*The Priesthood of All Students* Timothée Joset, 2023-06-30 Drawing on archival records and firsthand accounts this work explores the history theology and missiology of the International Fellowship of Evangelical Students IFES It examines how IFES s commitment to immediacy mediation and participation are grounded upon a firm belief in the priesthood of all believers and a missional ecclesiology that presupposes God s involvement in all aspects of life including the university It traces the impact of diverse cultures and theologies upon the manifold expressions of mission IFES has engaged and the role of IFES in extending the presence of God s people in places and among ideologies where traditional church structures have limited access This book is a powerful reminder of the transformative impact created when believers whether students or otherwise participate in the missio Dei as faithful and creative witnesses in their own contexts Bearing relevance for all those interested in a Christian perspective on the university or the theological reverberations of student ministry it also offers a robust theological framework for understanding the legitimacy of parachurch organizations and lay ministry

**Nurturing Happiness** Robert Wuthnow, Oxford Editor, 2025 How does religious faith contribute to happiness The usual answer is that religious belief relieves the anxieties of ordinary life and that religious belonging provides emotional support But a growing

body of literature suggests that happiness is more complicated than that Happiness is not only a feeling It is a practice that we engage in actively that we attempt to manage and that is in many ways managed for us by social norms and institutions In Nurturing Happiness Robert Wuthnow develops the concept of emotional practice and locates it in the sociological literature on practice theory He describes how American faith leaders at pivotal moments in their history attempted to nurture and control their adherents thoughts about happiness and their experiences of it He shows how religious authorities used their discursive power to draw moral distinctions among kinds of happiness and their institutional power to manage where it took place and how it was expressed And he demonstrates that religious authorities efforts to nurture happiness while not always effective played a crucial role in faith communities adaptation to changing social conditions This book describes these adaptations in colonial era arguments about heavenly joy and virtuous living nineteenth century revival meetings and festive events Progressive era advocacy for useful service recent efforts to link play with transcendence and to associate joyful spirituality with personal discipline and current responses to the fallout from illicit pursuits of happiness Nurturing Happiness is required reading for anyone interested in understanding how religious faith relates to happiness
