Jung, 2009-10-13 The most influential unpublished work in the history of psychology When Carl Jung embarked on an extended self exploration he called his confrontation with the unconscious the heart of it was The Red Book a large illuminated volume he created between 1914 and 1930 Here he developed his principle theories of the archetypes the collective unconscious and the process of individuation that transformed psychotherapy from a practice concerned with treatment of the sick into a means for higher development of the personality While Jung considered The Red Book to be his most important work only a handful of people have ever seen it Now in a complete facsimile and translation it is available to scholars and the general public It is an astonishing example of calligraphy and art on a par with The Book of Kells and the illuminated manuscripts of William Blake This publication of The Red Book is a watershed that will cast new light on the making of modern psychology

Reading the Red Book Sanford L. Drob, 2023-03-28 The long awaited publication of C G Jung s Red Book in October 2009 was a signal event in the history of analytical psychology Hailed as the most important work in Jung s entire corpus it is as enigmatic as it is profound Reading The Red Book by Sanford L Drob provides a clear and comprehensive guide to The Red Book s narrative and thematic content and details The Red Book s significance not only for psychology but for the history of ideas *The Red Book: Reflections on C.G. Jung's Liber Novus* Thomas Kirsch, George Hogenson, 2017-09-19 In 2009 WW Norton published The Red Book a book written by Jung in 1913 1914 but not previously published Snippets of information about the likely contents of the Red Book had been in circulation for years and there was much debate and eager anticipation of its publication within the Jungian field and the larger reading public In 2010 a conference was held at the San Francisco Jungian Institute which brought together an international group of distinguished scholars in analytical psychology to explore and address critical contextual aspects of The Red Book and to debate its importance for current and future Jungian theory and practice The Red Book Reflections on C G Jung s Liber Novus is based on that conference the individual papers have been thoroughly revised and updated for this book and address some of the important questions and issues that were raised at that conference in response to the presentation of these papers As yet there has been very little published about The Red Book The Red Book Reflections on C G Jung s Liber Novus will contribute to setting the agenda for further research both scholarly and clinical in response to Jung s account of his experiences between 1913 1914 when arguably the future course of his entire project was set in motion This book will be essential reading for any Jungian interested in the importance of The Red Book analytical psychologists trainee analysts those with an interest in the history of ideas and historians **The Red Book** C. Jung's Red Book for Our Time: Searching for Soul In the 21st Century Murray Stein,2022-12-10 Do we like Jung need to leave the spirit of the time and follow the spirit of the depths to call out my soul where are you through the windows of our now post modern homes We live in a digital world of incredible virtual interconnectedness but at the same time fragmented and divided on many levels including the psychological The pace of life is rapid and ever accelerating The spirit of the time is flux It twitters There is no sense of coherence in the whole The guidance of a transcendent North Star is invisible to the naked eye of consciousness Our existential crisis is not about the individual alone It infects the entire human world like the Covid 19 pandemic Wars between cultural brothers and sisters increasingly dire effects of climate change economic disruptions hunger migration these conditions affect everyone on the planet Is there a spirit of the depths that can take us through this Inferno perhaps toward the emergence of a meaningful narrative that can stabilize the global community and provide a collective sense of supreme meaning This is the search for soul in the 21st Century
