anguish that climate change causes Fossil fuels are making the planet unlivable and they are deadly We know that we must cut emissions if we are going to limit the catastrophes but is that enough In *Into the Clear Blue Sky* climate scientist and chair of the Global Carbon Project Rob Jackson explains that we need to redefine our goals As he argues here we shouldn't only be trying to stabilize the Earth's temperature at some arbitrary value Instead we can restore the atmosphere itself in a lifetime and this should be our moral duty Restoring the atmosphere means reducing the amount of greenhouse gases in the air to pre industrial levels starting with super potent methane to heal the harm we have done Emissions must be cut first and foremost But to safeguard a livable planet for future generations we must repair the damage we have caused Jackson introduces us to the brilliant leaders and innovators behind some of the boldest and game changing climate solutions under development When it comes to greenhouse gas mitigation our choices matter because it is easier to stop emissions from happening than to remove greenhouse gases from the air later But while mitigation is crucial no number of solar panels electric cars and veggie burgers alone will be enough to halt climate change Decades of inaction have convinced Jackson that we need to remove greenhouse gases from the air using everything from nature to cutting edge technologies *Into the Clear Blue Sky* is a heart and mind changing book Guided by one of the leading scientists in this fight and a deeply gifted storyteller we learn why we should all feel hopeful One way or another we will restore the planet together The question is how and how long will it take
