**MAY 2001** Causey Enterprises, LLC,      **The expression of information structure in Bantu** Jenneke van der  
 Wal,2025-03-18 The Bantu language family is spread over a large area of Africa stretching from Cameroon to Kenya to South  
 Africa and comprises an estimated 555 languages The languages show a large amount of small scale variation while at the  
 same time forming part of one relatively uniform family within Niger Congo Interestingly the morphosyntax of these  
 languages has been observed to be heavily influenced by information structure Studying the expression of information  
 structure in Bantu is therefore of great importance not only for developing cognitive models of the role of information  
 structure in language but also for understanding the basic grammatical structure of the Bantu languages themselves Before  
 modelling the interaction between syntax and information structure in Bantu however a thorough empirical description of the  
 expression of information structure in Bantu should be available That description is what this book aims to provide This book  
 follows from a systematic investigation of information structure in the languages of the BaSIS research project Bantu Syntax

and Information Structure The data come from original field research conducted using the BaSIS methodology which was specifically developed to investigate the expression of information structure in Bantu The book contains a comprehensive introduction chapter which explains the main terms and issues in the field of information structure the methodology employed in the project and common structures which characterise topic and focus expression in Bantu The introduction is then followed by eight chapters which each give detailed descriptive overviews of the expression of information structure in a different Bantu language namely Tunen Guthrie classification A44 Cameroon Teke Kukuya B77 Congo K tharaka E54 Kenya Kirundi JD62 Burundi Rukiga JE14 Uganda Kinyakyusa M31 Tanzania Makhuwa Enahara P31 Mozambique and Cicopi S61 Mozambique Taken together the book provides detailed information on the expression of information structure in the Bantu family It is intended both to inform future theoretical work and to provide a methodology and model for the investigation of information structure that can be used in studies of other languages
