**Borges, Language and Reality** Alfonso J. García-Osuna,2018-11-23 This book brings together the work of several scholars to shed light on the Argentine author Jorge Luis Borges complex relationship with language and reality A critical assumption driving the work is that there is as Jaime Alazraki has put it a genuine effort to overcome the narrowness that Western tradition has imposed as a master and measure of reality in Borges writing That narrowness is in large measure a consequence of the chronic influence of positivist approaches to reality that rely on empirical evidence for any authentication of what is real This study shows that in opposition to such restrictions Borges saw in fiction in literature the most viable means of discussing reality in a pragmatic manner Moreover by scrutinising several of the author s works it establishes signposts for considering the truly complicated relationship that Borges had with reality one that intimately associates the real with human perception insight and language *The Literary Afterlives of Roger Casement, 1899-2016* Alison Garden,2020 This book explores the literary and cultural afterlives of Ireland s most enigmatic shape shifting and controversial son Roger Casement Drawing upon a transnational selection of modern and contemporary texts alongside significant archival research this book positions Casement as a vital and fascinating figure in the compromised and contradictory terrain of Anglo Irish history
