Aid Dependence In Cambodia How Foreign Assistance Undermines Democracy:

Aid Dependence in Cambodia Sophal Ear, 2013 Dr Ear argues that the international community has chosen to prioritize political stability above all other governance dimensions and in so doing has traded a modicum of democracy for an ounce of security Focusing on post 1993 Cambodia Ear explores the unintended consequences in post conflict environments of foreign aid He chooses Cambodia both for personal reasons which infuses an academic analysis with a compelling sense of urgency and because it is one of the most aid drenched countries in modern history He tries to explain the relationship between Cambodia's aid dependence and its appallingly poor governance He concludes that despite decades of aid technical cooperation four national elections no open warfare and some progress in some parts of the economy Cambodia is one broken government away from disaster Publisher's description

Practices of Reparations in International Criminal Justice Christoph Sperfeldt, 2022-07-07 Combining interdisciplinary techniques with original ethnographic fieldwork Christoph Sperfeldt examines the first attempts of international criminal courts to provide reparations to victims of mass atrocities The observations focus on two case studies the Extraordinary Chambers in the Courts of Cambodia where Sperfeldt spent over ten years working at and around and the International Criminal Court's interventions in the Democratic Republic of Congo Enriched with first hand observations and an awareness of contextual dynamics this book directs attention to the social life of reparations that too often get lost in formal accounts of law and its institutions Sperfeldt shows that reparations are constituted and contested through a range of practices that produce change and give meaning to reparations Appreciating the nature and effects of these practices provides us with a deeper understanding of the discrepancies that exist between the reparations ideal and how it functions imperfectly in different contexts

Emerging Faith Paul H. De Neui, 2020-01-05 Mistakes are inevitable but repeating them isn't In non Western contexts Christianity has often been viewed as the religion of foreigners with a hidden political agenda Sharing the gospel in non imperialistic ways can be challenging particularly in Asia Every location to which God calls his messengers has its own rich history that should be shared with gospel workers and local people Those desiring to serve interculturally must learn as much as possible about the past before joining that history Are we learning from the past or are we simply repeating the same mistakes in our own times and places No culture in the world is a blank slate rather we can look for the initiating inviting work of the missio Dei already emerging from within every surprising source This book showcases the writings of sixteen reflective practitioners who offer insights based on their study and experience of history

China and Its Small Neighbors Sung Chull Kim,2023-03-01 In China and Its Small Neighbors Sung Chull Kim examines the political implications of the economic asymmetry between China and its small neighbors part of wider changes in international relations brought about by the rise of China While being critical of the current trend that focuses on the China U S rivalry alone Kim argues that a microanalysis of China s advances toward its neighbors is a guide to understanding the trajectory of China s expanding influence and transitions in world politics more broadly Economic asymmetry as seen in trade concentration non transparency and reliance on bilateral aid has made China s small neighbors vulnerable on the political front thus generating potential threats to their sovereignty and independence Because China has the upper hand in the bilateral relationships these weak states practice dual core hedging as a strategy for survival They hedge on China for expected economic benefits and at the same time hedge against their powerful neighbor to mitigate the risks involved in that hedging on Each small state s mode of hedging depends on its degree of vulnerability and its availability of policy instruments such as multilateral institutions and bilateral partnerships with extra regional powers

Peacebuilding and Friction Annika Björkdahl,Kristine Höglund,Gearoid Millar,Jair van der Lijn,Willemijn

Verkoren,2016-03-02 This book aims to understand the processes and outcomes that arise from frictional encounters in peacebuilding when global and local forces meet Building a sustainable peace after violent conflict is a process that entails competing ideas political contestation and transformation of power relations This volume develops the concept of friction to better analyse the interplay between global ideas actors and practices and their local counterparts The chapters examine efforts undertaken to promote sustainable peace in a variety of locations such as Cambodia Sri Lanka Afghanistan and Sierra Leone These case analyses provide a nuanced understanding not simply of local processes or of the hybrid or mixed agencies ideas and processes that are generated but of the complex interactions that unfold between all of these elements in the context of peacebuilding intervention The analyses demonstrate how the ambivalent relationship between global and local actors leads to unintended and sometimes counterproductive results of peacebuilding interventions The approach of this book with its focus on friction as a conceptual tool advances the peacebuilding research agenda and adds to two ongoing debates in the peacebuilding field the debate on hybridity and the debate on local agency and local ownership In analysing frictional encounters this volume prepares the ground for a better understanding of the mixed impact peace initiatives have on post conflict societies This book will be of much interest to students of peacebuilding conflict resolution security studies and international relations in general *Fragile Aid* Rachel M. Gisselquist,Patricia Justino,Andrea Vaccaro,2025-04-24 This is an open access title available under the terms of a CC BY NC SA 3 0 IGO licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations International development cooperation plays a key role in promoting social economic and political progress and wellbeing in developing countries Yet it has long been clear that the effectiveness of aid is most challenging in countries with weak institutions It is estimated that by 2030 around a fifth of the world s poorest people will live in fragile and conflict affected countries Despite increased attention much more needs to be done to maximize the effectiveness of aid in these highly complex situations This book offers fresh in depth understandings of the effectiveness of development cooperation in fragile contexts and where challenges regarding the effectiveness of development cooperation are most pronounced The empirical chapters combine quantitative macro analysis of cross country data with detailed country case studies to take stock of past research on the topic investigate the impact of foreign aid in fragile state contexts and explore whether and how aid delivered in accordance with the principles of effective development cooperation works in these settings Cross national studies provide a broader picture of the topic while country case studies allow us to identify specific ways in which development cooperation operates More reflective chapters discuss the feasibility of the effectiveness agenda and provide important insights on how the effectiveness principles could be improved and better put into practice The collection offers important original contributions to a large body of policy relevant scholarship on the aid development nexus as well as to rapidly evolving research and policy debates on building strong and inclusive state institutions **The Delusion of Knowledge Transfer** Koch,

Susanne, Weingart, Peter, 2016-12-13 With the rise of the knowledge for development paradigm expert advice has become a prime instrument of foreign aid At the same time it has been object of repeated criticism the chronic failure of technical assistance a notion under which advice is commonly subsumed has been documented in a host of studies Nonetheless international organisations continue to send advisors promising to increase the effectiveness of expert support if their technocratic recommendations are taken up This book reveals fundamental problems of expert advice in the context of aid that concern issues of power and legitimacy rather than merely flaws of implementation Based on empirical evidence from South Africa and Tanzania the authors show that aid related advisory processes are inevitably obstructed by colliding interests political pressures and hierarchical relations that impede knowledge transfer and mutual learning As a result recipient governments find themselves caught in a perpetual cycle of dependency continuously advised by experts who convey the shifting paradigms and agendas of their respective donor governments For young democracies the persistent presence of external actors is hazardous ultimately it poses a threat to the legitimacy of their governments if their policy making becomes more responsive to foreign demands than to the preferences and needs of their citizens
