The Routledge Handbook of Contemporary Philosophy of Religion is an outstanding reference source to the key topics, problems and debates in this exciting subject. Comprising over thirty chapters by a team of international contributors, the Handbook is divided into seven parts: theoretical orientations; conceptions of divinity; epistemology of religious belief; metaphysics and religious language; religion and politics; religion and ethics; religion and scientific scrutiny. Within these sections, central issues, debates and problems are examined, including religious experience; religion and superstition; realism and anti-realism; scientific interpretation of religious texts; feminist approaches to religion; religion in the public square; tolerance; religion and meta-ethics; religion and cognitive science; and the meaning of life. Together, they offer readers an informed understanding of the current state of play in the liveliest areas of contemporary philosophy of religion. The Routledge Handbook of Contemporary Philosophy of Religion is essential reading for students and researchers of philosophy of religion from across the Humanities and Social Sciences.

**the family churchman**, 1883      **What the Victorians Made of Romanticism** Tom Mole, 2020-06-09

This insightful and elegantly written book examines how the popular media of the Victorian era sustained and transformed the reputations of Romantic writers. Tom Mole provides a new reception history of Lord Byron, Felicia Hemans, Sir Walter Scott, Percy Bysshe Shelley and William Wordsworth, one that moves beyond the punctual historicism of much recent criticism and the narrow horizons of previous reception histories. He attends instead to the material artifacts and cultural practices that remediated Romantic writers and their works amid shifting understandings of history, memory and media. Mole scrutinizes Victorian efforts to canonize and commodify Romantic writers in a changed media ecology. He shows how illustrated books renovated Romantic writing; how preachers incorporated irreligious Romantics into their sermons; how new statues and memorials integrated Romantic writers into an emerging national pantheon; and how anthologies mediated their works to new generations. This ambitious study investigates a wide range of material objects Victorians made in response to Romantic writing, such as photographs, postcards, books and collectibles that in turn remade the public's understanding of Romantic writers. Shedding new light on how Romantic authors were posthumously recruited to address later cultural concerns, *What the Victorians Made of Romanticism* reveals new histories of appropriation, remediation and renewal that resonate in our own moment of media change, when once again the cultural products of the past seem in danger of being forgotten if they are not reimagined for new audiences.
