Blue Flower Henry Van Dyke:

The Blue Flower (EasyRead Super Large 24pt Edition) Henry Van Dyke,1929 The Blue Flower and Others Henry Van Dyke,2023-07-18 The parents were abed and sleeping The clock on the wall ticked loudly and lazily as if it had time to spare Outside the rattling windows there was a restless whispering wind The room grew light and dark and wondrous light again as the moon played hide and seek through the clouds The boy wide awake and quiet in his bed was thinking of the Stranger and his stories It was not what he told me about the treasures he said to himself that was not the thing which filled me with so strange a longing I am not greedy for riches But the Blue Flower is what I long for I can think of nothing else Never have I felt so before It seems as if I had been dreaming until now or as if I had just slept over into a new world Who cared for flowers in the old world where I used to live I never heard of anyone whose whole heart was set upon finding a flower But now I cannot even tell all that I feel sometimes as happy as if I were enchanted But when the flower fades from me when I cannot see it in my mind then it is like being very thirsty and all alone That is what the other people could not understand Once upon a time they say the animals and the trees and the flowers used to talk to people It seems to me every minute as if they were just going to begin again When I look at them I can see what they want to say There must be a great many words that I do not know if I knew more of them perhaps I could understand things better I used to love to dance but now I like better to think after the music Gradually the boy lost himself in sweet fancies and suddenly he found himself again in the charmed land of sleep He wandered in far countries rich and strange he traversed wild waters with incredible swiftness marvellous creatures appeared and vanished he lived with all sorts of men in battles in whirling crowds in lonely huts He was cast into prison He fell into dire distress and want All experiences seemed to be sharpened to an edge He felt them keenly yet they did not harm him He died and came alive again he loved to the height of passion and then was parted forever from his beloved At last toward morning as the dawn was stealing near his soul grew calm and the pictures showed more clear and firm *The Works of Henry Van Dyke: The blue flower* Henry Van Dyke,1920 *The Blue Flower* Henry Van Dyke,2007-09 Sometimes short stories are brought together like parcels in a basket Sometimes they grow together like blossoms on a bush Then of course they really belong to one another because they have the same life in them The stories in this book have been growing together for a long time It is at least ten years since the first of them the story of The Other Wise Man came to me and all the others I knew quite well by heart a good while before I could find the time in a hard worked life to write them down and try to make them clear and true to others It has been a slow task because the right word has not always been easy to find and I wanted to keep free from conventionality in the thought and close to nature in the picture It is enough to cause a man no little shame to see how small is the fruit of so long labor From Henry Van Dyke s preface to The Blue Flower **The Blue Flower** Henry Van Dyke,2024-09-10 Embark on a poetic and reflective journey with Henry Van Dyke s The Blue Flower a collection of short stories and essays that explores the beauty of life s fleeting moments and the

Lessons of the Wild Edwin L. Andersen, 2009-05-13 Lessons of the Wild creates an awareness of the essential lessons that Nature teaches us and provides a guidebook for men and women particularly those in their forties fifties and sixties who are seeking greater significance in their lives This book traces the traditional meaning of wilderness blended with deep reflections and fascinating stories told by ordinary and some extraordinary people whose lives were dramatically altered by their experiences in wild places In Lessons of the Wild Ed Andersen proposes that we have become estranged from the Source of our being and that the wilderness is our place of deep belonging He calls for a rediscovery of our densely embedded affiliation with the Earth and its inhabitants In support of this call he offers five paired paths to wisdom called Habits of Wholeness which ultimately lead the reader to the consideration of a radical personal freedom The book is unique in the way that it captures the elusive relationship between the outer wilderness of Nature and the inner wilderness of the human spirit Lessons of the Wild is also a book about transitions particularly in the major passages from boyhood to manhood and from the middle years to an age of wisdom Lessons of the Wild is grounded in the profound conviction that wisdom can be drawn out of the wilderness and into everyday experience And that through Nature we can begin to recover some of what s missing from our lives
