Aiming High Success Stories Of Leadership And Strategic Planning:

Aiming High Jay W. Spechler, 2001 If you believe that successful leadership can't be codified Colonel Jay W. Spechler PhD would beg to differ. A management consultant and professor, the Colonel clearly describes the traits of a successful leader and then details what such a leader must do to guide a strategic planning initiative. Having pinned his model for success to a board like a butterfly, he describes how 18 organizations changed through strategic planning under strong leaders. The Colonel's organizations vary from large corporations (American Airlines, AT&T and Ritz Carlton Hotels) to nonprofit trade and governmental organizations (a local school board, the United Services Automobile Association and the U.S. Air Force). He nails down and organizes the major elements that make a strategic initiative work. *getabstract* recommends this book as a refreshing change from the general run of works on theoretical strategic planning. Thanks to his focus on the human and organizational face of leadership and change, Spechler is our new favorite Colonel. [Historians on Leadership and Strategy](#)

Martin Gutmann, 2019-10-01 This book examines the well-covered subject of leadership from a unique perspective: history's vast catalogue of leadership successes and failures. Through a collection of highly compelling case studies spanning two millennia, it looks beyond the classic leadership parable of men in military or political crises and shows that successful leadership cannot be reduced to simplistic formulae. Written by experts in the field and based on rigorous research, each case provides a rich and compelling account that is accessible to a wide audience, from students to managers. Rather than serving as a vehicle for advancing a particular theory of leadership, each case invites readers to reflect, debate, and extract their own insights.
