Abel, 2012-12-06 I have written this book because I felt there was a need to bring together in one place the vast amount of research that has been published in the past 10 years concerning alcohol's effects on the conceptus My hope is that this book will be of value to the many clinicians basic research scientists social workers and others who are interested in this important issue The number of such publications continues to grow each year and it was a very difficult task to review even a proportion of them completely While I have cited many of these research studies only those that in my very subjective opinion warranted extended coverage were discussed In this regard much of my task was facilitated by the many excellent reviews that have already been written To those whose important contributions have not been discussed or cited I offer my sincere apologies Omission of these publications in most cases reflects my own personal interests or awareness rather than merit ADHD and Fetal Alcohol Spectrum Disorders (FASD) Kieran D. O'Malley, 2007 This multi author book will discuss the history and clinical presentation of Foetal Alcohol Spectrum Disorders FASD i e Fetal Alcohol Syndrome FAS and Alcohol Related Neurodevelopmental Disorder ARND These developmental neuropsychiatric disorders result from prenatal exposure to alcohol during any gestational period of pregnancy The book will particularly address the co occurring presence of ADHD in patients with FASD ADHD is the most frequent neuropsychiatric presentation of FASD throughout the lifespan and it is particularly difficult to manage because the underlying pathophysiology is related to prenatal neurotoxic brain injury Although prenatal alcohol exposure and the resulting FASD is recognised as the commonest preventable cause of intellectual disability many clinicians and educators are not aware that 75 to 80% of the patients with FASD have I Q s over 70 Thus the neuropsychiatric presentation of FASD can often be unrecognised or misunderstood FASD are the true clinical masqueraders and ADHD is their most likely disguise The authors are all

experienced professionals from a wide range of disciplines working throughout the USA and Canada They have been involved in the diagnosis research and management of FASD for many years and this book will bring their collective knowledge regarding management from infancy to adulthood to an inter professional audience **Fetal Alcohol Spectrum Disorder**
