**Freedom to Harm** Thomas O. McGarity,2013-03-19 DIV How much economic freedom is a good thing This comprehensive look at America s succession of laissez faire revivals shows how anti regulatory business crusades harm public safety and economic performance div **In Public Houses** David W. Conroy,1995 In this study of the role of taverns in the development of Massachusetts society David Conroy brings into focus a vital and controversial but little understood facet of public life during the colonial era Concentrating on the Boston area he reveals a popular culture at odds with Puritan social ideals one that contributed to the transformation of Massachusetts into a republican society Public houses were an integral part of colonial community life and hosted a variety of official functions including meetings of the courts They also filled a special economic niche for women and the poor many of whom turned to tavern keeping to earn a living But taverns were also the subject of much critical commentary by the clergy and increasingly restrictive regulations Conroy argues that these regulations were not only aimed at curbing the spiritual corruption associated with public houses but also at restricting the popular culture that had begun to undermine the colony s social and political hierarchy Specifically Conroy illuminates the role played by public houses as a forum for the development of a vocal republican citizenry and he highlights the connections between the vibrant oral culture of taverns and the expanding print culture of newspapers and political pamphlets in the eighteenth century **Badge of the Assassin** Robert K. Roger is condemned to solitary confinement for fighting although prison officials are guilty Roger boldly fights back by blowing the whistle and an unlikely ally comes to his aid Still Roger shows that his human spirit will not be broken by adversity Join Roger as he sheds a sobering light on America calls for changes to the beleaguered criminal justice system and tells an awe inspiring story about faith and God *Getting Away with Torture* Christopher H. Pyle,2009 Follows the paper trail of torture memos that led to abuses at Guantanamo in Afghanistan and in Iraq **The Courthouses of Early Virginia** Carl Lounsbury,2005 With abundant drawings photographs and maps and a checklist of important public buildings in early Virginia Lounsbury's study will fascinate and delight architectural historians architects students and Virginians involved in law and government Colonial Williamsburg Studies in Chesapeake History and Culture **Confirmation Hearings on Federal Appointments** United States. **Politics of Southern Equality** Frederick M. Wirt, This path breaking text deals with the effects of federal civil rights legislation on the behavior and attitudes of the inhabitants of a single county in Mississippi Panola County These effects are examined in the three civil rights areas of voting education and economic opportunities By using this smaller example Frederick M Wirt's broader interest is to show how legislation can be used to effect social change on a large scale The need to substitute empirical knowledge for abstract speculation motivates Wirt's study Wirt restricts his study to one county but with conclusions on comparative studies that illumine the emerging political sociology of the South The author sketches the historical setting of Panola County emphasizing on the demographic economic and political developments in recent decades He then examines what has actually happened in race relations as an effect of civil rights laws affecting votes schools and jobs Wirt utilizes documentary material from federal state and county sources local newspapers and records from business and other groups But his closer understanding comes from personal interviews Because federal law is the dynamic factor setting the social system in movement the author explains the interactions between public opinion the President and the Congress which in the end resulted in the laws on votes schools and jobs He also deals with the differing machinery of sanctions and enforcement Law has a huge effect on social change and Wirt draws from his empirical study a systematic inclusive statement of the factors affecting compliance with law in conditions of conventional biases Frederick M Wirt is professor emeritus of political science at the University of Illinois Urbana and is best known for his work in the fields of urban politics and the politics of education He is the author of many books including *Power in the City* *Decision Making in San Francisco* *The Political Web of American Schools* *Schools in Conflict* *The Politics of Education* and *Power in the City*

Vandall,2011-01-17 A

History of Civil Litigation Political and Economic Perspectives by Frank J Vandall studies the expansion of civil liability from

1466 to 1980 and the cessation of that growth in 1980 It evaluates the creation of tort causes of action during the period of 1400 1980 Re evaluation and limitation of those developments from 1980 to the present are specifically considered The unique focus of the book is first to argue that civil justice no longer rests on historic foundations such as precedent fairness and impartiality but has shifted to power and influence Reform in the law legislative judicial and regulatory is today driven by financial interests not precedent not a neutral desire for fairness and not to make it better It uses products cases and policies for much of its argument These policies can be summarized as a shift from a balanced playing field negligence to one that favors injured consumers The strict liability foreshadowed by Judge Traynor in *Escola v Coca Cola* 1944 was not adopted until 1962 when Traynor wrote the majority opinion in *Greenman v Yuba Power Products* for the California Supreme Court Second the book examines the role of persuasive non governmental agencies such as the American Law Institute in reforming and shaping civil justice Never has it been less true that we live under the rule of law Congress agencies and the courts make the law but they are driven by those who have a large financial stake in the outcome Today those with power shape the character of products liability law at every turn
