Not Necessarily the Newberys Joan Louthain Ayer, 2018-11-14 When Anita Silvey spoke at our Children's Literature Conference at Butler University several years ago it was quite a thrill for those of us who share her enthusiasm for well written books The former editor of The Horn Book Magazine wore one of her signature hats and sat casually on the edge of the stage and chatted with us Her 2004 book 100 Best Books for Children has been one of my most trusted references as I chose these 75 books for your independent reader She tells us in her bio for these books that she estimates she has read 125 000 children's books in her lifetime I chose eleven of her classic recommendations to review for you in this book Here are six of these not to be missed titles Betsy Tacy The Incredible Journey The Cricket in Times Square Sarah Plain and Tall Stone Fox and Tom's Midnight Garden

Earth, Wind, Fire, and Rain Judy Dodge Cummings, 2018-02-01 We might think humans have control over our environment but Mother Nature has proven us wrong again and again Earth Wind Fire and Rain Real Tales of Temperamental Elements tells the story of five of America's deadliest natural disasters that were made worse by human error ignorance and greed For example in the fall of 1871 loggers and farmers chopped trees and burned brush in the vast forest around Peshtigo Wisconsin Fire was a tool they believed they could control But on October 8 1 million acres burned in the deadliest fire in American history Later that century meteorologists mistakenly predicted clearing skies for New York City on March 10 1888 Then two devilish storm fronts collided in what was called the Great White Hurricane The blizzard brought New Yorkers to their knees and unprepared city leaders were powerless to help Powerless too were the residents of Johnstown Pennsylvania on May 31 1889 A private club of wealthy businessmen owned a dam upriver from Johnstown The club modified the dam to improve recreation on their private lake but these changes weakened the structure When heavy rains fell the dam burst flooding Johnstown with 20 million tons of water Residents of San Francisco had no warning when a massive earthquake struck on April 18 1906 It toppled buildings ruptured gas mines and ignited fires Years of political corruption had underfunded the fire department leaving it without the equipment or training to quench the inferno and San Francisco burned In the 1920s farmers transformed the dry windy southern Plains by digging up the buffalo grass and planting millions of acres of wheat But nature fought back by turning this

breadbasket into a Dust Bowl On April 14 1935 Black Sunday a 200 mile cloud of dirt buried fields livestock and people Peoples choices did not cause these disasters but they did give the forces of nature an extra nudge However tragedy sparked reforms in weather forecasting soil and forest management and emergency preparation But remember no one can control nature So be prepared to get out of the way when disaster strikes This is the tenth book in a series called Mystery Mayhem which features true tales that whet kids appetites for history by engaging them in genres with proven track records mystery and adventure History is made of near misses unexplained disappearances unsolved mysteries and bizarre events that are almost too weird to be true almost The Mystery and Mayhem series delves into these tidbits of history to provide kids with a jumping off point into a lifelong habit of appreciating history The five true tales told within Earth Wind Fire and Rain are paired with maps photographs and timelines that lend authenticity and narrative texture to the stories A glossary and resources page provide the opportunity to practice using essential academic tools These nonfiction narratives use clear concise language with compelling plots that both avid and reluctant readers will be drawn to *Talking Book Topics* ,2003
