**A Postcard History of the Passenger Liner** Christopher Deakes, 2023-10-01 From around 1880 for almost a hundred years shipowners commissioned a wealth of paintings that depicted their magnificent liners as well as the routes they travelled their exotic destinations and life onboard These paintings rich in imagination and atmosphere appeared on postcards and posters of the day and were used to advertise the companies and their ships and so was born a whole genre that produced tens of thousands of paintings which formed a wonderful record of the great era of the passenger liner In 1900 there were over thirty shipping companies operating passenger liners across the North Atlantic Other oceans were similarly served But now with just a few exceptions the companies and their liners have disappeared along with the art they once inspired Little remains to recall this aspect of our maritime past except the postcards and they tell an evocative story of the vanished world of elegant ships and leisurely travel of social and political times much changed by the history of the past century Here brought vividly to life in more than 500 colourful postcards are the ships on which so many of our predecessors sailed as emigrants soldiers administrators or simply as tourists in days long past These cards which are now highly collectable show how steamships developed over the years but they are also a fine tribute to the artists who painted them This volume also includes a glossary of some 170 illustrators which forms an important reference section and advice on collecting

**Postcards in the Library** Norman D Stevens, 2014-01-09 Postcards individually and collectively contain a great deal of information that can be of real value to students and researchers Postcards in the Library gives compelling reasons why libraries should take a far more active and serious interest in establishing and maintaining postcard collections and in encouraging the use of these collections It explains the nature and accessibility of existing postcard collections techniques for acquiring arranging preserving and handling collections and ways to make researchers and patrons aware of these collections Postcards in the Library asserts that in most cases existing postcard collections are a vastly underutilized scholarly resource Editor Norman D Stevens urges librarians to help change this since postcards as items for mass consumption and often with no apparent conscious literary or social purpose are a true reflection of the society in which they were produced Stevens claims that messages written on postcards may also reveal a great deal about individual and or societal attitudes and ideas Chapters in Postcards in the Library are written by librarians who manage postcard collections postcard collectors and researchers Some of the authors have undertaken major research projects that demonstrate the ways in which postcards can be used in research and that have begun to establish a standard methodology for the analysis of postcards They write about major postcard collections including the Institute of Deltiology and the Curt Teich Postcard Archives the use of postcards for scholarly research postcard conservation and preservation arrangement and organization and importance and value Postcards in the Library describes the postcard collections in a variety of libraries of different kinds and sizes and indicates very real ways in which the effective use of postcard collections can result in and contribute to substantive scholarly publications It also offers advice and suggestions on the myriad issues that libraries face in handling these ephemeral fragments of popular culture Special collections librarians postcard collectors postcard dealers and historical societies will find the information in Postcards in the Library refreshing and practical Libraries with established postcard collections or those thinking about developing postcard collections will use it as a valuable planning tool and start to finish guide
