Supreme Court,Edwin Burritt Smith,Ernest Hitchcock,1885 *The Challenge of Linear Time* ,2013-10-31 The papers collected in this volume congeal around a debate about the ways and extent of the dominance of linear time and progressive history and the concomitant delineation of the nation in Chinese and Japanese historiography As China and Japan entered the global capitalist system of nation states the Chinese and Japanese regimes implemented a number of reforms which resulted in transformations that affected everyday experience In the face of imperialism and the perceived threat of being split up the Meiji and late Qing governments radically reoriented policies in order to become wealthy and powerful in the global arena People not only began to experience time and space in new ways but elites also were increasingly exposed to Western theories of history and concepts of nationhood which became dominant These changes contributed to the production of new types of historical consciousness and collective identity The essays in this volume each provide a perspective on the complex ways in which imagining national and regional identity in East Asia were and continue to be enmeshed with visions of time and history This book should be of interest to all those who are interested in nationalism modernity in China and Japan global capitalism and the politics of time *The Athenaeum* ,1880 *The Power of Neo-Slave Fiction and Public History* Grant Rodwell,2023-10-13 Professional historians schools colleges and universities are not alone in shaping higher order understanding of history The central thesis of this book is the belief historical fiction in text and film shape attitudes towards an understanding of history as it moves the focus from slavery to the enslaved from the institution to the personal families and feminist accounts In a broader sense this contributes to a public history In part using the quickly growing corpus of neo slave counterfactual narratives this book examines the notion of the emerging slavery public history and the extent to which this is defined by literature film and other forms of artistic expression rather than non fiction popular or scholarly and education in history in the school systems Inter alia this book looks to the validity of historical fiction in print or in film as a way of understanding history A focal point of this book is the hypothesis that neo slave narratives supported by selective triangulated readings and viewings of scholarly works and non fiction have assisted greatly in re shaping the historiography of antebellum slavery and scholarly historians followed in the wake of these developments Essentially this has

meant a re shaping of the historiography with a focus from slavery to that of the enslaved Moreover it has opened new vistas for a public history devoid of top down authoritative scholarship An important and provocative read for students and scholars interested in understanding the history of slavery its harrowing effects and how it was culturally defined *The Athenaeum* James Silk Buckingham, John Sterling, Frederick Denison Maurice, Henry Stebbing, Charles Wentworth Dilke, Thomas Kibble Hervey, William Hepworth Dixon, Norman Maccoll, Vernon Horace Rendall, John Middleton Murry, 1880 **The Agricultural Gazette and Modern Farming** , 1899 **Annual Report, Secretary of the State Board of Agriculture, State of Michigan and ...
