Art And Morality International Library Of Philosophy:

Art and Morality José Luis Bermúdez, Sebastian Gardner, 2020-10-28 Featuring contributions from Matthew Kieran Aaron Ridley Roger Scruton and Mary Mothersill to name but a few this collection of groundbreaking new papers on aesthetics and ethics highlights the link between the two subjects These leading figures tackle the important questions that arise when one thinks about the moral dimensions of art and the aesthetic dimension of moral life The volume is a significant contribution to philosophical literature opening up unexplored questions and shedding new light on more traditional debates in aesthetics The topics explored include the relation of aesthetic to ethical judgment the relation of artistic experience to moral consciousness the moral status of fiction the concepts of sentimentality and decadence the moral dimension of critical practice pictorial art and music the moral significance of tragedy the connections between artistic and moral issues elaborated in the writings of central figures in modern philosophy such as Kant Schopenhauer and Nietzsche The contributors share the view that progress in aesthetics requires detailed study of the practice of criticism This volume will appeal to both the philosophical community and to researchers in areas such as literary theory musicology and the theory of art

Knowledge and the Curriculum (International Library of the Philosophy of Education Volume 12) Paul H.

Hirst, 2010-02-25 The papers in this volume provide a coherent philosophical study of a group of important and pressing educational issues such as the selection of objectives for less able children the fundamental characteristics of teaching and the integration of the curriculum A thesis on the necessary differentiation of knowledge into logically distinct forms is outlined and is defended against recent philosophical criticisms Its implications for curriculum planning are examined with particular reference to the urgent problems of adequately characterizing liberal education and those forms of moral and religious education that are appropriate in maintained schools

Educational Judgments (International Library of the Philosophy of Education Volume 9) F. Doyle James, 2010-02-25 The topics covered in this volume originally published in 1973 include the need for a more adequate concept or definition of education the issue of whether indoctrination is compatible with education particularly with moral education and the processes of judging the merits of different approaches to aesthetic education Two contributors present complementary analyses of the relations between freedom as a characteristic of institutions and the process of learning to be a free man There is discussion of the neglected subject of rights and duties in education with special emphasis on the question of a universal right to education The volume concludes with papers on the relevance of philosophy to the practical judgments of educators and to education as a field of study

The International Library of Masterpieces Literature Art and Rare Manuscripts Harry Thurston Peck, Frank R. Stockton, Nathan Haskell Dole, Julian Hawthorne, Caroline Ticknor, 1901

Art and Morality José Luis Bermúdez, Sebastian Gardner, 2003-09-02 Art and Morality is a collection of groundbreaking new papers on the theme of aesthetics and ethics and the link between the two subjects A group of distinguished contributors tackle the important questions that arise when one

thinks about the moral dimensions of art and the aesthetic dimension of moral life The volume is a significant contribution to philosophical literature opening up unexplored questions and shedding new light on more traditional debates in aesthetics The topics explored include the relation of aesthetic to ethical judgement the relation of artistic experience to moral consciousness the moral status of fiction the concepts of sentimentality and decadence the moral dimension of critical practice pictorial art and music the moral significance of tragedy and the connections between artistic and moral issues elaborated in the writings of central figures in modern philosophy such as Kant Schopenhauer and Nietzsche The contributors share the view that progress in aesthetics requires detailed study of the practice of criticism This volume will appeal both to the philosophical community and to researchers in areas such as literary theory musicology and the theory of art

Philosophers as Educational Reformers (International Library of the Philosophy of Education Volume 10)

Peter Gordon, John White, 2010-02-25 This volume assesses how far the ideas and achievements of the 19th century British Idealist philosophical reformers are still important for us today when considering fundamental questions about the structure and objectives of the education system in England and Wales Part 1 examines those ideas of the Idealists especially T H Green which had most bearing on the educational reforms carried out between 1870 and the 1920s and traces their connection with the philosophy and educational theory of Hegel and other post Kantians Part 2 is an historical survey concentrating on the innovations in the organization and contents of education in England and Wales brought about by the administrators and educationists educated in philosophical idealism Part 3 considers what relevance the philosophical and practical ideas of this interconnected group of reformers have to education today

International Library of the Philosophy of Education Charles Bailey, 2021-07-09 International Library of the Philosophy of Education reprints twenty four distinguished texts published in this field over the last half century and includes works by authors such as Reginald D Archambault Charles Bailey Robin Barrow Norman J Bull D E Cooper R F Dearden Kieran Egan D W Hamlyn Paul H Hirst Glenn Langford D J O Connor T W Moore D A Nyberg R W K Paterson R S Peters Kenneth A Strike I A Snook John and Patricia White and John Wilson Themes discussed include Liberal education moral education the aims of education the education of teachers adult continuing education and the philosophical analysis of education

The Philosophy and Practice of Medicine and Bioethics Barbara Maier, Warren A. Shibbes, 2010-11-03 This book challenges the unchallenged methods in medicine such as evidence based medicine which claim to be but often are not scientific It completes medical care by adding the comprehensive humanistic perspectives and philosophy of medicine No specific or absolute recommendations are given regarding medical treatment moral approaches or legal advice Given rather is discussion about each issue involved and the strongest arguments indicated Each argument is subject to further critical analysis This is the same position as with any philosophical medical or scientific view The argument that decision making in medicine is inadequate unless grounded on a philosophy of medicine is not meant to include all of philosophy and every philosopher On the contrary it includes only sound

practical and humanistic philosophy and philosophers who are creative and critical thinkers and who have concerned themselves with the topics relevant to medicine These would be those philosophers who engage in practical philosophy such as the pragmatists humanists naturalists and ordinary language philosophers A new definition of our own philosophy of life emerges and it is necessary to have one Good lifestyle no longer means just abstaining from cigarettes alcohol and getting exercise It also means living a holistic life which includes all of one s thinking personality and actions This book also includes new ways of thinking In this regard the Metaphorical Method is explained used and exemplified in depth for example in the chapters on care egoism and altruism letting die etc **Towards a Theory of Relativity of Truth in Morality and Religion**

Charles Goossens,1990 This study argues for a model in which moral truth is presented as truth in the perspective of certain social commitments while religious truth is interpreted as truth in the perspective of religious experience It theorizes that relativity need not conflict with universality Truth from the perspective of the outsider is therefore truth without qualification **The Philosophical Review** Jacob Gould Schurman,James Edwin Creighton, Frank Thilly, Gustavus Watts Cunningham,2003 **Selected Writings in Art Criticism, 1967-1992** Adrian Piper,1996 Out of Order Out of Sight is an artistic and intellectual autobiography and commentary on mainstream art art criticism and American culture of the last twenty five years Cover New Essays in the Philosophy of Education (International Library of the Philosophy of Education Volume 13) Glenn Langford,D.J. O'Connor,2010-02-25 This volume includes discussions on the concept of education and such related topics as indoctrination and the nature and scope of the theory of education **Philosophy and the Martial Arts**

Graham Priest,Damon Young,2014-09-19 This is the first substantial academic book to lay out the philosophical terrain within the study of the martial arts and to explore the significance of this fascinating subject for contemporary philosophy The book is divided into three sections The first section concerns what philosophical reflection can teach us about the martial arts and especially the nature and value of its practice The second section deals with the other direction of the dialectical interplay between philosophy and the martial arts how the martial arts can inform philosophical issues important in their own right Finally because many of the notable martial arts are of Asian origin there are particularly close links between the arts and Asian philosophies and Buddhism in particular and therefore the last section is devoted to this topic The essays in this collection deal with a wide range of philosophical issues normative ethics meta ethics aesthetics phenomenology the philosophy of mind Ancient Greek and Buddhist thought By demonstrating the very real nature of the engagement between the martial arts and philosophy this book is essential reading for any serious student or scholar with an interest in the martial arts Eastern philosophy the philosophy of sport or the study of physical culture Art and Ethics in a Material World Jennifer A McMahon,2013-11-26 In this book McMahon argues that a reading of Kant s body of work in the light of a pragmatist theory of meaning and language which arguably is a Kantian legacy leads one to put community reception ahead of individual reception in the order of aesthetic relations A core premise of the book is that neo pragmatism draws attention

to an otherwise overlooked aspect of Kant's Critique of Aesthetic Judgment and this is the conception of community which it sets forth. While offering an interpretation of Kant's aesthetic theory, the book focuses on the implications of Kant's third critique for contemporary art. McMahon draws upon Kant and his legacy in pragmatist theories of meaning and language to argue that aesthetic judgment is a version of moral judgment, a way to cultivate attitudes conducive to community which plays a pivotal role in the evolution of language, meaning, and knowledge.

Athletic Enhancement, Human Nature and Ethics Jan Tolleneer, Sigrid Sterckx, Pieter Bonte, 2012-12-09. The book provides an in-depth discussion on the human nature concept from different perspectives and from different disciplines, analyzing its use in the doping debate and researching its normative overtones. The relation between natural talent and enhanced abilities is scrutinized within a proper conceptual and theoretical framework. Is doping to be seen as a factor of the athlete's dehumanization, or is it a tool to fulfill his/her aspirations to go faster, higher, and stronger? Which characteristics make sports such a peculiar subject of ethical discussion, and what are the both intrinsic and extrinsic moral dangers and opportunities involved in athletic enhancement? This volume combines fundamental philosophical, anthropological, reflection with applied ethics and socio-cultural and empirical approaches. Furthermore, guidelines will be presented to decision and policy makers on local, national, and international levels. Zooming in on the intrinsic issue of what is valuable about our homo sapiens biological condition, this volume devotes only scant attention to the specific issue of natural talent and why such talent is appreciated so differently than biotechnological origins of ability. In addition, specific aspects of sports such as its competitive nature and its direct display of bodily prowess provide good reason to single out the issue of natural athletic talent for sustained ethical scrutiny.

Disasters: Core Concepts and Ethical Theories Dónal P. O'Mathúna, Vilijus Dranseika, Bert Gordijn, 2018-10-16. This Open Access Book is the first to examine disasters from a multidisciplinary perspective. Justification of actions in the face of disasters requires recourse both to conceptual analysis and ethical traditions. Part 1 of the book contains chapters on how disasters are conceptualized in different academic disciplines relevant to disasters. Part 2 has chapters on how ethical issues that arise in relation to disasters can be addressed from a number of fundamental normative approaches in moral and political philosophy. This book sets the stage for more focused normative debates given that no one book can be completely comprehensive. Providing analysis of core concepts and with real-world relevance, this book should be of interest to disaster scholars and researchers, those working in ethics and political philosophy, as well as policy makers, humanitarian actors, and intergovernmental organizations.

Between System and Poetics Thomas A.F. Kelly, 2016-04-08. This is the first book-length examination of the work of an important contemporary thinker in the continental tradition, William Desmond. His thought is a new post-modern way of articulating what he calls the between. Rooted in Plato and

Augustine and advancing through a confrontation with Hegel and Nietzsche Desmond rejects facile scepticism and wins through to a strikingly original and powerfully searching articulation of the human The present volume contains essays on Desmond's work both by emerging scholars and by well established thinkers It also contains a specially written essay on the practices of philosophy by Desmond himself *Ethical Issues of Human Genetic Databases* Bernice Elger, 2016-05-13

Following the boom in population databases in recent years there has been sustained and intense international debate about political processes and legal and ethical issues surrounding the protection and use of genetic data As a result several national and international organizations and committees have published widely differing guidelines and statements concerning genetic databases and biobanks *Ethical Issues of Human Genetic Databases* compares the new area of biobanking with the tradition of ethically accepted classical research and highlights the distinctive features of existing databases and guidelines The volume identifies areas of consensus and controversy while investigating the challenges posed to classical health research ethics by the existence of genetic databases analyzing the reasons for such varying guidelines The book will be essential to academics biobankers policy makers and researchers in the field of medical ethics
