Santos, Mark Naylor, 2019-02-14 Secularization as a movement away from a religious orientation to life is strong in Canada and has influence worldwide In this volume missiologists and practitioners across Canada consider how an agenda of Christian mission and evangelism can be advanced in a secularizing environment How can believers be curious and engaged rather than defensive and fearful What changes are required from the evangelical community so that there is productive dialogue and action in ways that maintain faithfulness to the cause of Christ What should the approach of mission be to a new generation steeped in secular narratives How do we answer negative caricatures of Christian mission in light of the history of Residential Schools What examples from the past teach us about developing an irenic approach What positive trends are currently evident in Canada and around the world that counter the secularizing narrative These questions and more are considered in this volume by Canadian scholars who recognize the importance of being relevant to society while maintaining integrity with the Gospel message The essays address secularism in Canadian and worldwide contexts with seriousness insight and an underlying theme of hope recognizing that God s mission has been accomplished is being accomplished and will be accomplished *American Arabesque* Jacob Rama Berman, 2012-06-11 Part of the American Literatures Initiative Series *American Arabesque* examines representations of Arabs Islam and the Near East in nineteenth century American culture arguing that these representations play a significant role in the development of American national identity over the century revealing largely unexplored exchanges between these two cultural traditions that will alter how we understand them today Moving from the period of America s engagement in the Barbary Wars through the Holy Land travel mania in the years of Jacksonian expansion and into the writings of romantics such as Edgar Allen Poe the book argues that not only were Arabs and Muslims prominently featured in nineteenth century literature but that the differences writers established between figures such as Moors Bedouins Turks and Orientals provide proof of the

transnational scope of domestic racial politics Drawing on both English and Arabic language sources Berman contends that the fluidity and instability of the term Arab as it appears in captivity narratives travel narratives imaginative literature and ethnic literature simultaneously instantiate and undermine definitions of the American nation and American citizenship

The Web as History Niels Brügger, Ralph Schroeder, 2017-03-06 The World Wide Web has now been in use for more than 20 years From early browsers to today's principal source of information entertainment and much else the Web is an integral part of our daily lives to the extent that some people believe if it's not online it doesn't exist While this statement is not entirely true it is becoming increasingly accurate and reflects the Web's role as an indispensable treasure trove It is curious therefore that historians and social scientists have thus far made little use of the Web to investigate historical patterns of culture and society despite making good use of letters novels newspapers radio and television programmes and other pre-digital artefacts This volume argues that now is the time to ask what we have learnt from the Web so far The 12 chapters explore this topic from a number of interdisciplinary angles through histories of national web spaces and case studies of different government and media domains as well as an introduction that provides an overview of this exciting new area of research
