*Temples for Tomorrow* GeneviÃ“ve Fabre,Michel Feith,2001-09-19 The Harlem Renaissance is rightly considered to be a moment of creative exuberance and unprecedented explosion Today there is a renewed interest in this movement calling for a re evaluation and a closer scrutiny of the era and of documents that have only recently become available Temples for Tomorrow reconsiders the period between two world wars which confirmed the intuitions of W E B DuBois on the color line and gave birth to the

American dilemma later evoked by Gunnar Myrdal Issuing from a generation bearing new hopes and aspirations a new vision takes form and develops around the concept of the New Negro with a goal to recreate an African American identity and claim its legitimate place in the heart of the nation In reality this movement organized into a remarkable institutional network which was to remain the vision of an elite but which gave birth to tensions and differences This collection attempts to assess Harlem s role as a Black Mecca as site of intimate performance of African American life and as focal point in the creation of a diasporic identity in dialogue with the Caribbean and French speaking areas Essays treat the complex interweaving of Primitivism and Modernism of folk culture and elitist aspirations in different artistic media with a view to defining the interaction between music visual arts and literature Also included are known Renaissance intellectuals and writers Even though they had different conceptions of the role of the African American artist in a racially segregated society most participants in the New Negro movement shared a desire to express a new assertiveness in terms of literary creation and indentity building

Robinson, Dennis Strachota, James A. Hough, 2017-09-19 Budgeting for Local Governments and Communities is designed as the primary textbook for a quarter or semester long course in public budgeting and finance in an MPA programme. Many currently available texts for this course suffer from a combination of defects that include a focus on federal and state budgeting a lack of a theoretical governance framework an omission of important topics and typically a lack of exercises and datasets for student use. Budgeting for Local Governments and Communities solves all of these problems. The book is exceptionally comprehensive and well written and represents the efforts of veteran authors with both teaching and real world experience. Key Features Special Focus on Local Government Budgeting focuses exclusively on budgeting at the local levels of American government which are responsible for spending 40 percent of the taxes collected from citizens. Integration of Theory and Practice teaching cases and chapters capture the lessons learned by professional practitioners who have extensive experience in making local public budgeting work on the ground. Polity Approach to Local Budgeting presents an introduction to local budgeting as the central political activity that integrates the resources of the community into a unified whole. Budgeting is presented as governance work rather than as a unique set of skills possessed by analysts and financial specialists. Legal Historical Economic and Moral Foundations of Local Government Budgeting provides readers with an understanding of how the structures and processes of local budgeting systems are firmly tethered to the underlying core values legal principles and historical development of the larger American federal state and local political systems. Electronic Datasets and Budgeting Exercises the text includes access to extensive electronic datasets and practice exercises that provide abundant opportunities for students to learn through doing. Extensive Glossary and Bibliography covers terms on the history and practice of local public budgeting. Leonard's Illustrated
