Aging With Hiv Psychological Social And Health Issues:

Aging with HIV Janice E. Nichols, David C. Speer, Betty J. Watson, Mary Watson, Tiffany L. Vergon, Colette M. Vallee, Joan M. Meah, 2002-09-15 In 1998 approximately 30 million people worldwide were living with HIV AIDS about 5 million of whom became infected that year The epidemic continues to expand with an estimated doubling time of 10 years making AIDS the leading infectious cause of death ahead of tuberculosis and malaria Even in the U S A where the death rate from AIDS is declining as a result of effective drug therapies HIV infection rates continue to climb in several population groups The prevalence of AIDS among people over the age of 50 is steadily increasing and most older people are unprepared to address it for a number of reasons including the widespread discomfort with matters sexual and homosexual and the belief that elderly people are not sexually active and therefore not at risk This guide for care providers seeks to educate and inform readers about the difficulties and complications that accompany the disease in older people Thus while the appendix includes technical descriptions of methodology data and results the narratives in the chapters describing the findings and their practical implications are written in layman s language Topics covered include biomedical aspects demographics sexuality stressors mental health older women and patient care all of which are supported by case studies

Aging with HIV James Masten Ph.D., LCSW, 2010-12-01 With improvements in the treatment of HIV disease gay men in great numbers are surviving and thriving into middle and older age While increased longevity brings new hope it also raises unanticipated challenges particularly for gay men who never thought they would live this long How do I deal with all the physical changes Who can I rely on as I get older Is a relationship still in the cards for me What about sex How should I prepare for old age A one of a kind guide for gay men aging with HIV Aging with HIV offers an upbeat down to earth approach for adapting to change whether driven by age AIDS or both Psychotherapist James Masten and physician James Schmidtberger shed light on the many common assumptions and fears of aging with HIV Aging with HIV provides concrete solutions for facing midlife with a positive outlook offering a wealth of advice for breaking unhealthy habits and coping mechanisms The book describes the nine changes common to gay men as they age with HIV discusses the four challenges of aging and offers a unique ten step path to optimal aging with HIV helping the reader to tailor the book s suggestions to the realities of their lives Woven throughout the book are first person narratives from men who recount what worked and did not work for them In addition Rapid Research Fast Fact and Self Reflection boxes highlight the latest research and challenge readers to take stock of the present and plan for the future An invaluable tool to keep handy and to refer to often Aging with HIV is an inviting confident companion to navigating midlife and beyond with HIV

Handbook of Psychosocial Interventions with Older Adults Sherry M. Cummings, Nancy P. Kropf, 2013-09-13 In the past decade evidence based practice EBP has emerged as one of the most important movements to improve the effectiveness of clinical care As the number of older adults continues to grow it is essential that practitioners have knowledge of effective strategies to improve both the medical and the psychosocial aspects of older persons lives The purpose of this work is to present systematic reviews of research based psychosocial interventions for older adults and their caregivers The interventions presented focus on a variety of critical issues facing older adults today including medical illnesses cardiac disease diabetes arthritis pain cancer and HIV AIDS mental health cognitive disorders depression anxiety dementia substance abuse and social functioning developmental disabilities end of life dementia caregivers grandparent caregivers For each of these areas the prevalence of the problem the demographics of those affected and the nature and consequences of

the problem are discussed The empirical literature is then reviewed A treatment summary highlights the type and nature of research supporting the interventions reviewed and is followed by a conclusion section that summarizes the status of intervention research for the specified issue A Treatment Resource Appendix for each area is included These appendices highlight manuals books articles and web resources that detail the treatment approaches and methodologies discussed This book was previously published as a special issue of the Journal of Gerontological Social Work Midlife and Older Adults and HIV Sharon Keigher, Cynthia Cannon Poindexter, 2013-10-08 Get a detailed overview of the social services provided for HIV infected midlife and older adults and find out where social work practice with this growing population is headed As more potent medications are being developed to treat HIV people who have contracted the virus are living longer lives than previously expected Survival means new side effects and increasingly complex issues now compounded by the diseases of aging All this presents unprecedented challenges to social service and benefit systems Midlife and Older Adults and HIV Implications for Social Service Research Practice and Policy introduces policymakers and policy analysts practitioners in the helping professions and the public to available social services for aging adults who are living with HIV AIDS It also addresses midlife and older adults at risk of HIV infection as well as aging persons whose lives are affected by relatives and friends living with HIV Midlife and Older Adults and HIV provides a comprehensive examination of this emerging field of practice Specific chapters examine prevention family care vulnerability inclusion and the disease process itself It lays out the broad terrain of future social work practice with HIV infected elders and elders affected by HIV The book concludes with reflections on survivorship during the past two decades from six older community leaders living with HIV AIDS It also provides current research findings innovative conceptual models an invaluable compendium of resource information from the National Association of HIV Over Fifty and program ideas to address the HIV epidemic within the aging population The issues addressed in Midlife and Older Adults and HIV include HIV prevention initiatives coordination and integration of local service networks the health social and financial risks facing women with HIV the health consequences of HIV AIDS and its interactions with normal aging the use of behavioral reinforcement methods as interventions perceptions of vulnerability to HIV among older African American women and the role of intimate partners and much more Midlife and Older Adults and HIV is a comprehensive resource on social services for aging adults who are living with HIV AIDS It serves as a record of what is known and what is presently being learned about practice in this constantly evolving field The book is a call to action for social workers and other human service professionals to anticipate and plan for the emerging needs of persons with HIV AIDS who are rapidly growing older The array of topics covered in this volume also makes it ideal as a supplemental textbook in courses on HIV and aging EBOOK: Sexuality, Sexual Health and Ageing Merryn Gott, 2004-12-16 What factors underpin dominant understandings of later life sexuality How do older people experience and prioritise sexuality and sexual health What sexual health issues are relevant to older people and how are these addressed by health care professionals This

is the first book to integrate theoretical insights into sexuality sexual health and ageing with research findings from studies conducted with older people and the professionals that work with them The book is split into three sections In the first section stereotypes that typify contemporary understandings of sexuality and ageing are explored particularly the myth of asexual old age and the more recent stereotype of the sexy oldie Section two identifies what we actually know about ageing and sexuality by reviewing current literature as well as presenting findings from one of the first qualitative studies to explore sexuality from the perspective of older people themselves The final section of the book explores what sexual health means within the context of ageing and focuses on issues relevant to health professionals working with older people Sexuality Sexual Health and Ageing provides key reading for students researchers practitioners and policymakers working within gerontology sociology psychology social work health sciences nursing and medicine This book is likely to become essential reading for all academics and professionals working with older people or in the area of sexual health
