Kuper, 2012-11-12. First published in 1997. This cookbook invites you to sample cuisines that are still exotic even in the post-modern kitchen. Try out cooking techniques from the Colombian Amazon or from Highland New Guinea. Experiment with recipes from a Malaysian fishing village or taste a Maroon dish from the Jamaican mountains. The idea that a meal should be made up of a sequence of dishes is by no means universal, but there is no reason why one might not construct a syncretic menu. But this book does not just offer a string of recipes. Cooking and eating can be a way of travelling to foreign countries, just as food can trigger memories and bring the past back to you. This book is also a practical introduction to the anthropology of food. *Food and Nutrition* Paul Fieldhouse, *Vegetarian Times*, 1993-11. To do what no other magazine

does. Deliver simple, delicious food plus expert health and lifestyle information that's exclusively vegetarian but wrapped in a fresh, stylish mainstream package that's inviting to all. Because while vegetarians are a great, vital, passionate niche, their healthy way of eating and the earth-friendly values it inspires appeals to an increasingly large group of Americans.
