Blossoms In The Wind Human Legacies Of The Kamikaze:

Blossoms in the Wind M. G. Sheftall, 2010-11 A compelling study of fighting men whose greatest desire was to die as warriors and the legacy that still haunts those whose destinies were never fulfilled By Oct 1944 Japan was fighting for her life In a desperate attempt to stave off the inevitable the Japanese high command unleashed a new breed of warrior the kamikaze living incarnations of the legendary Divine Wind But what of those men who took the sacred oath to die in battle and lived Sheftall was given unprecedented access to the cloistered community of Japan's last remaining kamikaze corps survivors The result is a poignant glimpse into the lives and mind sets of former kamikaze pilots who through chance or fate were prevented from completing their final missions Photos

Blossoms in the Wind M. G. Sheftall, 2006 Drawing on firsthand intimate interviews with the few remaining survivors of Japan's kamikaze corps a thought provoking study offers a revealing glimpse into the lives attitudes beliefs and mindsets of former kamikaze pilots who never completed their suicidal missions Reprint 15 000 first printing [Hitler's and Hirohito's 'Kamikaze' Flying Bombs](#) William Wolf, 2025-11-30 On 1 April 1945 US troops launched the largest amphibious assault of the Pacific War on the heavily defended island of Okinawa Supporting the invasion the USS West Virginia participated in the bombardment of entrenched Japanese defenders That evening a Japanese aircraft launched a Yokosuka MXY 7 Ohka a rocket powered kamikaze plane West Virginia was hit by an Ohka becoming the first ship damaged by such a weapon Twelve days later the USS Mannert L Able became the first ship sunk by an Ohka The deployment of the Ohka was a desperate measure by Japan as the war turned against them This manned flying bomb evolved from earlier kamikaze tactics However the Germans had also considered similar weapons As early as 1944 figures close to Hitler such as Otto Skorzeny and Hanna Reitsch advocated for kamikaze missions Hitler authorized the creation of the Leonidas Staffel to prepare for these attacks leading to the development of the Messerschmitt Me 328 and Fieseler Fi 103R also known as the Reichenberg Though the Fi 103R began production in October 1944 the changing dynamics of the war rendered it obsolete by the time it was ready for use The project was formally abandoned in March 1945 This book details the development of both the Ohka and Reichenberg

Blossoms in the Wind M. G. Sheftall, 2023-05-09 A revelatory and groundbreaking account of Imperial Japan's kamikaze the suicide pilots of World War II as told through the eyes of the survivors In the final year of World War II a horrific new weapon was unleashed in the Pacific the kamikaze Idealistic young Japanese men had been taught that there was no greater glory than to sacrifice one's life to defend the homeland Now with the war all but lost thousands of these determined warriors were hastily trained in the basics of piloting an airplane then sent out in waves to crash into enemy warships suicide attacks that killed altogether some seven thousand American sailors But what of those men who took the sacred oath to die in battle and lived In the wake of 9 11 ethnographer M G Sheftall was given unprecedented access to the cloistered community of Japan's last remaining kamikaze survivors As an American fluent in Japanese Sheftall was the only westerner to ever sit face to face with these men and hear their stories The

result is a fascinating journey into the lives indoctrination and mindsets of the kamikaze through the eyes of participants who are now lost to time

Zaloga,2011-09-20 The destruction of much of the remainder of the Japanese fleet and its air arm in the later half of 1944 left the Japanese Home Islands vulnerable to attack by US naval and air forces In desperation the Imperial Japanese Navy proposed using special attack formations or suicide attacks These initially consisted of crude improvisations of conventional aircraft fitted with high explosive bombs that could be crashed into US warships Called Divine Wind Kamikaze the special attack formations first saw

action in 1944 and became the scourge of the US fleet in the battles for Iwo Jima and Okinawa in 1945 In view of the success of these attacks the Japanese armed forces began to develop an entire range of new special attack weapons This book will begin by examining the initial kamikaze aircraft attacks but the focus of the book will be on the dedicated special attack weapons developed in 1944 It also covers specialized suicide attack weapons such as anti tank lunge mines *Khubilai Khan's Lost Fleet* James P.
