Representing East Germany Since Unification Paul Cooke, 2005-08 Cooke maps out the problematic path of German national identity as it struggles to deal with the legacy of division Drawing on postcolonial theory he argues that the East has been defined as the West's exotic other and shows how this stereotype has been vigorously challenged

this essay will proceed as follows Firstly the developments in Germany leading to the opening of the Berlin Wall and the subsequent unification will be described and analyzed Secondly the economic and socio cultural outcomes of the unification will be briefly analyzed Thirdly recommendations for the Korean Peninsula will be formulated and finally the essay will conclude its findings
