Air America In Laos The Flight Mechanics Stories:

Air America in Laos Stephen I. Nichols, 2013-04-02 True stories of the helicopter aircrews of Air America the World's most shot at airline whose motto was Anything Anytime Anywhere Professionally The civilian airline working for the CIA performed paramilitary activities for the Lao Government during their civil war with the communists These stories and photographs cover the period from 1965 to 1974 and are told by Hal Augustine Roger Burdwood Frank DeVito Pilot Fred Frahm Gary Gentz Dennis Griffith Rusty Irons Dave McDonald Bill Long Matt Luca Steve Nichols and Rick Strba **The Green Berets in the Land of a Million Elephants** Joseph D. Cieski, 2020-01-10 The untold story of US Special Forces in Laos one of the longest secret wars of the Cold War by a military historian and Special Forces veteran The Secret War in Laos was one of the first long wars fought by US Special Forces spanning a period of about thirteen years It was one of the largest CIA paramilitary operations of the time kept out of the view of the American public until now Between 1959 and 1974 Green Berets were covertly deployed to Laos during the Laotian Civil War to prevent the Communist Pathet Lao from taking over the country Operators disguised as civilians and answering only to Mister were delivered to the country by Air America where they reported to the US Ambassador With limited resources they faced a country in chaos Maps had large blank areas and essential supplies often didn't arrive at all In challenging tropical conditions they trained and undertook combat advisory duties with the Royal Lao Government Shrouded in secrecy until the 1990s this was one of the first major applications of special warfare doctrine Now the story is comprehensively told for the first time using official archival documents and interviews with veterans *CIA Super Pilot Spills the Beans!* Bill Collier, 2017 Death defying adventure big money world travel sex booze this true tale has it all War Correspondent Anne Darling described the pilots of Air AMERICA as CIA Super Pilots Captain Collier was one of those Super Pilots This is his story Captain Collier teamed up with his best Vietnam helicopter pilot buddy Gary and the two rascals shared enough adventure to make any novel seem lame Flying combat in mountainous and weather hostile Laos was some of the most challenging ever experienced by any pilot any time any war Making fabulous money and having airline benefits allowed them to live an exotic lifestyle to travel the world on their monthly R Rs and to chase and catch more than a few stewardesses from several different airlines Air America operated an entire fleet of aircraft out of the secret CIA air base at Long Tieng For years it ranked as one of the busiest airports in the world as the CIA supported the Laotian Army in its efforts to repel the army of North Vietnam intent on conquering all of Laos **Studies in Intelligence , Usaf Air Commando Secret Wars from Laos to Latin America** Eugene D. Rossel, 2016-07-15 The Air Commando secret wars happened mostly during the Vietnam War time frame and was a global effort involving USAF volunteer personnel who were given official military orders that did not necessarily specify the country they served in and civilian clothes were many times authorized Later they had great difficulty proving that they served in many of these countries which affected their future VA care These operations were used to strengthen normally a poor

country with little military resources and training with secret warriors frequently being there doing some of their legwork behind the scenes All the operations were tight lipped frequently forbidden to tell families where you were and what you were doing As an example Capt Bob Simpsons death the first fighter pilot KIA in Vietnam in August 1962 became a total fabrication of where why and how and took a number of years before the government came clean because of my efforts Secret wars have a long history and they will continue because of the interest of more powerful nations with their less fortunate brethren

Hills, 2018-08-29 When Saigon fell to North Vietnamese forces on April 30 1975 the communist victory sent shockwaves around the world Using ingenious strategy and tactics H Chi Minh had shown it was possible for a tiny nation to defeat a mighty Western power The same tactics have been studied and replicated by revolutionary forces and terrorist organizations across the globe Drawing on recently declassified documents and rare interviews with H Chi Minh's strategists and operatives this book offers fresh perspective on his blueprint and the reasons behind both the French 1945 1954 and the American 1959 1975 failures in Vietnam concluding with an analysis of the threat this model poses today Honor Bound Stuart I. Rochester, Frederick T. Kiley, 1998 Honor Bound is the result of a fruitful collaboration between Stuart I Rochester and Frederick Kiley In examining the lives of the prisoners in captivity it presents a vivid sensitive sometimes excruciating account of how men sought to cope with the physical and psychological torment of imprisonment under wretched and shameful conditions It includes insightful analyses of the circumstances and conditions of captivity and its varying effects on the prisoners the strategies and tactics of captors and captives the differences between captivity in North and South Vietnam and between Laos and Vietnam and analysis of the quality of the source materials for this and other works on the subject **Aerospace Historian**, 1981
