50 Years Of Environment: Singapore's Journey Towards Environmental Sustainability Yong Soon Tan, 2015-08-27

In conjunction with Singapore's 50th birthday in August 2015 *50 Years of Environment Singapore's Journey Towards Environmental Sustainability* takes the reader through Singapore's environmental journey over the past 50 years to its present day challenges and solutions and seeks to explore what lies ahead for Singapore's environmental future. This book is divided into three parts. The first drawn largely from the book *Clean Green and Blue Singapore's Journey Towards Environmental and Water Sustainability* will explore the historical developments in Singapore's environmental journey and the development of NEWater. The second part will be a collection of essays that examine the present environmental challenges that Singapore faces and the ways in which it is addressing those issues through community engagement, international engagement, research and technology and industry solutions in order to develop sustainable strategies and solutions. Part Three will bring the book to a close by tying the historical and contemporary threads together and discusses the future challenges for Singapore's environment.

Business and Post-disaster Management C. Michael Hall, Sanna Malinen, Rob Vosslander, Russell Wordsworth, 2016-01-29. This book provides a comprehensive examination of the effects of a natural disaster on businesses and organisations and on a range of stakeholders including employees and consumers. Research on how communities and businesses respond to disasters can inform policy and mitigate the cost and impacts of future disasters. This book discusses how places recover following a disaster and the vital roles that business and other organisations play. This volume gives a detailed understanding of business, organisational and consumer responses to the Christchurch earthquake sequence of 2010-2011 which caused 185 deaths, the loss of over 70 per cent of buildings in the city's CBD, major infrastructure damage and severely affected the city's image. Despite the devastation, the businesses, organisations and people of Christchurch are now undergoing significant recovery. The book sheds significant new light not only on business and organisation response to disaster but on how business and urban systems may be made more resilient.

Re-Politicising International Investment Law in Latin America through the Duty to Regulate Paradigm María José Luque Macías, 2021-05-22 This book offers insights into how international investment law IIL has frustrated states protection of human rights in Latin America and IIL has generally abstained from dealing with inter regime frictions In these circumstances this study not only argues that IIL should be an object of contention and debate politicisation It also contends that Latin American countries have traditionally been the frontrunners in the politicisation of international legal instruments protecting foreign investment questioning whether the paradigms informing their claims articulation are adequate to frame this debate It demonstrates that the so called right to regulate is the paradigm now prevalently used to challenge IIL but that it is inadequate from a human rights perspective Hence the book calls for a re politicisation of IIL in Latin America through a re conceptualization of how states regulation of foreign investment is understood under international human rights law which entails viewing it as an international duty After determining what the duty to regulate constitutes in relation to the right to water and indigenous peoples right to lands based on human rights doctrine the book analyses the extent to which Latin American countries are currently re politicising IIL through an articulation of this international duty and arbitral tribunals responses to their argumentative strategies Based on these findings the book not only proposes investment treaties reform to anchor the duty to regulate paradigm in IIL and in the process to induce tribunals engagement with human rights arguments when they come to underpin respondent states defences in investor
