Documenting Impossible Realities Susan Bibler Coutin, Barbara Yngvesson, 2023-04-15 *Documenting Impossible Realities* explores the limitations of conventional accounts through which belonging is documented focusing on the experiences of adoptees deportees migrants and other exilic populations Susan Bibler Coutin and Barbara Yngvesson speak to the current historical moment in which the dichotomy between an above ground inhabited by dominant groups and an underground to which unauthorized immigrants political exiles and transnational adoptees are relegated cannot be sustained This dichotomy was made possible by the illusion that some people do not belong that some forms of kin are not real or that certain ways of knowing do not count To examine accounts that challenge such illusions Coutin and Yngvesson focus on the spaces between groups where difference is constituted and where the potential for new forms of relationship may be realized By juxtaposing and moving between entangled realities and modes of expression *Documenting Impossible Realities* conveys the emotional experience of oscillating between being here and gone legitimate and treated as counterfeit

Kinethic California Naomi Macalalad Bragin,2024-04-30 *Kinethic California* Dancing Funk and Disco Era Kinships documents the emergence of new forms of black social and vernacular dance invented by youth living in 1970s California who helped build the foundations of contemporary hip hop streetdance culture Naomi Macalalad Bragin weaves interviews and ethnographies of first generation 1960s 70s dancers of strutting boogaloo robotting popping locking waacking and punking styles as it advances a theory of dance as kinetic kinship formation through a focus on techniques and practices of

the dancers themselves She offers that the term given to these collective movement practices is kinethic to bring attention to motion at the core of black aesthetics that generate dances as forms of kinship beyond blood relation Kinethics reorient dancers toward kinetic kinship in ways that give continuity to black dance lineages under persistent conditions of disappearance and loss As dancers engage kinethics they reinvent gestural vocabularies that describe worlds they imagine into knowing being The stories in Kinethic California attend to the aesthetics of everyday movement seen through the lens of young artists who from childhood listened to their family s soul and funk records observed the bent leg strolls and rhythmic handshakes of people moving through their neighborhoods and watched each other move at house parties school gyms and around the way social clubs Their aesthetic sociality and geographic movement provided materials for collective study and creative play Bragin attends to such multidirectional conversations between dancer community and tradition by which California dance lineages emerge and take flight

 Coutin, Jennifer M. Chacón, Stephen Lee, 2024-01-30 The 2012 Deferred Action for Childhood Arrivals DACA program was
 supposed to be a stepping stone a policy innovation announced by the White House designed to put pressure on Congress for
 a broader lasting set of legislative changes Those changes never materialized and the people who hoped to benefit from them
 have been forced to navigate a tense and contradictory policy landscape ever since haunted by these unfulfilled promises
 Legal Phantoms tells their story After Congress failed to pass a comprehensive immigration bill in 2013 President Obama
 pivoted in 2014 to supplementing DACA with a deferred action program known as DAPA for the parents of citizens and lawful
 permanent residents and a DACA expansion DACA in 2014 But challenges from Republican led states prevented even these
 programs from going into effect Interviews with would be applicants immigrant rights advocates and government officials
 reveal how such failed immigration reform efforts continue to affect not only those who had hoped to benefit but their
 families communities and the country in which they have made an uneasy home Out of the ashes of these lost dreams though
 people find their own paths forward through uncharted legal territory with creativity and resistance *Telling Blackness*
 Krystal Smalls, 2024 Telling Blackness begins with two simple premises conventional models of the ways people make
 meaning of the world fail to account for the particularities of Blackness and accounts of Black life often miss the significance
 of the smallest and subtlest acts that sustain it With this introduction of raciosemiotics Smalls remaps the field of semiotic
 anthropology around the specificities of race and the body and remaps contemporary Black diaspora through the embodied
 significations of a group of young Liberian women in the US This transdisciplinary ethnographic account of their lives helps
 us reimagine their talk twerks and tweets as tellings that exceed our understandings of narrative and that potentially act on
 the world of meaning And with careful historical contextualization we see how such acts reproduce refuse or powerfully
 disregard racial logics that have entangled the US and Liberia for two centuries Led by Black feminist scholarship Telling
 Blackness also provides a semiotic glimpse into ways of relating that help create complex diasporic intimacies and that

Lynteris, 2023-03-31 This book explores the role and implications of responsibility for anthropology, asking how responsibility is recognised and invoked in the world, what relations it draws upon and how it comes to define notions of the person, institutional practices, ways of knowing and modes of evaluation. The category of responsibility has a long genealogy within the discipline of anthropology and it surfaces in contemporary debates as well as in anthropologists' collaboration with other disciplines, including when anthropology is applied in fields such as development, medicine and humanitarian response. As a category that unsettles, challenges and critically engages with political, ethical and epistemological questions, responsibility is central to anthropological theory, ethnographic practice, collaborative research and applied engagement. With chapters focused on a variety of cultural contexts, this volume considers how anthropology can contribute to a better understanding of responsibility, including the responsibility of anthropology and the responsibility of anthropologists to specific others **The**
