Blue Ice Travels In Antarctica:

Blue Ice Don Pinnock,2005 To most people Antarctica is the white smudge at the bottom of a world map Few realise that it s almost the size of Africa and that its wild weather and currents dominate the planet Fewer still know that Cape Town has been the gateway to Antarctic expeditions for hundreds of years Cook Shackleton Scott and many more all began their southern voyages from Table Bay This book explores the frozen continent and the voyages of discovery from an African perspective and comes up with some surprising connections *Airfields on Antarctic Glacier Ice* Malcolm Mellor,1989

American's Grand Slam Ryan Waters,Hudson Lindenberger,2022-10-01 On May 6 2014 Ryan Waters accomplished something that has not been replicated since He and fellow explorer Eric Larsen stood atop the geographic North Pole after 53 grueling days battling their way over an ever melting sheet of ice that fought against them the entire way By reaching the pole the two adventurers became the last persons to date to complete an unsupported trip to the North Pole from land The ice sheet that used to link the Pole to land in Canada once so thick and sturdy has so degraded over the last few decades that

explorers have had to abandon any attempts to cross it While reaching the North Pole was monumental for Waters it also was the final piece needed to complete a project that he had been persistently working on for over a decade the True Adventurers Grand Slam standing atop the Seven Summits and skiing full length unsupported and unassisted expeditions to both the North and South Poles His accomplishment that day made him just the 9th person and first American to gain entry into this exclusive club Never one to embrace the easy path Waters seemed to thrive in battling through whatever the fates threw at him sometimes even deliberately seeking out struggles Despite having little experience cross country skiing he decided to go to the South Pole Eschewing the more typical route he and partner Cecilie Skog completed the first traverse of Antarctica without the use of resupplies or kites Skiing from Berkner Island in the Weddell Sea via the South Pole to the Ross Ice Shelf the pair skied for 70 days and covered 1200 miles 9 years prior to the much publicized 2019 race across Antarctica To this day the two hold the record for the longest unsupported crossing of the continent without the use of kites How Waters ended up standing atop the North Pole on that fateful day is a story of hope perseverance faith and a fair share of dumb luck From his youth traipsing around the Georgia hills to his time leading expeditions around the Himalayas including five summits of Everest Waters has always seemed to stumble into the next fortuitous step of his journey often ending up in the most unlikely places This is tempered by the fact that early in Waters outdoor career he learned to live by a simple credo you have to make things happen for yourself At the beginning of his climbing career he was consumed by passion for the mountains every decision was leading to the next mountaineering challenge Eventually giving up a stable career as a geologist he had a self described mid 20 s crisis left his 401K and comfortable salary for living out of his truck and 40 dollars a day as a part time climbing instructor Following his dream of a life of adventure in exchange for a life of obeying societal norms he set out to build a mountain resume that would enable him to circle the Earth and work as a mountain guide in the Himalayas and beyond After almost two decades of hard expeditions around the planet his experiences include being on a hijacked airplane in Russia rescue of injured climbers in the Karakoram Himalaya of Pakistan the Everest Base Camp earthquake disaster narrowly missing out on the K2 2008 tragedy near misses with avalanches the deaths of close climbing partners close encounters with Polar Bears on the Arctic Ocean relationships with fellow adventurers and much more

Assessment of Nongovernmental Activities in Antarctica ,2001 Antarctica Doaa Abdel-Motaal,2016-09-28 The thawing Antarctic continent offers living space and marine and mineral resources that were previously inaccessible This book discusses how revisiting the Antarctic Treaty System and dividing up the continent preemptively could spare the world serious conflict The Antarctic Treaty and related agreements collectively known as the Antarctic Treaty System ATS regulate the seventh continent which is the only continent without a native human population The main treaty within the ATS came into force in 1961 and suspended all territorial claims in Antarctica The Antarctic Environmental Protocol followed in 1998 and prohibited any minerals exploitation in the continent With this prohibition up for review in 2048 this book asks whether the Antarctic Treaty can continue to protect Antarctica Doaa Abdel Motaal an expert on environmental issues who has traveled through the Arctic and Antarctic explains that the international community must urgently turn its attention to examining how to divide up the thawing continent in a peaceful manner She discusses why the Antarctic Treaty is unlikely to be an adequate measure in the face of international competition for invaluable resources in the 21st century She argues that factors such as global warming the growth in climate refugees that the world is about to witness and the increasingly critical quest for energy resources will make the Antarctic continent a highly sought after objective Readers will come to appreciate that what has likely protected Antarctica so far was not the Antarctic Treaty but the continent s harsh climate and isolation With Antarctica potentially becoming habitable only a few decades from now revisiting the Antarctic Treaty in favor of an orderly division of the continent is likely to be the best plan for avoiding costly conflict *The Antarctic Dictionary* Bernadette Hince,2000 The world s most isolated continent has spawned some of the most unusual words in the English language This comprehensive guide to the origins and definitions of such words as donga and growler is supported by more than 15 000 quotations drawn from over 1000 sources A treat for anyone who s ever dreamed of visiting Antarctica *The*
