

A low-angle, upward-looking photograph of a tall, modern skyscraper with a grid-like facade of windows. The building is set against a clear, bright blue sky. The perspective creates a sense of height and scale. The building's facade is composed of light-colored panels and dark window frames.

## **Between Citizen And State An Introduction To The Corporation Great Barrington Books:**

**Between Citizen and State** David A. Westbrook, 2015-11-17 *Between Citizen and State* is an intrepid and readable introduction to and insightful commentary on the role of the corporation in the modern world. Corporate actors have typical motivations, opportunities, temptations; they are characters and their interactions follow familiar plotlines. Part I Background introduces the characters and their context. Part II Internal Struggles explains common conflicts in terms of well-known court cases. Part III External Relations examines relationships between the corporation, individuals, and the state.

**Between Citizen and State** David A. Westbrook, 2007      **Politics, Identity and Emotion** Paul Hoggett, 2015-11-17 In this wide-ranging book Paul Hoggett argues that human feelings and identities are constitutive of both personal and political life. Engaging with major debates in political theory, sociology, and psychoanalysis, he brings fresh insights to a range of issues: dynamics of political protest, intractable conflicts, fundamentalism and populism, the new political charismatics, the nature of forgiveness, and the relationship between anxiety and governance. The book is conceptually innovative and accessible, carefully introducing different theories of collective emotion and group identity and making extensive use of case studies from the U.S., England, and across the globe.

**It Ain't Me Babe** Andrea Cossu, 2015-12-03 Bob Dylan has always been something of a mystery. He has worn a variety of masks that have delighted, puzzled, amused, and angered his many audiences. Andrea Cossu offers a strikingly fresh explanation of Dylan and the transformations he has made throughout his career. Cossu's descriptions of key Dylan performances explain how he forged authenticity through performance and how the various attempts to make Bob Dylan have often involved the interaction between the artist, his public image, and his many audiences. *It Ain't Me Babe* offers a striking vision of how Dylan built his image and learned to live with its burden, painting a unique and coherent new portrait of the artist.

*Searching for the Spirit of American Democracy* Stephen Kalberg, 2015-11-17 The crisis of American democracy debate is advanced in this engaging new contribution. By referring to Max Weber's long-term perspective, Stephen Kalberg provides rich new insights into the particular contours of today's American political culture and some reasons for optimism. Kalberg draws upon Weber to reconstruct political culture in ways that define America's unique spirit of democracy. Developing several Weber-inspired models, the author reveals patterns of oscillation in American history. Can these pendulum movements sustain today the symbiotic dualism that earlier invigorated American democracy? Can they do so to such an extent that the American spirit of democracy is rejuvenated? Whilst exploring whether Weber's explanations and insights can be generalised beyond the American case, *Searching for the Spirit of American Democracy* forcefully argues that facilitating political cultures is indispensable if democracies are to endure.

**Structural Lie** Charles C. Lemert, 2015-12-22 The *Structural Lie* tackles one of social science's most mysterious problems: How is it possible to derive statements about the grand structures of social life from their effects in the small movements of everyday life? Prominent sociologist Charles Lemert shows how Marx and Freud provide some answers to this question. Marx derived from the

commodity his picture of the capitalist system Freud diagnosed the character of psyches from the details of dreams slips and jokes This wonderfully readable and engaging book lays the foundation for a new social science in an age where a microchip can convey a world of information

**Divided Nations and Transitional Justice** Sang-Jin Han, Kim Dae-Jung, Richard Von Weizsaecker, 2015-12-22 Divided Nations and Transitional Justice is a collection of significant writings contributed by the late president Kim Dae jung of the Republic of Korea and former president Richard von Weizsaecker of Germany This book presents insightful views lifetime career experiences and expertise of the two prominent leaders in the critical fields of unification peace and justice and reconciliation It centers on the cases of Korea Germany and Japan and considers how these countries have moved to address and come to terms with their wartime past This book moves to deliver messages of hope and vision on how to further the values of peace reconciliation and cooperation in the twenty first century

Out of Crisis David A. Westbrook, 2015-12-03 Former Federal Reserve chair Greenspan recently said that the risk management paradigm is broken thus our understanding of financial regulation no longer makes sense More generally the current financial crisis obliges us to rethink the relationships among financial markets and governments In Out of Crisis financial analyst David Westbrook illuminates the intellectual business and policy errors that have led us into the present morass Through a vivid legal and political analysis he shows how the ideologies of the right and left have distorted financial thinking and policy Learning from these errors the book sketches the emergence of a new understanding of risk management and bureaucratic regulation Out of Crisis begins the tasks of rethinking the structures that constitute financial markets and exploring how such structures may be strengthened Taking responsibility for the markets we build to do so much of our society's work we may yet become mature capitalists
