The Portable Nietzsche By Friedrich Nietzsche:

The Portable Nietzsche Friedrich Nietzsche, 1977-01-27 A captivating collection of Friedrich Nietzsche's seminal works from his provocative musings on truth and morality to his profound exploration of human existence. In this volume, one may very conveniently have a rich review of one of the most sensitive, passionate, and misunderstood writers in Western or any literature. Newsweek: Few writers in any age were so full of ideas. Walter Kaufmann, from the Introduction: The works of Friedrich Nietzsche have fascinated readers around the world ever since the publication of his first book more than a hundred years ago; yet few writers have been so consistently misinterpreted. *The Portable Nietzsche* includes Walter Kaufmann's definitive translations of the complete and unabridged texts of Nietzsche's four major works: *Twilight of the Idols*, *The Antichrist*, *Nietzsche Contra Wagner*, and *Thus Spoke Zarathustra*. In addition, Kaufmann brings together selections from his other books, notes, and letters to give a full picture of Nietzsche's development, versatility, and inexhaustibility. Penguin Classics is the leading publisher of classic literature in the English-speaking world, representing a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

Translated and edited by Walter Kaufmann. Commentary by Martin Heidegger, Albert Camus, and Gilles Deleuze. One hundred years after his death, Friedrich Nietzsche remains the most influential philosopher of the modern era. *Basic Writings of Nietzsche* gathers the complete texts of five of Nietzsche's most important works, from his first book to his last: *The Birth of Tragedy*, *Beyond Good and Evil*, *On the Genealogy of Morals*, *The Case of Wagner*, and *Ecce Homo*. Edited and translated by the great Nietzsche scholar Walter Kaufmann, this volume also features seventy-five aphorisms, selections from Nietzsche's correspondence, and variants from drafts for *Ecce Homo*. It is a definitive guide to the full range of Nietzsche's thought. Includes a Modern Library Reading Group Guide. *Nietzsche's Political Economy* Dmitri G. Safronov, 2023-08-21 Safronov's Nietzsche's Political Economy is a pioneering appraisal of Nietzsche's critique of industrial culture and its unfolding crisis. The author contends that Nietzsche remains unique in conceptualizing the upheavals of modern political economy in terms of the crisis of its governing values. Nietzsche scrutinises the norms which not only preside over the unfathomable build-up in debt, the proliferation of meaningless impersonal slavery, and the rise of increasingly repressive

social control systems but inevitably set these precarious tendencies of modern political economy on a collision course liable to culminate in an unprecedented human and environmental catastrophe Safronov explores the core themes of Nietzsche's political economy debt slavery and the division of labour with reference to the influential views of Adam Smith and Karl Marx as well as against the backdrop of the Long Depression 1873-1896 the first truly international crisis of industrial capitalism during which most of Nietzsche's work was completed In Nietzsche's assessment modern political economy is predicated on the valuations that diminish humankind's prospects and harm the planet's future by consistently enfeebling the present as long as there is profit to be made from it Nietzsche's critical insight which challenges the most fundamental tenet of modern economics and finance is that in order to build a stronger and intrinsically more valuable future in lieu of simply speculating on it as though the liberal Promised Land could descend upon us like the manna from heaven at the wave of an invisible hand of the market it is necessary to walk from the future we dare to envisage resolutely back to the present we inhabit to determine what demands achieving such a vision would impose upon us instead of embellishing the here and now by cynically discounting the future to the net value of the present while disparaging disowning and rewriting the past to unburden ourselves of its troubling legacy as we continue to frivolously squander its capital to the alluring tunes of the sirens who in the marketplace sing to us of the future The enabling mechanism for changing our valuing perspectives Nietzsche tells us lies dormant in us and it must be unlocked before it is too late

The Virtue Ethics of Hume and Nietzsche

Christine Swanton, 2015-02-26 This ground breaking and lucid contribution to the vibrant field of virtue ethics focuses on the influential work of Hume and Nietzsche providing fresh perspectives on their philosophies and a compelling account of their impact on the development of virtue ethics A ground breaking text that moves the field of virtue ethics beyond ancient moral theorists and examines the highly influential ethical work of Hume and Nietzsche from a virtue ethics perspective Contributes both to virtue ethics and a refreshed understanding of Hume's and Nietzsche's ethics Skilfully bridges the gap between continental and analytical philosophy Lucidly written and clearly organized allowing students to focus on either Hume or Nietzsche Written by one of the most important figures contributing to virtue ethics today [Nietzsche and Jewish Culture](#)

Jacob Golomb, 2002-01-04 Friedrich Nietzsche occupies a contradictory position in the history of ideas he came up with the concept of a master race yet an eminent Jewish scholar like Martin Buber translated his Also sprach Zarathustra into Polish and remained in a lifelong intellectual dialogue with Nietzsche Sigmund Freud admired his intellectual courage and was not at all reluctant to admit that Nietzsche had anticipated many of his basic ideas This unique collection of essays explores the reciprocal relationship between Nietzsche and Jewish culture It is organized in two parts the first examines Nietzsche's attitudes towards Jews and Judaism the second Nietzsche's influence on Jewish intellectuals as diverse and as famous as Franz Kafka Martin Buber Franz Rosenzweig and Sigmund Freud Each carefully selected essay explores one aspect of Nietzsche's relation to Judaism and German intellectual history from Heinrich Heine to Nazism **Nietzsche's Gods**

Russell Re Manning, Carlotta Santini, 2022-10-24 The place or absence of God in Nietzsche's thought remains central and controversial Nietzsche's proclamation of the death of God is one of the most famous and parodied slogans in modern philosophy seeming to encapsulate the nineteenth century loss of religious faith in the affirmation that God has turned out to be our oldest lie and yet the nature of Nietzsche's own theology is far from clear This volume engages with Nietzsche's arguments about God theology and religion The volume extends the discussion to an engagement of Nietzsche with alternative models of God with ancient Greek religions and with discussions of diversity race class gender sex in conjunction with religion The chapters examine Nietzsche's genealogy of religion and his claims about the place of God and theology in the history of Western thought that faith of the Christians which was also Plato's faith as well as his engagements with alternative conceptions of God The volume also examines the historical and contemporary reception of Nietzsche's arguments about God by religious and non religious thinkers asking to what extent Nietzsche's philosophy of God speaks to the challenges of today's globalized philosophy and religion

The Flame of Eternity Krzysztof Michalski, 2013-12-26 The Flame of Eternity provides a reexamination and new interpretation of Nietzsche's philosophy and the central role that the concepts of eternity and time as he understood them played in it According to Krzysztof Michalski Nietzsche's reflections on human life are inextricably linked to time which in turn cannot be conceived of without eternity Eternity is a measure of time but also Michalski argues something Nietzsche viewed first and foremost as a physiological concept having to do with the body The body ages and decays involving us in a confrontation with our eventual death It is in relation to this brute fact that we come to understand eternity and the finitude of time Nietzsche argues that humanity has long regarded the impermanence of our life as an illness in need of curing It is this pathology that Nietzsche called nihilism Arguing that this insight lies at the core of Nietzsche's philosophy as a whole Michalski seeks to explain and reinterpret Nietzsche's thought in light of it Michalski maintains that many of Nietzsche's main ideas including his views on love morality beyond good and evil the will to power overcoming the suprahuman or the overman as it is infamously referred to the Death of God and the myth of the eternal return take on new meaning and significance when viewed through the prism of eternity

Zarathustra's Last Supper Weaver Santaniello, 2023-01-06 This book explores the historical contextualization of Nietzsche's thought focusing on Nietzsche's controversial *Thus Spoke Zarathustra* The fourth part of Nietzsche's *Zarathustra* consists of Zarathustra's encounter with eight higher men whom Zarathustra meets in succession on his path during the day The prophet then invites each individual to his cave for the evening festivities culminating in a blasphemous festival in which his guests worship an ass as God Revealing each guest's specific characteristics and very distinct roles Santaniello also attempts to discern who these guests are or represent historically through glimpsing the characteristics specific to each representative guest as portrayed by Nietzsche and through careful textual analysis comparison with Nietzsche's other works historical evidence and previous scholarly research This unique exploration of *Thus Spoke Zarathustra* offers students and researchers alike an invaluable

new contribution to Nietzsche studies *War in Heaven/Heaven on Earth* Stephen D. O'Leary, Geln S. McGhee, 2014-12-18
The apocalypse is a motif that lies behind many religious beliefs and practices *War in Heaven Heaven on Earth* theorizes the apocalyptic as it has arisen in a variety of religious traditions from Native American religion to Islam in Northern Nigeria and new terrorist movements Millennial theory and history are explored from the perspective of social psychology sociology and post modern philosophy The volume is unique in applying an analysis of millennial themes to a comparative study of religion

Religion and the Critical Mind Anton K. Jacobs, 2012-07-10 *Religion and the Critical Mind* provides an overview of the Western heritage of the criticism of religion Anton Jacobs surveys criticisms from within and without religion from the time of the Hebrew prophets and classical Greek thinkers until the Enlightenment and shows how developments during the Renaissance Reformation and the scientific revolution laid foundations for later modern critiques While sympathetic to religion Jacobs listens carefully to its best critics and dedicates a chapter to each of the modern critics of religion Voltaire Marx Nietzsche Durkheim Freud and Russell He supplies context for their criticism and gauges their impact on religion While effectively arguing that there are only three real stances a modern person can take on religion and offering an apologia for all religions Jacobs makes a persuasive case in favor of religious participation [Nietzsche's Philosophy of Life Affirmation](#) Michael J. McNeal, 2024-12-23 This anthology broadly examines the interrelated roles of art science and experimentation in Nietzsche's philosophical project It is divided into two parts the first organized around the theme of experimentally reconceiving our world the second investigating the aforementioned subjects in Nietzsche's free spirit or middle period works Together the essays comprising the book underscore Nietzsche's concern that experimentation with values ultimately provide humankind with a new wherefore or purpose Wide ranging in its scope this volume brings together a diverse group of scholars working in both the analytic and continental traditions to provide original insights into Nietzsche's thought A unique contribution to the scholarship it deepens understanding of the relationship between Nietzsche's critiques of art and science the role this relationship plays in his futuristic thought and the experimental life affirming practices that his free spirit project may enable toward the transfiguration of humankind
