reverse course to de-industrialize re-localize ban the use of modern energy sources and forswear prosperity But in this provocative and optimistic rebuke to the catastrophists Robert Bryce shows how innovation and the inexorable human desire to make things Smaller Faster Lighter Denser Cheaper is providing consumers with Cheaper and more abundant energy Faster computing Lighter vehicles and myriad other goods That same desire is fostering unprecedented prosperity greater liberty and yes better environmental protection Utilizing on the ground reporting from Ottawa to Panama City and Pittsburgh to Bakersfield Bryce shows how we have for centuries been pushing for Smaller Faster solutions to our problems From the vacuum tube mass produced fertilizer and the printing press to mobile phones nanotech and advanced drill rigs Bryce demonstrates how cutting edge companies and breakthrough technologies have created a world in which people are living longer freer healthier lives than at any time in human history The push toward Smaller Faster Lighter Denser Cheaper is happening across multiple sectors Bryce profiles innovative individuals and companies from long established ones like Ford and Intel to upstarts like Aquion Energy and Khan Academy

And he zeroes in on the energy industry proving that the future belongs to the high power density sources that can provide the enormous quantities of energy the world demands. The tools we need to save the planet aren't to be found in the technologies or lifestyles of the past. Nor must we sacrifice prosperity and human progress to ensure our survival. The catastrophists have been wrong since the days of Thomas Malthus. This is the time to embrace the innovators and businesses all over the world who are making things Smaller Faster Lighter Denser Cheaper

All about Science Maria Burguete, Lui Lam, 2014. There is a lot of confusion and misconception concerning science. The nature and contents of science is an unsettled problem. For example, Thales of 2,600 years ago is recognized as the father of science but the word science was introduced only in the 14th century; the definition of science is often avoided in books about philosophy of science. This book aims to clear up all these confusions and present new developments in the philosophy, history, sociology, and communication of science. It also aims to showcase the achievement of China's top scholars in these areas. The 18 chapters, divided into five parts, are written by prominent scholars including the Nobel laureate Robin Warren, sociologist Harry Collins, and physicist turned historian Dietrich Stauffer.

Contents: Preface, About Science 1. Basics of Knowledge, Nature Science and Science, Lui Lam; About Science 2. Philosophy, History, Sociology and Communication, Lui Lam; Philosophy of Science Towards a Phenomenological Philosophy of Science, Guo Sheng Wu; The Predicament of Scientific Culture in Ancient China, Hong Sheng Wang; What Do Scientists Know, Nigel Sanitt; How to Deal with the Whole: Two Kinds of Holism in Methodology, Jin Yang Liu; History of Science, Helicobacter, The Ease and Difficulty of a New Discovery, Robin Warren; Science in Victorian Era, New Observations on Two Old Theses, Dun Liu; Medical Studies in Portugal Around 1911, Maria Burguete; The Founding of the International Liquid Crystal Society, Lui Lam; Sociology of Science, Three Waves in Science Studies, Harry Collins; Solitons and Revolution in China, 1978-1983, Lui Lam; Scientific Culture in Contemporary China, Bing Liu and Mei Fang Zhang; Communication of Science, Science Communication: A History and Review, Peter Broks; Popular Science Writings in Early Modern China, Lin Yin; Other Science Matters, Understanding Art Through Science, From Socrates to the Contextual Brain, Kajsia Berg; Spy Video Games After 9/11, Narrative and Pleasure, Ting Ting Wang; Statistical Physics for Humanities: A Tutorial, Dietrich Stauffer.

Black Earth Timothy Snyder, 2015-09-17. LONGLISTED FOR THE 2015 SAMUEL JOHNSON PRIZE. We have come to see the Holocaust as a factory of death organised by bureaucrats. Yet by the time the gas chambers became operation, more than a million European Jews were already dead, shot at close range over pits and ravines. They had been murdered in the lawless killing zones created by the German colonial war in the East, many on the fertile black earth that the Nazis believed would feed the German people. It comforts us to believe that the Holocaust was a unique event. But as Timothy Snyder shows, we have missed basic lessons of the history of the Holocaust and some of our beliefs are frighteningly close to the ecological panic that Hitler expressed in the 1920s. As ideological and environmental challenges to the world order mount, our societies might be more vulnerable than we would

like to think Timothy Snyder's *Bloodlands* was an acclaimed exploration of what happened in eastern Europe between 1933 and 1945 when Nazi and Soviet policy brought death to some 14 million people *Black Earth* is a deep exploration of the ideas and politics that enabled the worst of these policies the Nazi extermination of the Jews Its pioneering treatment of this unprecedented crime makes the Holocaust intelligible and thus all the more terrifying

China's Path to Development Ali Kadri, 2021-01-04 This book is a treatise against neoliberalism illuminated by the path of China China is a model to be mimicked but more so theoretically than by replication If anything nations of the global South must rid themselves of neoliberally imposed one size fits all models instrumentalised to shift value to US empire Neoliberal models robbing nations of their histories and resources are negative best practice serving the interests of the hegemon Developing nations need to search for the theory that corresponds to their own conditions and development strategies China's experience anchored in labour as the historical agent offers numerous theoretical cues as to how to build comparable home grown paths Thinking development with a subject voids reductionist politics in favour of sober class analysis The study concludes by restating the age old wisdom that there is no development without the rule of labour

Commodity Politics Adam Sneyd, Steffi Hamann, Charis Enns, Lauren Q. Sneyd, 2022-02-15 Responsibility is political As the international community has called for more responsible environmental social and governance performance the politics of commodities has become more fraught *Commodity Politics* cuts through the new rhetoric of responsibility and presents innovative research from Cameroon to provide a better understanding of the political complexity surrounding commodity production and trade in the twenty first century Assessing the perspectives of businesses international organizations governments and civil society groups the authors offer insights gleaned from years of field research in a commodity dependent country *Commodity Politics* presents case studies of sugar palm oil cocoa and the Chad Cameroon pipeline project These cases uncover a problematic politics that is much broader than the implications of corporate social responsibility codes for people and the planet delivering solid rationales for policy makers and commodity stakeholders to think more deeply about investor driven approaches to improving environmental social and governance conduct This book trains students and scholars to better recognize political intricacies and consequential flash points Immersing its readers in timely debates over the meaning and intent of responsibility *Commodity Politics* breaks new ground in the political analysis of development

In Pursuit of Health Equity Eric D. Carter, 2023-07-05 Throughout Latin America social medicine has been widely recognized for its critical perspectives on mainstream understandings of health and for its progressive policy achievements Nevertheless it has been an elusive subject hard to define with puzzling historical discontinuities and misconceptions about its origins Drawing on a vast archive and with an ambitious narrative scope that transcends national borders Eric D Carter offers the first comprehensive intellectual and political history of the social medicine movement in Latin America from the early twentieth century to the present day While maintaining a consistent focus on health equity social medicine has evolved with changing conditions in the region

Carter shows how it shaped early Latin American welfare states declined with the dominance of midcentury technocratic health planning resurged in the 1970s in solidarity against authoritarian regimes and later resisted neoliberal reforms of the health sector He centers socialist and anarchist doctors political exiles intellectuals populist leaders and rebellious technocrats from Argentina Chile Brazil and other countries who responded to and shaped a dynamic political environment around health equity The lessons from this history will inform new thinking about how to achieve health equity in the twenty first century
