Beyond the 120 Year Diet Roy Walford, M.D., Roy Walford M.D., 2000-08-08 According to Dr Roy Walford there s no need for plastic surgery or obsessive exercising to escape the effects of time He argues that longevity can be significantly increased by a diet that contains all the required nutrients but about a third fewer calories In this completely revised edition of *The 120 Year Diet* Dr Walford explains and backs up his explanation with laboratory evidence why he believes that the anti aging diet can preserve one s vital productive years and extend the human life span to well beyond its present maximum A perfect companion to the author s *The Anti Aging Plan* this book also includes 20 days of varied high nutrition menus that contain fewer than 1 500 calories a day

Chasing Methuselah Todd T. W. Daly, 2021-02-04 The quest to live much longer has moved from legend to the laboratory Recent breakthroughs in genetics and pharmacology have put humanity on the precipice of slowing down human aging to extend the healthy life span The promise of longer healthier life is enormously attractive and poses several challenging questions for Christians Who wouldn t want to live 120 years or more before dying quickly How do we make sense of human aging in light of Jesus invitation to daily take up our crosses with the promise of the resurrection to come Is there anything wrong with manipulating our bodies technologically to live longer If so how long is too long Should aging itself be treated as a disease In *Chasing Methuselah* Todd Daly examines the modern biomedical anti aging project from a Christian perspective drawing on the ancient wisdom of the Desert Fathers who believed that the incarnation opened a way for human life to regain the longevity of Adam and the biblical patriarchs through prayer and fasting Daly balances these insights with the christological anthropology of Karl Barth discussing the implications for human finitude fear of death and the use of anti aging technology weaving a path between outright condemnation and uncritical enthusiasm
