Blue Gemini A Thriller:

Blue Gemini Mike Jenne, 2015-05-05 Scott Ourecky wanted to fly he never dreamed he'd end up in a secret military space program The year is 1968 The Cold War is far from over and nuclear annihilation is always only a heartbeat away America is racing the Soviet Union to land men on the moon a war is raging and a pivotal presidential election looms on the horizon A child of the early space age Lieutenant Scott Ourecky joins the Air Force with aspirations of going to flight school A brilliant engineer he repeatedly fails the aptitude test to become a pilot but is selected to work on a highly classified military space program the innocuously named Aerospace Support Project in which Air Force astronauts are slated to fly missions to intercept and destroy suspect Soviet satellites When one of the astronauts in training abruptly falls out of the project Ourecky is asked to fill in for the two man simulated missions and survival training only serving with a headstrong and abrasive test pilot Major Drew Carson until another astronaut can be assigned By far the most proficient pilot assigned to the project Carson has a dangerous propensity to engage in pickup dogfighting sessions while on cross country training flights And although Ourecky was only a temporary placeholder not destined to fly in space he soon finds himself much more involved than he ever anticipated and in deepest peril Based on a real secret space program Blue Gemini combines high altitude action with edge of your seat storytelling to create a modern classic Cold War thriller *Blue Darker Than Black* Mike Jenne, 2020-10-15 In the second book of the Blue Gemini trilogy Air Force Majors Scott Ourecky and Drew Carson continue to fly highly classified missions to intercept and destroy suspect Soviet satellites But after experiencing numerous close calls in orbit the astronauts soon discover that not all perils reside in the sky With his marriage already at risk because he cannot explain his frequent absences and strange activities to his wife Ourecky learns that his unborn child may be in grave danger as a radiation consequence of his flights into space Even as the Ourecky and Carson accumulate successful mission after successful mission in space other crucial events occur much closer to home Interservice rivalries reach new heights as a caustic but highly influential Navy admiral schemes to steal control of the Project from the Air Force Realizing that a Soviet GRU agent is operating in their midst a shadowy team of counter intelligence operatives scramble to shield the Project's secrets from discovery leading to a confrontation that bears fatal consequences As they train to accomplish more difficult missions against complicated targets Ourecky and Carson are asked to volunteer to risk their lives one more time in an extremely hazardous rescue mission The stakes are high even as they leave the launch pad there is no certainty that either man will return **The Thriller** Gregory G. Sarno, 2006-11-28 The Thriller Scripting Seat Gripping Suspense plumbs nine score thrillers for recurring features that build nape prickling heart pounding suspense Fodder for analysis embraces domestic and foreign fare classic and contemporary ranging from Ghost Speed Seven Psycho and The Silence of the Lambs to La Femme Nikita and Yogen Premonition Text eschews a connecting the dots painting by numbers approach in belief that formulas drain the lifeblood of creativity and inevitably spawn a ho hum product That said the eight factors culled from the

covered films constitute useful tools in the screenwriter's arsenal. Perhaps the best groundwork for a thriller is infiltrating the ATF, FBI, IRA, or a brigade of arms running mercenaries. Short of that, watching films and reading scripts will work wonders. In that spirit, the book debuts three feature film scripts for critical scrutiny: mystery thriller *Stateline*, police thriller *Cashing Out*, supernatural thriller *Birthmarks*.

The Gemini Agenda Patrick McMenemy, Michael McMenemy, 2018-07-15 A string of strange deaths in 1932 leads Bourke Cockran Jr and his lover Mattie McGary to uncover a plot by Nazi scientists to conduct lethal experiments on American twins in order to create a master race. They confront an international conspiracy connecting Wall Street to Washington DC, from Long Island's fabled Gold Coast to the marble corridors of the Barlow Palace in Munich, headquarters of the fast-rising Nazi Party, and finally to a sinister clinic hidden deep in the Bavarian Forest. *The Gemini Agenda* is a historical thriller, the third in the Winston Churchill trilogy. Keywords: Churchill, Hitler, American Eugenics, Josef Mengele, Otmar von Verschuer, Anti-Semitism, Nazi.

Pale Blue Mike Jenne, 2016-08-30 US astronauts race to disarm Soviet satellites armed with nuclear weapons in the concluding volume in a thrilling alt-history Cold War era space trilogy from Mike Jenne. As the Project enters its final phase, Air Force Majors Carson and Ourecky are dispatched on an urgent mission to intercept and investigate a massive orbiting object suspected of harboring nuclear weapons. Emotionally exhausted, with his marriage teetering on the brink, Ourecky reluctantly accepts the assignment. In return for his sacrifice, he is promised an opportunity to go to MIT to pursue the PhD he has long desired. As they draw close to the mysterious satellite and prepare to destroy it, they are confronted with a dark secret that they must carry forever and are forced to contemplate their own mortality and the dire prospect of dying in space. Upon their return to Earth, the majors are offered an opportunity almost too good to pass up: flying into orbit yet again, except under considerably different circumstances. Ourecky wrestles with his decision, knowing that choosing to fly will almost certainly result in the end of his marriage, while Carson is finally granted an opportunity to fly in Vietnam. Although he is finally allowed to fulfill his dream of flying in combat, Carson soon discovers that there are some fates worse than death. As the darkest secrets are revealed to astronauts Carson and Ourecky, can they save themselves? *Pale Blue* is the epic high-flying conclusion to the Blue Gemini trilogy that will leave you breathless.

British Thrillers, 1950-1979 Franz Antony Clinton, 2020-11-10 The three decades following WWII are considered the golden age of the British thriller film. Newer characters like James Bond, along with established icons such as Sherlock Holmes, Miss Marple, and The Saint, all contributed to the era's bountiful array of cinematic mystery, danger, excitement, and suspense. For the first time, the extensive output of British thrillers from 1950 to 1979 is covered in one volume. Themed chapters cover a total of 845 films, including spy thrillers, mystery thrillers, psychological thrillers, action-adventure thrillers, and crime thrillers. Within these chapters, films appear chronologically, each with a synopsis, review, and additional information provided for each film, including production companies and alternate British and U.S. titles. The work includes eight useful appendices.
