A Study Guide for Ernest Hemingway's "The Killers" Gale, Cengage Learning,

The United Stories of America Rolf Lundén, 2022-06-08 This book discusses the American short story composite or short story cycle a neglected form of writing consisting of autonomous stories interlocking into a whole The critical work done on this genre has so far focused on the closural strategies of the composites on how unity is accomplished in these texts This study takes into consideration to a greater degree than earlier criticism the short story composite as an open work emphasizing the tension between the independent stories and the unified work between the discontinuity and fragmentation on the one hand and the totalizing strategies on the other The discussion of the genre is illustrated with references to numerous American short story composites

Publisher's website **The Realist Short Story of the Powerful Glimpse** Kerry McSweeney, 2007 An aesthetic perspective on the short fiction of Chekhov Joyce Hemingway O'Connor and Carver Taking a distinctively aesthetic approach to the genre of realist short fiction Kerry McSweeney clusters the work of five masters Anton Chekhov James Joyce Ernest Hemingway Flannery O'Connor and Raymond Carver to offer a poetics of the form for students and scholars At the center of this argument is the notion that the realist short story is a glimpse powerful and tightly focused into a world that the writer must precisely craft and in which the reader must fully invest Selecting writers from different generational national and cultural backgrounds McSweeney chooses writers based on their commitment to the realist representation of experience and their shared belief in the importance and efficacy of the short story form By considering their efforts in tandem he develops a means to assess the strategies and claims of realist short fiction McSweeney demonstrates that when the comments these writers have made about their work are assembled and critically scrutinized the result is an aesthetic critical model as opposed to more interpretative models that focus attention on the determination or indetermination of meanings He suggests that a fully adequate reading of a realist short story involves the integration of three components the enjoyment and contemplation of the story in and of itself affective receptivity or a response to the story's emotional content and cognitive activity or the reflective consideration of the story's conceptual implications In individual chapters on Chekhov Joyce Hemingway O'Connor and Carver this presentational model is applied to widely known and often anthologized readings from each writer McSweeney brings into sharp focus the distinctive features of each piece makes qualitative discriminations and assesses the profitability of other critical models He concludes with an invitation to test the mettle of his approach in reading other realist short story writers *Along with Youth* Peter Griffin, 1987-05 Drawing on a wealth of previously unpublished material including numerous letters and five early stories that appear in their entirety this compelling biography traces the formative years of one of America's most celebrated and influential authors The first of a projected three volume life it examines Hemingway's midwestern childhood his journalistic apprenticeship and his experiences as a Red Cross volunteer in Italy during World War I closing with Hemingway on the brink of the literary career that would bring him worldwide fame
