## **Between Two Nations The Political Predicament Of Latinos In New York City:**

**Latinos in New York** Sherrie Baver, Angelo Falcón, Gabriel Haslip-Viera, 2017-06-23 Significant changes in New York City's Latino community have occurred since the first edition of *Latinos in New York Communities in Transition* was published in 1996. The Latino population in metropolitan New York has increased from 1.7 million in the 1990s to over 2.4 million, constituting a third of the population spread over five boroughs. Puerto Ricans remain the largest subgroup, followed by Dominicans and Mexicans; however, Puerto Ricans are no longer the majority of New York's Latinos as they were throughout most of the twentieth century. *Latinos in New York Communities in Transition* second edition is the most comprehensive reader available on the experience of New York City's diverse Latino population. The essays in Part I examine the historical and sociocultural context of Latinos in New York. Part II looks at the diversity comprising Latino New York. Contributors focus on specific national origin groups including Ecuadorians, Colombians, and Central Americans and examine the factors that prompted emigration from the country of origin, the socioeconomic status of the emigrants, the extent of transnational ties with the home country, and the immigrants' interaction with other Latino groups in New York. Essays in Part III focus on politics and policy issues affecting New York's Latinos. The book brings together leading social analysts and community advocates on the Latino experience to address issues that have been largely neglected in the literature on New York City. These include the role of race, culture, and identity; health; the criminal justice system; the media; and higher education subjects that require greater attention both from academic as well as policy perspectives. Contributors: Sherrie Baver, Juan Cartagena, Javier Castaño, Ana María Díaz Stevens, Angelo Falcón, Juan Flores, Gabriel Haslip-Viera, Ramona Hernández, Luz Yadira Herrera, Gilbert Marzán, Ed Morales, Pedro A. Noguera, Rosalía Reyes, Clara E. Rodríguez, José Ramón Sánchez Walker, Simon Robert, Courtney Smith, Andrés Torres, and Silvio Torres Saillant. **Transnational Citizenship Across the Americas**

Ulla Berg, Robyn Rodriguez, 2015-12-22 Mass migrations, diasporas, dual citizenship arrangements, neoliberal economic reforms, and global social justice movements have in recent decades produced shifting boundaries and meanings of citizenship within and beyond the Americas. In migrant-receiving countries, this has raised questions about extending rights to newcomers. In migrant-sending countries, it has prompted states to search for new ways to include their emigrant citizens into the nation-state. This book situates new practices of immigrant and emigrant citizenship and the policies that both facilitate and delimit them in a broader political-economic context. It shows how the ability of people to act as transnational citizens is mediated by inequalities along the axes of gender, race, nationality, and class, both in and between source and destination countries, resulting in a plethora of possible relations between states and migrants. The volume provides cross-disciplinary and theoretically engaging discussions as well as empirically diverse case studies from countries in Latin America and the Caribbean that have been transformed into emigrant states in recent years, offering new concepts and theory for the study of transnational citizenship. This book was originally published as a special issue of *Identities: Global Studies in Culture and*

New Directions in Public Opinion Adam J. Berinsky,2015-12-21 The field of public opinion is one of the most diverse in political science Over the last 60 years scholars have drawn upon the disciplines of psychology economics sociology and even biology to learn how ordinary people come to understand the complicated business of politics But much of the path breaking research in the field of public opinion is published in journals taking up fairly narrow questions one at a time and often requiring advanced statistical knowledge to understand these findings As a result the study of public opinion can seem confusing and incoherent to undergraduates To engage undergraduate students in this area a new type of textbook is required The second edition of New Directions in Public Opinion brings together leading scholars to provide an accessible and coherent overview of the current state of the field of public opinion Each chapter provides a general overview of topics that are at the cutting edge of study as well as well established cornerstones of the field Each contributor has made

substantive revisions to their chapters and three chapters have been added on genetics and biology immigration and political extremism and the Tea Party Suitable for use as a main textbook or in tandem with a lengthier survey this book comprehensively covers the topics of public opinion research and pushes students further to explore critical topics in contemporary politics

**Foreign Policy Toward Cuba** Michele Zebich-Knos, Heather Nora Nicol, 2005-01-01 *Foreign Policy Toward Cuba* is a timely exploration of the ways in which Cuba is understood in the Western Hemisphere The book examines the depth of

disagreement between different foreign policy making communities and the potential impacts of diverse national approaches not just for Cuba but for the whole Caribbean region Electoral Politics Is Not Enough Peter F. Burns, 2012-02-16

Focusing on four medium sized northeastern cities with strong political traditions *Electoral Politics Is Not Enough* analyzes conditions under which white leaders respond to and understand minority interests Peter F Burns argues that conventional explanations including the size of the minority electorate the socioeconomic status of the citizenry and the percentage of minority elected officials do not account for variations in white leaders understanding of and receptiveness toward African American and Latino interests Drawing upon interviews with more than 200 white and minority local leaders and through analysis of local education and public safety policies he finds that unconventional channels namely neighborhood groups and community based organizations strongly influence the representation of minority interests *Resisting Citizenship* Martha A. Ackelsberg, 2013-01-11 Political participation in America supposedly the world s strongest democracy is startlingly low and many of the civil rights and economic equity initiatives that were instituted in the 1960s and 70s have been abandoned as significant proportions of the populace seem to believe that the civil rights battle has been won However rates of collective engagement like community activism are surprisingly high In *Resisting Citizenship* renowned feminist political scientist Martha Ackelsberg argues that community activism may hold important clues to reviving democracy in this time of growing bureaucratization and inequality This book brings together many of Ackelsberg s writings over the past 25 years combining her own field work and interviews with cutting edge research and theory on democracy and activism She explores these efforts in order to draw lessons and attempt to incorporate knowledge about current notions of democracy from those who engage in non traditional participation those who have in many respects been relegated to the margins of political life in the United States *Democracy at Risk* Stephen Macedo, 2006-05-25 Voter turnout was unusually high in the 2004 U S presidential election At first glance that level of participation largely spurred by war in Iraq and a burgeoning culture war at home might look like vindication of democracy If the recent past is any indication however too many Americans will soon return to apathy and inactivity Clearly all is not well in our civic life Citizens are participating in public affairs too infrequently too unequally and in too few venues to develop and sustain a robust democracy This important new book explores the problem of America s decreasing involvement in its own affairs *Democracy at Risk* reveals the dangers of civic disengagement for the future of representative democracy The authors all eminent scholars undertake three main tasks documenting recent trends in civic engagement exploring the influence that the design of political institutions and public policies have had on those trends and recommending steps that will increase the amount and quality of civic engagement in America The authors focus their attention on three key areas the electoral process including elections and the way people get involved the impact of location including demographic shifts and changing development patterns and the critical role of nonprofit organizations and voluntary associations including the philanthropy that help keep them going This important

project initially sponsored by the American Political Science Association tests the proposition that social science has useful insights on the state of our democratic life Most importantly it charts a course for reinvigorating civic participation in the world s oldest democracy The authors Stephen Macedo Princeton University Yvette Alex Assensoh Indiana University Jeffrey M Berry Tufts Michael Brintnall American Political Science Association David E Campbell Notre Dame Luis Ricardo Fraga Stanford Archon Fung Harvard William
