Keller,2015-11-16 From the vampires Lestat and Louis to a sexually liberated Sleeping Beauty novelist Anne Rice has created a host of characters who are notable for their paradoxical combinations of the deviant and the conventional Exit to Eden for example ends with the sado masochistic protagonists embarking on a traditional monogamous heterosexual relationship while the vampires often long to exchange their erotic immortality for ordinary mortal lives and loves This scholarly analysis of the seemingly incompatible elements of the subversive and the socially acceptable in Rice s early work covers her career from the landmark Interview with the Vampire 1976 to Lasher 1993 Each chapter tackles a different aspect of Rice s conflicting portrayals of sexual issues including homophobia pedophilia castration anxiety and the vast array of gender stereotypes and roles that her novels so often interpret and exploit This study is appropriate both for readers of Rice s writing and those intrigued by issues of sexual politics and the ways in which a popular author both embraces and repudiates some of the most shocking concepts of sexuality An index and bibliography are included to aid research **The Twilight of the Gothic?**

The Vampire as Numinous Experience Beth E. McDonald, 2004-07-16 The critical work examines the vampire as a spiritual figure whether literal or metaphorical analyzing how the use of the vampire in literature has served to convey both a human sense of alienation from the divine and a desire to overcome that alienation While expressing isolation the vampire also represents the transcendent agent through which individuals and societies must confront questions about innate good or evil and belief in the divine and the afterlife Textual experiences of the numinous in the form of the vampire propel the subject on a spiritual journey involving both psychological and religious qualities Through this journey the reader and the main character may begin to understand the value of their existence and the divine A variety of works poetry and fiction by British and American authors is discussed with particular concentration on Coleridge's *The Rime of the Ancient Mariner* Bram Stoker's *Dracula* and Anne Rice's *Vampire Chronicles* as representative of the Romantic Victorian and late twentieth century periods of literature A conclusion looks at the future of the literary vampire
