Bent out of Shape from Society's Pliers John Wells, 2003-10-21 This volume of articles covers a wide range of artists in the world of popular music including Bob Dylan the Doors Bruce Springsteen Robert Johnson Tracy Chapman Lou Reed and The Rolling Stones Wells looks at the lyrics themes and issues from a sociological point of view examining the content of their songs against the backdrop of modern society Many of these artists write and sing about a sense of loss alienation and frustration with the American socio economic system In addition the volume shows how these artists use creative language to communicate a sense of the grotesque absurd disharmony and dread in the lives of the characters in their songs

Rock Eras James M. Curtis, 1987 From 1954 to 1984 the media made rock n roll an international language In this era of rapidly changing technology styles and culture changed dramatically too In the 1950s wild eyed Southern boys burst into national consciousness on 45 rpm records and then 1960s British rockers made the transition from 45s to LPs By the 1970s rockers were competing with television and soon MTV made obsolete the music only formats that had first popularized rock n roll Paper is temporarily out of stock Cloth 0 87972 368 8 is available at the paper price until further notice

I Wanna be Me Theodore Gracyk, 2001 Gracyk grapples with the ways that rock shapes limits and expands our notions of who we can be in the world He sees rock as a mass art open ended and open to diverse but not unlimited interpretations Recordings reach millions drawing people together in communities of listeners who respond viscerally to its sound and intellectually to its messages As an art form that proclaims its emotional authenticity and resistance to convention rock music constitutes part of the cultural apparatus from which individuals mold personal and political identities Going to the heart of this relationship between the music's role in its performers and fans self construction Gracyk probes questions of gender and appropriation How can a feminist be a Stones fan or a straight man enjoy the Indigo Girls Does borrowing music that carries a racial identity always add up to exploitation

Twenty-First-Century Caribbean Scott Timcke, Shelene Gomes, 2024-11-01 This collection of more than a dozen essays focuses on the political dynamics of race class and nationalism in the contemporary Caribbean Despite the plethora of studies on nationalism in the Caribbean few have attempted to look at the phenomenon as a political invention that does not and cannot serve the interests of all how essentialist reductive overdetermining nationalism is a political and conceptual confusion that forever stalls the project of universal human emancipation Editors Scott Timcke and Shelene Gomes gather and frame chapters that in their collective expression help trace the process of race class and nationalism through the contours of a broader political economic and social geography These chapters argue that notions of racial identity have changed over time but those reformations are not independent of class rule or nationalism By using several case studies that span the Anglo Dutch French and Spanish Caribbean and focus on the development of political organizations hardships and ideology each of these essays continues the struggle for liberation against elite entrenchment *American Popular Music: The age of rock* Timothy E.
