The New Beginning Daniel Michael, 2012-05 On a year in the near future at 7 15 p m on the 21st of October the entire American government is wiped out by nuclear warheads No one was sure who did it As the first wave of attacks came surviving Americans soon knew that both the Russians and Chinese through a systematic infiltration of North America and a complete program of invasion are the enemies The survivors have to collect their wits put up a defense and harness all sorts of technological and material resources in order for America to survive and continue in *The New Beginning* a vision of an America after a successful enemy nuclear attack Fully a hundred million Americans did not survive the first wave of attacks Alexander James then a civilian is enlisted into the army The United States what is left of it turns into a highly militarized and technologically conscious political entity to combat the oncoming hordes of Chinese and Russians Fighting rages across the American continent and Americans themselves are forced to think up all sorts of guerilla operations to momentarily stop the enemy juggernaut regroup and perhaps in a vain hope to defeat it Years of fighting changes the remaining landscape of America Buildings are built like fortresses high technology forms a defensive border even over American skies children study war in kindergarten and society lives and dies by the strength of its war slogans and the will to take the fight to the enemy Alexander James is absent from family life for years on end He makes it to Colonel in the armed forces and is a pivotal personality in a desperate operation to stop the war totally by infiltrating the Russian high command He becomes a hero but refuses to be drawn in to the next presidential election being disillusioned by what American society had become because of the war This novel is the start of a riveting new saga of a future America fighting for its very survival [The New Beginning 2](#) Daniel Michael, 2015-08-04 A future America in the midst of rebuilding after a thirteen year war is forced to relocate into massive hovering skyscrapers to avoid a government created epidemic Alexander James war hero believed to be the driving factor behind the victory over the invaders is against the mass relocation commanded by the United States government Protestors of the relocation on Relocation Day are causing disturbances that end in massacres of American citizens by their own military Alexander James is able to avoid relocation with his family While in route to a location to reunite with former soldiers from his old unit from the war his family is captured and moved to one of the relocation centers and given a living space on one of the sky scrapers Temporarily separated from his family Alex begins the creation of The Resistance a force created to deliver the country from the now tyrant president that declared martial law after the massacre After assigning leadership Alexander James decides to turn himself in in order to use his celebrity status given to him during the war to try to convince the president to return the freedom of choice to the American people and return power to the other two branches of government While attempting to convince the president Alex realizes that not only does he have no intention of freeing the American people but he has begun to implement horrific policies that slaughter anyone who stands against him as well as the handicapped and the elderly in order to ease the burden on the economy of the society he has created Alex now must

implement his own plan to make an escape for his family from these government prisons and get word to the resistance that a rebellion is necessary He soon realized that the only possible way of escape for his family may end in his own demise Choosing to sacrifice himself if necessary Alex decides that for the good of the American people and the safety of his family he would take the risk

Outside, America Hikaru Fujii,2013-04-25 The idea of the outside as a space of freedom has always been central in the literature of the United States This concept still remains active in contemporary American fiction however its function is being significantly changed Outside America argues that among contemporary American novelists a shift of focus to the temporal dimension is taking place No longer a spatial movement the quest for the outside now seeks to reach the idea of time as a force of difference a la Deleuze by which the current subjectivity is transformed In other words the concept is taking a temporal turn Discussing eight novelists including Don DeLillo Richard Powers Paul Theroux and Annie Proulx each of whose works describe forces of given identities masculine identity historical temporality and power etc which block quests for the outside Fujii shows how the outside in these texts ceases to be a spatial idea With due attention to critical and social contexts the book aims to reveal a profound shift in contemporary American fiction

Churchill & His Generals Raymond Callahan,2007 On the eve of World War II the British army was more an international police force than a combat ready fighting force This book examines its transformation in a look at Great Britain s top commanders in the field
