The Tennis Partner By Abraham Verghese:

The Tennis Partner Abraham Verghese, 1998 In January 1994 Abraham Verghese an indian doctor in a Texan teaching hospital was called to the morgue to identify the body of his close friend student and tennis partner David Smith David had killed himself because he could not deal with his addiction to intravenously injected cocaine This book is Verghese s tribute to his dead friend it is also an attempt to understand and explain drug addiction Being both doctor and friend Verghese offers us a unique insight into addiction describing with clinical detachment the horrific physical symptoms of abuse revealing how the stress of the medical profession leads to the paradox of doctors as users and movingly evoking the pain of seeing a friend suffer Written with great clarity and tenderness this is an extraordinary and important book about male friendship and a moving portrait of a brilliant young man who fought valiantly against a profound sense of inadequacy

The Tennis Partner Abraham Verghese, 1998 *The Tennis Partner* Charles Todd, 2016-07-06 **The Medical Carnavalesque** Lisa Gabbert, 2024-08-06 The practice of medicine is immersed in issues of life death and suffering in relation to the mortal body Because of this the medical profession is a fertile arena for folklore that serves to address these topics among physicians In *The Medical Carnavalesque* Lisa Gabbert argues that this extraordinarily difficult work context has led to the development of an occupational corpus of folklore backstage talk and humor that she calls the medical carnivalesque Gabbert argues that suffering is not only something experienced by patients but that the organization practice and ethos of medicine can induce suffering in physicians themselves Featuring topics such as the institutionalized nature of physician suffering death related humor and talk stories about patient bodies and parodies of medical specialties *The Medical Carnavalesque* shows us how the culture of contemporary medicine uses travesty humor and inversion to address the sometimes painful and often transgressive aspects of doctoring *The Medical Carnavalesque* connects patient and physician suffering to laughter acknowledges suffering as an essential component of life and constitutes a way in which some physicians address the core philosophical and existential issues with which they regularly engage as they go about their daily work

The Postcolonial Indian Novel in English Geetha Ganapathy-Doré, 2011-01-18 Indian writers of English such as G V Desani Salman Rushdie Amit Chaudhuri Amitav Ghosh Vikram Seth Allan Sealy Shashi Tharoor Arundhati Roy Vikram Chandra and Jhumpa Lahiri have taken the potentialities of the novel form to new heights Against the background of the genre s macro history this study attempts to explain the stunning vitality colourful diversity and the outstanding but sometimes controversial success of postcolonial Indian novels in the light of ongoing debates in postcolonial studies It analyses the warp and woof of the novelistic text through a cross sectional scrutiny of the issues of democracy the poetics of space the times of empire nation and globalization self writing in the auto meta docu fictional modes the musical pictorial cinematic and culinary intertextualities that run through this hyperpalimpsestic practice and the politics of gender caste and language that gives it an inimitable stamp This concise and readable survey gives us intimations of a truly world literature as imagined by

Francophone writers because the postcolonial Indian novel is a concrete illustration of how language liberated from its exclusive pact with the nation can enter into a dialogue with a vast polyphonic ensemble

Patient-Centred Medicine in Transition Alan Bleakley, 2014-01-27 This book challenges functional models for more aesthetic and ethical models where communication is grounded in values systems of cultures Here communication is treated as a distributed phenomenon involving networks of persons activities and artifacts and extends beyond doctor patient relationships to working in and across teams around patients The purpose of the book is to stimulate thinking about how patient care and safety may be improved through a focus upon the non technical work of doctors interpersonal communication teamwork and situation awareness in teams The focus is then not on the personality of the doctor but on the dynamics of relationships which form doctors multiple identities

The Renewal of Generosity Arthur W. Frank, 2009-11-19 Contemporary health care often lacks generosity of spirit even when treatment is most efficient Too many patients are left unhappy with how they are treated and too many medical professionals feel estranged from the calling that drew them to medicine Arthur W Frank tells the stories of ill people doctors and nurses who are restoring generosity to medicine generosity toward others and to themselves The Renewal of Generosity evokes medicine as the face to face encounter that comes before and after diagnostics pharmaceuticals and surgeries Frank calls upon the Roman emperor Marcus Aurelius philosopher Emmanuel Levinas and literary critic Mikhail Bakhtin to reflect on stories of ill people doctors and nurses who transform demoralized medicine into caring relationships He presents their stories as a source of consolation for both ill and professional alike and as an impetus to changing medical systems Frank shows how generosity is being renewed through dialogue that is more than the exchange of information Dialogue is an ethic and an ideal for people on both sides of the medical encounter who want to offer more to those they meet and who want their own lives enriched in the process The Renewal of Generosity views illness and medical work with grace and compassion making an invaluable contribution to expanding our vision of suffering and healing

The Children of 1965 Min Hyung Song, 2013-04-15 Since

the 1990s a new cohort of Asian American writers has garnered critical and popular attention Many of its members are the children of Asians who came to the United States after the Immigration and Nationality Act of 1965 lifted long standing restrictions on immigration This new generation encompasses writers as diverse as the graphic novelists Adrian Tomine and Gene Luen Yang the short story writer Nam Le and the poet Cathy Park Hong Having scrutinized more than one hundred works by emerging Asian American authors and having interviewed several of these writers Min Hyoung Song argues that collectively these works push against existing ways of thinking about race even as they demonstrate how race can facilitate creativity Some of the writers eschew their identification as ethnic writers while others embrace it as a means of tackling the uncertainty that many people feel about the near future In the literature that they create a number of the writers that Song discusses take on pressing contemporary matters such as demographic change environmental catastrophe and the widespread sense that the United States is in national decline

Back to the Future of the Body Dominic Janes, 2013-02-14 What can the past tell us about the future of the body The origins of this collection of papers lie in the work of the Birkbeck Institute for the Humanities which has been involved in presenting a series of international workshops and conferences on the theme of the cultural life of the body The rationale for these events was that in concepts as diverse as the cyborg the questioning of mind body dualism the contemporary image of the suicide bomber and the patenting of human genes we can identify ways in which the future of the human body is at stake This volume represents an attempt not so much to speculate about what might happen but to develop strategies for bodily empowerment so as to get back to the future of the body The body it is contended is not to be thought of as an object or a sign but as an active participant in the shaping of cultural formations And this is emphatically not an exercise in digging corpses out of the historical archive The question is rather what can past lived and thought experiences of the body tell us about what the body

can be come The continuing vitality of debate around the body was proven by the range and depth of the papers presented at the workshop on which this volume is based does the body have a future Our overall theme required contributors to think through embodiment in the past This they did with considerable interdisciplinary vigour rigorousness and imagination Prof Donna Dickenson Director Birkbeck Institute of the Humanities

Life on My Terms Norman E. Levan,2010-12-01 It never would have occurred to me to record the story of my life I believed it to be of little public interest However Professor Jonathan Halevy director general of Shaare Zedek Medical Center in Jerusalem where I have helped to establish a center for humanistic medicine and other friends believed otherwise They maintained that the men and women who will learn from and be served by the institutions I have been able to help with

gifts in support of humanistic values would like some idea of who I am In response to their urging I have attempted to present an accurate portrait of a fortunate man **Big Doctoring in America** fitzhugh Mullan,2002-10-01 The general practitioner was once America s doctor The GP delivered babies removed gallbladders and sat by the bedsides of the dying But as the twentieth century progressed the pattern of medical care in the United States changed dramatically By the 1960s the GP was almost extinct The later part of the twentieth century however saw a rebirth of the idea of the GP in the form of primary care practitioners In this engrossing collection of oral histories and provocative essays about the past and future of generalism in health care Fitzhugh Mullan a pediatrician writer and historian argues that primary care is a fascinating important and still endangered calling In conveying the personal voices of primary care practitioners Mullan sheds light on the political and economic contradictions that confront American medicine Mullan interviewed dozens of primary care practitioners family physicians internists pediatricians nurse practitioners and physician assistants asking them about their lives and their work He explains how during the last forty years the primary care movement has emerged built on the principles of big doctoring coordinated comprehensive care over time This book is essential reading for understanding core issues of the current health care dilemma As our country struggles with managed care market reforms and cost containment strategies in medicine Big Doctoring in America provides an engrossing and illuminating look at those in the trenches of the profession Little Pancho Caroline Seeböhm,2009-05-01 Born into a poor family in Ecuador Pancho Segura was an undersized and undernourished kid working as a ball boy at an exclusive tennis club when he first picked up a racket Little Pancho is the story of how this improbable athlete with his bandy legs infectious smile and unorthodox two handed style of play became one of the greatest and most beloved tennis players of all time During his twenty years in pro tennis general audiences appreciated his spirit as a master entertainer while tennis fans adored him Drawing on interviews with many in the game who knew or admired Pancho Caroline Seeböhm provides a close up picture of the unlikely pro as his career first emerged in Ecuador and then developed further in the United States during the 1940s where he broke down social and political prejudices with his charm naturalness and brilliance on the court Little Pancho follows Segura from the University of Miami where he won three consecutive NCAA championships still a record to his time on the U S professional tennis tour On the pro tour of that time Segura and his fellow players struggled to earn a living and find acceptance in the traditional sometimes elitist tennis world which scorned professionals as outcasts Little Pancho shows us Segura when he quit the professional tour to become a coach at the Beverly Hills Tennis Club working with movie stars such as Charlton Heston Barbra Streisand and Lauren Bacall And finally we hear for the first time from some of the later champions Segura coached including Jimmy Connors This history of tennis in the midcentury also is the inspiring story of how one poor Latino kid through sheer grit grace and talent changed the face of the sport forever
