Morgan, 2017-04-18 Originating in a homicide in St Louis in 1899 the ballad of Frankie and Johnny became one of America's most familiar songs during the first half of the twentieth century It crossed lines of race class and artistic genres taking form in such varied expressions as a folk song performed by Huddie Ledbetter Lead Belly a ballet choreographed by Ruth Page and Bentley Stone under New Deal sponsorship a mural in the Missouri State Capitol by Thomas Hart Benton a play by John Huston a motion picture *She Done Him Wrong* that made Mae West a national celebrity and an anti lynching poem by Sterling Brown In this innovative book Stacy I Morgan explores why African American folklore and Frankie and Johnny in particular became prized source material for artists of diverse political and aesthetic sensibilities He looks at a confluence of factors including the Harlem Renaissance the Great Depression and resurgent nationalism that led those creators to engage with this ubiquitous song Morgan's research uncovers the wide range of work that artists called upon African American folklore to perform in the 1930s as it alternately reinforced and challenged norms of race gender and appropriate subjects for artistic expression He demonstrates that the folklorists and creative artists of that generation forged a new national culture in which African American folk songs featured centrally not only in folk and popular culture but in the fine arts as well **Arts and Culture** Janetta Rebold Benton, Robert DiYanni, 2012 For an undergraduate introductory level course in humanities An introduction to the world's major civilizations This Fourth Edition is an introduction to the world's major civilizations their artistic achievements their history and their cultures Through an integrated approach to the humanities Arts and Culture offers an opportunity to view works of art read literature and listen to music in historical and cultural contexts In studying the humanities we focus our attention on works of art literature and music that reflect and embody the central values and beliefs of particular cultures and specific historical moments [Arts and Culture](#) Janetta Rebold Benton, Robert DiYanni, 2010-12-30 For an undergraduate introductory level course in humanities An introduction to the world's major civilizations This Fourth Edition is an introduction to the world's major civilizations to their artistic

Fleckenstein,Linda T. Calendrillo,Demetrice A. Worley,2002-02-01 This volume offers concrete answers to the question of how we can use imagery to enrich the teaching of reading and writing The chapters are organized according to two guiding principles First each

addresses specific aspects of the inextricable integration of imagery and language in the teaching of reading and writing. Imagery is not privileged over language; the fusion of the two is emphasized. Second, each focuses on a particular kind of imagery: mental, graphic, or verbal, describing teaching and learning strategies based on the deployment of that kind of imagery in the classroom. There is currently a renewed acknowledgment of the importance of imagery in meaning. The rapid spread of the World Wide Web, computer interfacing, and virtual reality further highlights the need to attend to the influence of imagery in a networked world. In response to these shifts in scholarly and cultural perspectives, NCTE has established a committee on visual literacy, and an emphasis on visual literacy has been incorporated into the IRA/NCTE Standards for the English Language Arts. This book contributes significantly toward filling the need for explicit and specific theory-based methods teachers can use to integrate imagery into their pedagogy. Accessible and lively chapters include classroom activities and student-generated examples. *Language and Image in the Reading/Writing Classroom* is an excellent text for preservice and in-service pedagogy courses and an important resource for practicing teachers, researchers, and professionals in the field.
