All Creation Groans Daniel W. O'Neill, Beth Snodderly, 2021-05-18 In a suffering world reeling from global pandemics and health disparities it is high time to think theologically about the devastating experience of disease and to address our God inspired responsibility to understand its origins and engage in its management In a fragmented world we need a unifying and integrated perspective on people in communities embedded in a fractured ecology In an academic world blind to the spiritual world and imbalanced toward technical solutions the global church must articulate a contemporary metanarrative that is moral practical and deeply transformational All Creation Groans brings together multiple perspectives for a compelling global health approach to the pathologies of the world as a part of the missio Dei The authors paint a unifying perspective on God s healing intentions in creation redemption and consummation and the opposing nature corrupting effects of the rebellion of created moral agents It is a fresh call for the global church to engage in aligning with God s healing action for eternally sustainable global health *Cross-cultural Universals of Affective Meaning* Charles
